PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO 36-8791

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right, is for the department to conduct a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use. The regional office will contact you to schedule a field examination at their first opportunity.

During my review of your proof and permit, I found that according to condition of approval paragraph no. 5 of this permit, it states that, "The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code." If you have not complied with this condition, I recommend that you comply prior to the field examination.

Be advised that Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the **Southern** Regional Office of the department in Twin Falls (208) 736-3033, or myself at (208) 287-4942.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

Encl.
