1. dcarlson 4/22/2003 Field Report Narrative

Comment: spring collection field with 4" PVC pipes to 3 foot culvert collection tank to pipelines to stock troughs.

600 range cattle

2. eretelle 12/9/2004 amendment

Comment: The PoD is a spring in the NENENE, not the SENENE. Also, the applicant requested an extension of his period of use from 5-15 to 10-15 to 5-1 to 11-1. This is not an enlargement from the permit and is included in the amendment.

3. eretelle 12/10/2004 measuring device

Comment: 01J was on the permit which goes to R43 on the license. R43 is for uses over 0.04 cfs. This right no longer exceeds 0.04 cfs. After discussion with the field exam reviewer, 01P was used instead since the watermaster of WD 01 does not typically regulate uses this small that are non-consumptive.

4. VAULT 7/6/1999 Proof of Beneficial Use Rcvd

Comment: Proof of Beneficial Use Rcvd
