Dear Roger:

Somehow this matter managed to fall in a crack here. Upon receiving your letter of June 9, I sent a copy to Dick Clayton and I understood from him that he had responded about the pump installation question. Since I have heard nothing further on that, I assume it is okay for now.

However, you apparently returned the application to us and it became separated from the letter. In any event, we haven't responded. We are returning the application and attachments, together with the black and white maps you sent, marked up as best we are able.

On the map showing part of the NWNE Section 1, 1N., 43E., I am not certain we understand the scale, but we have tried to color in yellow the two acres to be irrigated. On one showing the land from which the water rights are to be taken, we have attempted to color in yellow the land to be dried up.

Thank you for your kind attention to this matter.

Yours very truly,

Kent W. Foster
