PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 51-07355 Telephone No. 208-845-2106

2. Name(s) of Permit Holder(s): Tri-Via INC.

3. Mailing Address: HC 85 Box 139 Bruneau, Id. 83604

4. Source of Water: Wastewater If GROUNDWATER (well), Date Drilled: mo. / yr.

a. Well Driller: _____ Drilling Permit Number: _____

b. **OPTIONAL:**
 Pump Horsepower: _____ Pressure (psi): _____ Dynamic pumping level (ft): _____

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): . Stockwater (No. and type of stock): .

Irrigation (No. of acres): 37 Other: _____

6. Total rate of diversion and/or volume for which proof is submitted: 0.080 cfs OR _____ acre feet.

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes or No ✓
Has the measuring device been installed? Yes or No ✓

Flow Measurement Port: Is a flow measurement port required? Yes ☐ or No ☒
Has the measurement port been installed? Yes ☐ or No ☒

8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Kent Kohring Telephone Number: 208-845-2926

Address: HC85 Box 140 Bruneau, Id. 83604

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Kent Kohring Vice Pres. Tru-Vial Inc. Date: June 12, 1997

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before December 1, 1997.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
5. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
6. Any license issued by IDWR pursuant to the right or portion thereof for the use of trust water is subject to a term review of 20 years after the date of this approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.
7. Diversion and use of water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.

RE: Change of Ownership for Water Rights Permits 51-7355 and 51-7356

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water rights permits to you. The department has modified its records to reflect the changes in ownership and has enclosed computer-generated reports for your records. Also enclosed is a receipt for the \$50.00 filing fee.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Jeff Peppersack, Manager
Water Right Permits Section

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 51-07355

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

If you have questions concerning the field examination, contact the **WESTERN** Regional Office in Boise, at (208)334-2190.

Sincerely,

**JULIE L. YARBROUGH
Senior Secretary**

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 51-07355 and 51-07356

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

NOTICE OF CONFERENCE

On July 18, 1995, Little Basin Mutual Drainage Co. Inc. filed with the Department of Water Resources two applications for permit to appropriate the public waters of the State of Idaho. The applications were protested by Bruneau Cattle Co. and M. L. Investment. On July 18, 1995, Trivial, Inc. filed with the Department of Water Resources two applications for permit to appropriate the public waters of the State of Idaho. These applications were also protested by Bruneau Cattle Co. and M. L. Investment Co.

The Department has set the matter of protest for a conference to be held on Friday, October 27, 1995, at 10:00 a.m., at the Elmore County Courthouse, 150 S 4th St. E., Mountain Home, Idaho 83647. The conference will be held in accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code, the adopted Rules of Practice and Procedure of the Department of Water Resources, and Rules 40 and 45 of the adopted Rules and Regulations of Water Appropriation of the Department of

DEC 11 1995

CONFERENCE AND HEARING PROCEDURE

APPLICATION FOR PERMIT

Section 42-203A, Idaho Code, requires the department to consider the following issues in connection with an application for permit:

- 1) Will the proposed appropriation injure other water rights?
- 2) Is the proposed water supply sufficient for the purpose for which it is sought to be appropriated?
- 3) Was the application made in good faith or for delay or speculative purposes?
- 4) Does the applicant have sufficient financial resources with which to complete the proposed project?
- 5) Is the proposed appropriation in the local public interest, which is defined as the affairs of the people in the area directly affected by the proposed use?
- 6) Is the proposed use contrary to conservation of water resources within the state of Idaho?

BURDEN OF PROOF

The Applicant has the initial burden of proof on issues 1, 2, 3, 4, & 6 above and must provide evidence for the department to evaluate these criteria.

The initial burden of proof on issue 5 above lies with both the applicant and protestant as to factors which they are most knowledgeable and cognizant. the applicant has the ultimate burden of persuasion, however, for this issue.

PROCEDURE

The department generally conducts an informal conference with the parties to determine the issues and to try to settle a protested matter before a hearing is scheduled. If a hearing is held, the department will issue a written decision based on the hearing record.

CONFERENCE

The purpose of a prehearing conference is to provide the opportunity for the parties and the department to familiarize

DEC 11 1995

- themselves with a contested matter and to attempt to resolve the matter. At the conference, the department may also formulate and simplify the issues, identify documents to avoid unnecessary proof, exchange proposed exhibits or prepared testimony, limit witnesses, discuss settlement offers, schedule hearings, establish procedure at hearings and address other matters that may expedite orderly conduct and disposition of the proceeding or its settlement.

