RE: App For Permit 37-21177, Blaine County School District #61

Dear Mr. Scanlon;

I have received your faxed maps that have allowed me to complete the required ArcView work on this application. While discussing the app with our Boise office at a recent staff meeting, Jeff Peppersack mentioned that we should have a study showing the relationship between the Big Wood River water to be used for mitigation and the proposed new well. Jim Speck told me that you are taking care of such things for the applicant, so I am requesting that you provide this information. If you have questions as to exactly what is needed, Jeff can be reached at 327-7947. My supervisor has told me to hold this application until the study is received in this office; advertising will not occur until then.

Regards,

James E. Stanton
Sr. Water Resource Agent
