Ms. Cyndie Clark
Idaho Department of Water Resources

Dear Ms. Clark:

Our farm agronomist, Mr. Mike Larsen, has recently been in contact with you regarding the leasing of water from several parcels of land. The purpose of the lease is to use water located on the pivot corners of the East ½ Section 28, T7S, R25E owned by Dougals E. Grant and Laurel A. Grant and known as the 'Lindauer farm' irrigated with water right 36-2684, and part of the water from the pivot corners of the West ½ of Section 15, T7S, R24E owned by Duane and Laura Grant and known as 'Section 15', to irrigate a portion of land located in the NW ¼ Section 1, T8S, R25E. Mike indicated that a history of the farmed acres on the two source pieces would be helpful. The history to the best of my knowledge is as follows:

Water Right #	Year	Water right acres	Ground use 1	Aprox. Acres Use 1	Ground use 2	Aprox. Acres Use 2
36-2684	2004	320	Sugarbeets	260	Fallow	60

The change in water right acres under the 36-2130 et al water right between 1999 and 2000 is related to the transfer of water right acres from the Section 15 parcel to the Roy Honsinger parcel.

Please let me know if you need any additional information on this matter. Thank you for your assistance.

Sincerely,

Duane Grant