HEARING

The department will tape record the hearing. Copies of a hearing tape are available upon request and the payment of the cost of reproducing the tape.

The hearing likely will be conducted by a hearing officer appointed by the Director rather than the Director himself. If so, the hearing officer will prepare a recommended order for the Director's consideration. Parties can file exceptions to a recommended order, briefs in support of the exceptions or may request oral argument. Parties may seek judicial review of any final order issued by the Director.

Parties may be written stipulation waive their right to a recommended order, particularly when a shortened decision process is desirable or necessary. Such a waiver does not eliminate any rights of the parties in connection with the final order of the Director and judicial review of the order.

EXHIBITS

A party who plans to offer an exhibit as part of the hearing record must provide a copy of the proposed exhibit to the parties and to the hearing officer.

AMERICANS WITH DISABILITIES ACT

Any hearing scheduled will be conducted in a facility which meets the accessibility requirements of the Americans with Disabilities Act. If you require special accommodations in order to attend, participate in or understand the hearing please advise the department within ten (10) days prior to the hearing.

RE: Protested Applications for Permit Nos. 51-07355 through
51-07358

Dear Mr. Kohring:

Thank you for visiting the office last week and this week. Our discussions were helpful in the analysis of your four above-referenced protested applications. The purpose of this letter is to respond in writing to your letter dated September 12, 1995 regarding Applications for Permit Nos. 51-07355 and 51-07356, and your letter dated September 26, 1995 regarding Applications for Permit Nos. 51-07357 and 51-07358. As we discussed, relative to your earlier correspondence, I had felt that our standard protest response letters had provided adequate responses.

One concern that you have addressed regards the validity of water right Permit No. 51-07279 in the name of M.L. Investment Company. As per our discussion we will make every attempt to perform a beneficial use examination on this water right prior to our water right conference in this matter.

The other concern that you have addressed regards the validity of Bruneau Cattle Company's claimed water right no. A51-10377. As per our discussion, this claim has been field examined in the Snake River Basin Adjudication and a preliminary approval recommendation has been prepared for submittal to the court. The validity of this claimed water right can be the topic of further discussion, but at this juncture the Bruneau Cattle Company is found to have adequate standing to have filed a valid protest to approval of your applications.

Please find enclosed with this letter a copy of another protest that has been received from Bruneau Cattle Company, along with the protest response letter, as well as a Notice of Conference which sets October 27, 1995 as the conference date for this matter in Mountain Home.

Re: Applications for Permit Nos. 51-7357 and 51-7358 in the Name
of Little Basin Mutual Drainage Co.

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

The matter is being scheduled for conference. At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-1203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

If this office can be of further assistance, please contact us.

Sincerely,

Re: Protest of applications 51-07355 & 51-07356 by Bruneau
Cattle Co.

Dear Sir:

We, Tri-Vial Inc., challenge the right of Protestant under
claim A51-10377.

Your files show claim A51-10377 has a priority date of 1952.

The water we claim was developed well after 1952.

It is our understanding that water cannot be filed on as a
future possibility, therefor the water claim A51-10377 was filed
on for water that was, in fact, available in 1952. For this
reason, we feel their protest has no standing and should be
disregarded.

Sincerely yours,

Kent Kohring

RE: Protest by M L Investment Co., under
Permit No. 51-07279 (letter dated 8/18/95)
of our Applications for Water under
51-07355 and 51-07356

Gentlemen:

We challenge the right to protest under Permit
No. 51-07279 for the following reasons:

1. Your records show the following:

M L Investment Co. failed to file proof of
beneficial use by July 1, 1995, as required by law. This
after a full allotted time and Advance Lapse Notice dated
July 7, 1995. It should also be noted they have received
approved Applications dating back to January 19, 1979 (No.
51-7137) (lapsed) August 9, 1983 (No. 51-7279) (lapsed)
Reinstatement (No. 51-7279) to July 1, 1995.

2. M L Investment Co. submitted a late proof (July 6,
1995) of beneficial use and was reinstated (Order of
Reinstatement) August 3, 1995 with an advance in priority
date to August 14, 1983. It is our position that even
though they complied by filing to Beneficial Use on July 6,
1995, they in fact failed to fulfill all requirements. An
immediate field exam of the property will show no crop
grown. Shelly Keene of IDWR State Office, and STEVE LESTER
IDWR Western Region told us this would be required.

