PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 45-13573

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form and field examination report for the above-referenced permit. The next step in the process is for the department to review the file for issuance of a water right license.

However, during my review of the proof you filed you state the measuring device requirement has not been installed. According to the permit condition no. 4 which requires that "the right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information." It is important that this condition be complied with in order that the license may be issued, or if a waiver is sought that you request the department to issue an order amending this condition.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau
