Re: Transfer No.: 71239 – Water Right 63-31894
Transfer No.: 71238 – Water Right 63-31895

Dear Ms. Clark:

We received the July 29, 2004 Transfer Approval Notice signed by Pamela S. Shaggs for Jeff Peppersack, Manager of the Water Rights Permits Section. The top paragraph on page two says no diversion of water can occur from this transfer approval until the water right is removed from the Water Supply Bank, because the water right is currently leased to the Water Supply Bank until December 31, 2005.

We are the ones who put the water in the Water Supply Bank, and the purpose of this letter is to formally request that the water be removed from the Water Supply Bank since the water is not rented for the 2005 irrigation season.

We understand that upon approval and removal of the water from the Water Supply Bank, the transfers identified above become permanent. Please contact us if we have misunderstood, and let us know when removal of the water from the Water Supply Bank has been approved and is complete.

Sincerely,

Chris Doyle
