Re: Place of Use Overlap

This morning I spoke with SRBA reviewer Greg Taylor about his investigation of Claim 85-2021, which is used for irrigation on the same property as this right. He thinks there is some overlap of the places of use for the two rights, but he is not sure how much. It is probably just in the area labeled "Trees with drip lines" by the field examiner for this right. Because of the uncertain nature of the overlap, the possibility that the SRBA recommendation could change before it is decreed, and the outdated place of use description on License 85-2021, this right will be licensed without combined use conditions.
