Department of Water Resources
Water Right License
WATER RIGHT NO. 37-07644

5. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
6. If the surface water rights appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
7. The right holder shall maintain measuring devices at the points of injection into and redirection from Patton Creek and shall maintain lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.
8. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor exceed a combined annual maximum diversion volume of 488.3 af at the field headgate for the lands above.
9. Rights 37-7644, 37-2649A, 37-2649B and 37-7014 when combined shall not exceed a total diversion rate of 5.0 cfs.
10. The portion of Right 37-7644 used for conveyance losses is 0.04 cfs.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and sealed this 22nd day of February, 2005.
