

MEMORANDUM

DATE: 11/27/02

FROM: Lori Graves

TO: Transfer File No. 66602

RE: Capitol Water Corp.

Brief

This is a transfer that has been in the works since 1997. The original transfer no. was 5180. Three memos included in the file describe the issues that have surfaced during the review process and after. Please refer to my first memo dated 11/25/1997 for an overview, Gary's memo dated 11/22/1998 for additional info and Gary's final memo dated 11/7/02 for recommended conditions of approval.

Workflow Records

Workflow shows that the correct records involving the five SRBA claims and one water right were acted on. The transfer data entry in workflow was also checked for accuracy. The transfer application listed the p/d's to the 10 acre tract, although they were licensed only to the 40 acre tract. The Ed Squires Report that was submitted later shows some of the wells in different 10 acre tracts than were listed on the transfer. No information was provided regarding the accuracy of Ed's mapped p/d's. Because of this discrepancy, the approved transfer should list the p/d's to 40 acre tracts, as they were licensed, to avoid difficulties (per consultation with Steve Lester 11/26/02).

Arc View has yet to be completed.
