Reservoir to be 10 feet high, from bottom of pool to top of dam, 125 to 150 feet long and about 24 feet wide. By developing the reservoir, livestock will be more easily disposed thus reducing grazing pressure on forage near irrigation water. The area from the Pot Basin north to Highway 68 can now be utilized by cattle. In the past little to no use was made in this area.

Gentlemen:

Enclosed are copies of your approved Applications for Permit. We direct your attention to the conditions of approval on the fourth pages.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permits were issued, and you must proceed diligently until the projects are completed. The enclosed blue cards must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permits were approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop these permits into licenses.
