Water Right Application**No. of Pages:** 2
(including cover)

Jim –

The proposed irrigated area for the Woodside Elementary School project is shown on the following schematic. The initial project includes 5.6 acres. I have included an additional 1.6 acres at the north end of the school area for contingency purposes.

I am mailing an original copy. Since the schematic is in color, the original will probably be more legible than the fax.

Please call with any questions.

Terry
