RE: Standard Forms 5 for Water Right Nos. 63-2517 and 63-15153

Dear David:

Enclosed are the Standard Forms 5 for water rights 63-2517 and 63-15153 for your review and signature.

I want to bring to your and Larry's attention a change to the Standard Form 5 for 63-15153. Upon my final review of the SF5, I discovered a typographical error in the ending point of the Woof Creek stream reach for 63-15153. The legal description for the ending point for Woof Creek incorrectly read "NWNWSE." It has been corrected to read "NWSWSE." That correction is consistent with the field examiner's map in the claim file. Roxanne Brown concurs with the correction.

Because the corrected ending point is still within the recommended place of use for 63-15153, it does not appear that it would raise any concerns for the State or BLM. However, I wanted you and Larry to be aware of the change. Please feel free to contact me if you have any questions about the change.

After you sign the SF5s, please forward them to Roxanne for IDWR's concurrence. I understand that Roxanne will then forward the SF5s to Fred Price, who will forward them to Larry for signature, filing, and service.

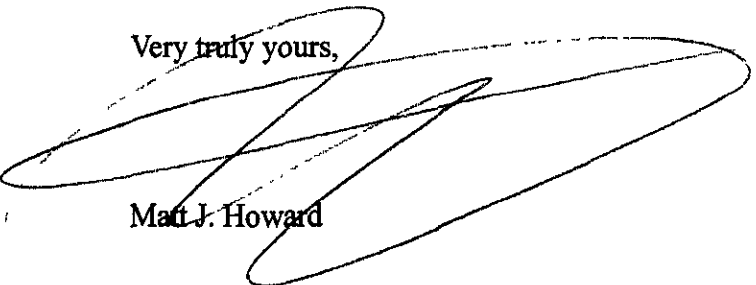

It has been a pleasure working with you, Larry, Nick and Roxanne on this matter.
