Re: Points of Diversion in Two Basins

Ground water permit 45-13411 authorizes six points of diversion in Basin 45 and one point of diversion in Basin 36 for municipal use by the City of Burley. Rather than issue duplicate permits, which could cause confusion when processing proof of beneficial use and conducting a field exam, I recommend creating duplicate water right records in the computer database when the right is licensed. The license should be issued with a Basin 45 water right number and a Basin 36 water right number on it. The watermaster of Water District 130 will be informed of this strategy.
