RE: App For Transfer 71642

Dear John;

Allen Merritt of this office has reviewed your mitigation plan, and found it to be sufficient. The flow rate and volume for the Cavener right will be reduced by 46% upon approval of the proposed water transfer; there will be NO reduction in the number of irrigated acres. No reductions in the rights presently used south of Gooding are required. The transfer file will be scanned and presented to our Boise office for their review shortly. Once they have approved the proposed conditions of approval, the transfer will be scheduled for advertising.

Regards,

James E. Stanton
Sr. Water Resource Agent
