Dear Mr. Hand:

We acknowledge receipt of the affidavits submitted as proof of beneficial use for the above referenced permits.

Before licenses can be issued, field examinations must be made by a representative of this Department. We cannot tell just when these examinations will be made, but our examiner will try to contact you at the time he makes the examinations so that you may show him the systems.

We note that in reviewing the proof affidavit for Permit No. 67-7003, you indicate that you will install a measuring device as required by the conditions of approval of your permit. This measuring device must be installed by the time our examiner makes the exam or your water right cannot be confirmed by the issuance of a license. We are enclosing a list of the types of measuring devices approved by this office.

If you have any questions concerning this matter, please contact us.

Sincerely,

Dear Mr. Hand:

One of the conditions of approval of your water Permit No. 67-7030 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
