RE: Large aerial photo dated 10/29/1939

Dear Mr. or Mrs. Flores:

The large aerial photo dated 10/29/1939, showing irrigation, does not indicate the source of the photo. According to the adjudication standards additional documentation would be necessary to establish the proof of priority. As an example, several of the smaller aerial photos indicate that they are from the 1978 over flight of the Farm Service Agency and were signed & dated.

It would be appreciated if you could provide documentation as to the source of the large aerial photo, authentication and/or acknowledgement as to the date on the aerial and a signature of the individual from whom you obtained the aerial.

Your assistance in this matter will be greatly appreciated.

Thank you,

Keith C. Wilson
Senior Resource Agent
