RE: Response of Applicant to Fish and Game Comment upon Application for Permit No. 37-21339 - Peter Bowler

Dear Mr. Parrish:

I appreciate Fish and Game's comments upon my Application for Permit No. 37-21339. As we discussed by telephone, the small pond I propose lies within the existing streambed, so no water will be diverted for the purpose of pond creation. The pond depth will be reduced to no more than one foot (12 inches), significantly ameliorating the thermal impact you suggested. As you stated, this modification satisfies Fish and Game concerns with the Application and still provides a pond as an aesthetic beneficial use.

Thank you for your consideration. I enjoyed talking with you about this and am hopeful that DWR will grant the Application now that Fish and Game issues have been resolved.

Sincerely,

Peter A. Bowler

cc. Jeanie Robertson, Sr. Water Resource Agent, Idaho Department of Water Resources

12/22/04 I talked with Dave Parrish with
F&G. Dave indicated he was
OK with pond as long as depth of
water was 12" or less.
