

MEMORANDUM

Date: July 13, 2004
To: Water Right File 78-7316
From: E Retelle
Re: PoU conflict

Doug at the Adams county assessor's office indicated Bruce Ring's private land lays entirely in section 22. Both the field examiner's GPS readings, and Shelly's 6/28 conversation with the forest service indicate the PoU bus is in section 15, placing it on public land. Conversely, the written report by the forest service says about 250 feet of pipe run from the PoD to the bus. The line between sections 15 and 22 is 225 feet south of the PoD.

I also spoke to Lori, the field examiner, who indicated she remembered the exam and didn't necessarily think the GPS readings were accurate because the unit took a long time to get enough satellites and give a reading. She also said the USFS people were with her, and asked for her GPS readings, so perhaps the incorrect information they gave was from the same source. The GPS data was uncorrected.

Because of these conversations, it has been decided the license will reflect the PoU on Bruce Ring's private land in the NENE of section 22.
