Subject: Proof of Beneficial Use and Beneficial Use Field Report – 63-12323

Dear Steve:

On behalf of Lloyd Kiff and Julia Kiff, I have enclosed Proof of Beneficial Use and Beneficial Use Field Report for permit 63-12323. The permit authorizes diversion of 0.04 cfs for irrigation of 2.0 acres. I conducted a field examination and found 2.0 acres irrigated under the permit, and a diversion capacity in excess of 0.04 cfs. All permit conditions have been met.

The permit is mitigated by a 2-acre portion of water right 63-270 (claim 63-31497). The place of use listed on the claim is the original place of use. Should the place of use be changed to the Kiff property, or should it remain at the original place of use?

Please contact me with any questions.

Sincerely,

Terry M. Scanlan, P.E., P.G.
