Re: Evaluation of Sufficiency of Information Submitted

Transfer involves right 31-11443 that serves as a groundwater irrigation right for Robert and Donna Bybee, and right 31-07014 that serves as a groundwater irrigation right for Irvin and Margarite Ball. This transfer involves moving the 33 acres under right 31-11443 to the PoD, PoU and same ownership as right 31-07014. This action reduces the PoU for rights 31-11604, 31-11688 and 31-11689 as conditioned on the partial decree.

• **Authority to File:**

Applicants are listed as current owner of rights on the partial decree and IDWR records. This action is based on the amended application received May 17, 2004.

• **Water Right Validity:**

Rights 31-11443 and 31-07014 have been claimed in the SRBA and decreed on February 22, 2002.

• **Injury to Other Water Rights:**

None anticipated. Water to be used in the same amount as before. Execution of the ESRP Transfer Model Spreadsheet projects less than a 5% change in impact.

• **Enlargement of Use:**

None apparent. Rights to be used in consistent amounts and be limited for combined use.

• **Local Public Interest:**

No negative impacts anticipated.

• **Beneficial Use/Conservation of Water Resources:**

Proposed use of water is recognized as beneficial use of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
