## 6. General Information:

- a. Who owns the water right to be changed? Long Island Canal Co.
- b. Describe the arrangement allowing use of the right Agreement where by Island stored water is made available to Long Island
- c. Describe the affect on the land now irrigated if the change is approved pursuant to this application:  
1000 Acres of land within Long Island system will no longer receive Long Island water after approval
- d. Has the water right sought to be transferred been used this year? YES If yes, explain. The Snake River watermaster distributes all water rights in Priority
- e. Absent the changes, how would the right be used for the remainder of the year? Diverted through the Long Island system
- f. Describe other water rights used for the same purpose.  
West Labelle & Long Island combine 15 other rights
- g. Remarks: This transfer will allow some pump diversions in Long Island to be provided storage while saving production w/in Island system.

I hereby assume all risk in accordance with Section 42-222A, Idaho Code, and assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge, I understand that any willful misrepresentations made in this application may result in voiding its approval.