3. An approved Application in a sense is a contract
with strict laws and provisions regarding time and
completion. Though M L Investment Co. made a heroic effort
from June 12, 1995 with Commencement of Work (June 6, 1995),
to July 6, 1995 (proof of Beneficial Use), they failed.
Perhaps if they had adhered to the Permit Approval Notice
(July 27, 1990) paragraph Three, which states in part,

RECEIVED

DEC 11 1995

Director of Water Resources
August 25, 1995
Page 2

"Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed," they could easily have fulfilled their requirements. They did not start until nineteen days before the maximum due date of July 1, 1995.

We, Tri-Vial, Inc., Permit Application No. 51-07355 and 51-07356 request the following:

1. An immediate field examination of M L Investments Co., Permit No. 51-07279 to verify our contention that they did not truly and in fact complete the proof of beneficial use by July 6, 1995.
2. A review of M L Investment Co. file permit No. 51-07279 to verify our findings.
3. Upon verification of the two above contentions, that you send notice to M L Investment Co., Permit No. 51-07279 that their permit is in default and lapsed as of July 6, 1995, as does their priority date of August 14, 1983.
4. That no further leniency be given to M L Investment Co, in that they have not perfected allowed permits since January 19, 1979. With their affiliations, they easily could have done so.
5. M L Investment Co. immediately suspend all further activity and diversion of water under Permit No. 51-07279.
6. That any further application by M L Investment Co. for a water right on this property be a new application, and not a reinstatement, with a priority date of the time of reapplication. That a notice of this be placed in their file to flag any further activity.

7. That M L Investment Co. protest of our water application 51-07355 and 51-07356 (July 18, 1995) under their Permit No. 51-07279 be denied because their permit should be forfeited as of July 6, 1995, while our applications were not submitted until July 18, 1995.

Very truly yours,

TRI-VIAL, INC.

Re: Applications for Permit Nos. 51-7355 and 51-7356 in the Name of
Trivail Inc.

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced applications. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the applications and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-1203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

If this office can be of further assistance, please contact us.

Sincerely,

DAVID R. TUTHILL, JR., P. E.
Manager, Western Regional Office

Re: Applications for Permit Nos. 51-7355 and 51-7356

Dear Applicant:

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to the above-referenced applications. The Department suggests that you contact the protestant(s) and attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for a conference. At such a conference, the following are the principle items the Department will review (per Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

Please contact this office if you have questions regarding this procedure.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Manager, Western Regional Office

Re: Water Applications 51-07355 and 51-07356

Dear Director:

Please consider this letter an official protest to water applications 51-07355 and 51-07356. The grounds for this protest are as follows:

Interest of Protestant

Protestant (ML Investment Co.) presently owns water permit no. 51-07279 which allows for the diversion of 2.52 CFS of water from Jack Creek. The present point of diversion for this right is located in Township 6 South, Range 5 East, Section 21, NWNW. This point of diversion is downstream from the above identified water applications. Water diverted from permit no. 51-07279 has a priority date of August 14, 1983 and is used for irrigating 120 acres of cropland, watering livestock, and maintaining wildlife habitat. Protestants right is senior to applicants proposal project.

Reducing the Quantity of Water

Applicant proposes two diversions from a tributary to Jack Creek which are upstream from ML Investment Co.'s point of diversion. Applicants new diversions when combined (.66 CFS) is large enough to likely reduce the quantity of water available downstream at ML Investment's diversion, thereby reducing the quantity of water available to satisfy our right.

ML Investments ability to divert is entirely dependant on return flow to Jack Creek. A reduction of the quantity of return flow water to Jack Creek will reduce the quantity of downstream water that is now available at ML Investment's diversion.

DEC 11 1995

Application is Contrary to the Local Public Interest

The diversion as proposed by the applicant may in fact decrease the quantity of water in Jack Creek and the Tributary to Jack Creek to the point that stream channel flow, riparian vegetation and wildlife are adversely impacted. The State of Idaho Department of Fish and Game could be adversely impacted should the stream go dry.

ML Investment's right (51-7279) specifically notes on the permit under conditions for approval that "during periods of low flow, the permit holder shall leave enough flow in the channel to maintain riparian vegetation and wildlife as determined by the Director".

Conclusion

For the reasons stated above, applicants application for permit should be denied.

Submitted August 21, 1995.
