RE: App For Transfer 71669 (Gardiner Place; Rights Retained By Hal Anderson)

Dear Peter;

I have done most of my initial review of this transfer, but will withhold further action until you get the new well drilled on the Wallin place so that you can decide whether or not you want to include this well as a point of diversion for the Gardiner place. Once the point(s) of diversion are decided on, I will complete my review and let our Boise office know that the file is ready for their review. They have informed me that their review will not start until you provide documentation that you have actually purchased the water from Mr. Anderson. The transfer will not be advertised until Boise has finished their review, so it will still take some time after that before your transfer is ready for final action. Assuming that you purchase these water rights as planned, most of the irrigation season will be over before you could legally irrigate the additional ground on the Gardiner place

Regards,

James E. Stanton
Sr. Water Resource Agent
