RE: Application for Permit

Dear Applicant:

The above application for permit to appropriate irrigation water from a ground water source was received on 3/05/1993. According to the information that you provided, no other rights are currently used on the land in question. Therefore, a new consumptive use of water is proposed.

Due to continued drought and the need to protect existing water rights and water supplies, the Director of this agency declared a moratorium on 5/15/92 concerning water right applications proposing new consumptive uses of public water. Your application cannot be processed for possible approval until the moratorium ends. Delays related to department decisions do not affect the date of priority or seniority of an application.

This office will hold the application pending future developments in the water supply situation and will inform you of any changes. You might be able to locate someone with a valid water right with available water to sell or lease for your needs. If so, an Application for Transfer of Water Right should be filed at this office to legally change the right(s) prior to any sale or lease.

Please let me know if you need additional information.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Lori A. Graves'.

Lori A. Graves  
Sr. Water Resource Agent
