Subject: RE: NEW transfer app

This proposal should not have an adverse affect on stream values, if the pump intake is properly screened. Rec. Cond.
[The pump intake shall be placed in a screened box with mesh size not to exceed .25 inch.]

Sincerely,

Terry Blau
Idaho Stream Channel Protection Specialist

Subject: NEW transfer app

FYI &/or comment:

Bill Arkoosh has filed T# 71639 for changes to rights on the Big & Little Wood River. Transfer filed to add a new point of diversion to two Little Wood River rights and one Big Wood River right injected into and diverted from the Little Wood River. The three rights, totaling 6.50 cfs, are used to irrigate 245 acres on a farm located along the Little Wood River approximately 5.5 - 7.7 miles west and 1.7 - 2.3 miles north of Shoshone. The rights will continue to be diverted from two existing points of diversion on the Little Wood River and a new pump (further downstream) located approximately 7.2 miles west and 2.0 miles north of Shoshone.

Corey worked on this one.
