Dear Mr. Higginson:

Enclosed is the completed form for "Proof of Application of Water to Beneficial Use;" Permit Number 95-7045 - Jacklin Partnership State Line, River Ranch, Drying Area Farm. An additional information sheet is also attached.

As a matter of background history: Jacklin Seed Company has developed three wells on this farm. The first two were covered by individual permits. At the time of developing the third well we applied for a single water permit (95-7045) to cover all three wells and all acres within the farm.

As I have notified your office previously, Jacklin Seed Company has experienced maintenance problems on Sparling meters over the last four years. Please note information chart attached to application form indicating lack of 1972 and 1973 meter readings on the Drying Area well due to faulty meter. A new meter was ordered last year and is in hand now. It will be installed and operating by the start of the 1974 watering season. I have, however, included the 1970 meter reading in order to provide a three-year history. I have also used an estimated figure for 1972, 1973 Drying Area calculations.

If there are questions regarding the Proof of Application form, please advise.

Very truly yours,

Gentlemen:

One of the conditions of approval of your water Permit No.'s 95-7043, 95-7044, and 95-7045 (see last page of your approved permits) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1974. Enclosed are affidavit forms which must be used to submit the required proofs of beneficial use.

If you have not fully completed your projects, and you have not previously received extensions of time, you may request an extension of time provided the delay is for reasonable causes as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted for each permit.

Either the beneficial use affidavits, or a request for extensions of time, must be received by this Department on or before the above mentioned date, otherwise the permits will lapse and be of no further force or effect.
