PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 22-13221

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit together with a license examination fee in the total amount of \$125.00

Enclosed is an order reinstating the permit advancing the priority since proof was submitted after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. With this letter, I am notifying the regional office that you request your exam be conducted as soon as possible. However, according to your permit, paragraph no. 6 states that "Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works." During my review of the proof you filed, you represented that this condition is not required. Please be advised that you should install measuring device and lockable controlling works before a department examiner conducts an onsite field examination to determine the extent of beneficial use.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **Eastern** Regional Office of the department in Idaho Falls at (208) 525-7161, or contact me with any other questions at (208) 287-4942.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau
