

MEMORANDUM

To: Files 63-31861 and 63-2656B
From: Cynthia Bridge Clark
Date: February 14, 2005
Re: Lease of a water right to the State Water Supply Bank

A portion of the referenced water right is leased to the bank as follows:

<u>Right No.</u>	<u>Acres (ac)</u>	<u>Diversion Rate (cubic ft per sec., cfs)</u>	<u>Diversion Volume (acre-feet, af)</u>
63-31861	34 ac	0.49 cfs	153.0 af

An application to Sell or Lease a Water Right to the Water Supply Bank was filed with the department with an application for transfer. The bank application was processed in accordance with the transfer approval (no. 71109). The application to the bank identifies water right no. 63-11199 for lease with a point of diversion in the NENE, Section 26, T4N, R1W, B.M. The right was split and renumbered through the transfer and the point of diversion changed. A portion of renumbered right 63-31861 was leased to the bank, with the new point of diversion in the SWNE of Section 26.

When combined, rights 63-31861 and 63-2656B are limited to irrigation of 77 acres. This includes 43 acres that overlap from each right. The remaining 34 acres from 63-31861 do not overlap 63-2656B. This portion was leased to the bank. See the transfer review memorandum by Lori Graves, dated March 11, 2004 in file 63-2656 for a clarification of the transfer and the portion leased to the bank.
