RE: App For Permit 37-21177, Blaine County School District #61

Dear Mr. Scanlon;

During our telephone conversation in late January, you said that you would submit the required engineering study for this application within a week or two. The study still has not been received, however, and the application cannot be properly reviewed without it. Please submit this information by Tuesday, May 25, so that processing can continue. If adequate information is not received by that date, the Department will issue a preliminary order to reject or deny the application. If more time is needed, it can be granted for sufficient cause upon receipt of a written request.

Regards,

James E. Stanton
Sr. Water Resource Agent
