Re: JM Cattle proposed new well

Dear Ms. Graves:

Mr. John Mortensen of JM Cattle has requested that we contact you concerning his request for a new well. This well would be located in 1S, 3W, section 13. There are limited homes and population in this area except for Mr. Donald Martin. His well, D0031893, was drilling in 2004 to 384' with a production rate of 150+ g.p.m. This current well is at least 1000' away for the proposed new well. To the best of our knowledge, this new well should have little or no impact on Mr. Martin's well.

Please feel free to contact our office if you have any questions or concerns.

Sincerely,

A handwritten signature in cursive script that reads "Dave Adamson". The signature is written in a dark ink and is positioned above the printed name.

Dave Adamson
Owner/Driller
