Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 51-07339

Priority: March 15, 1991

Maximum Diversion Rate:

0.09 CFS

Maximum Diversion Volume:

7.3 AF

This is to certify, that US DEPT OF INTERIOR
BUREAU OF LAND MANAGEMENT
2620 KIMBERLY ROAD
TWIN FALLS ID 83301

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated March 14, 1991; and
has submitted Proof of Beneficial Use on July 2, 1992. An examination indicates
that the works have a diversion capacity of 0.090 cfs of water from:

UNNAMED STREAM

tributary to MUD FLAT DRAIN

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
STOCKWATER	04/15 to 10/31	0.09 CFS	3.0 AF
STOCKWATER STORAGE	01/01 to 12/31		4.3 AF
WILDLIFE STORAGE	01/01 to 12/31		0.5 AF
	Totals	0.09 CFS	7.3 AF

LOCATION OF POINT(S) OF DIVERSION:

NENW , Sec. 6, Township 16S, Range 12E
OWYHEE County

PLACE OF USE: STOCKWATER

TWN RGE SEC

16S 12E 6

NENW

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 51A.

OCT 1 0 1996

State of Idaho
Department of Water Resources

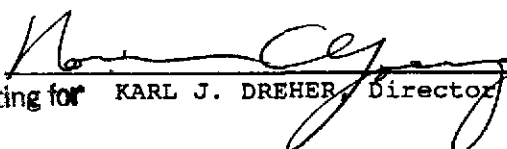

WATER RIGHT LICENSE

WATER RIGHT NO. 51-07339

CONDITIONS OF APPROVAL AND REMARKS

6. This right, when considered with all other rights common to the same grazing allotment, shall be limited to the quantity of water beneficially used by the number of stock within the allotment.
7. Place of use is located within Allotment #1076, Three Creek Ranch Company, Project #8733, Whiteside Reservoir.
8. This right authorizes an annual volume of water to fill the pond and the amount required to replace losses through evaporation.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 30th day of August, 1996.

Acting for KARL J. DREHER, Director

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 51-07339)
IN THE NAME OF USDI BUREAU OF LAND MANAGEMENT) ORDER OF
REINSTATEMENT)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before July 1, 1992; and,

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

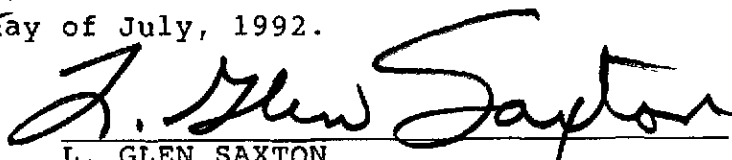

WHEREAS, on July 1, 1992, the permit lapsed for failure to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on July 2, 1992;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 51-07339 be REINSTATED with an advance in priority to March 15, 1991.

Dated this 20th day of July, 1992.

Permit To Appropriate Water

NO. 51-07339

Proposed Priority: March 14, 1991 Maximum Diversion Rate: 0.14 CFS

This is to certify, that U.S. DEPT. OF INTERIOR
BUREAU OF LAND MANAGEMENT
IDAHO STATE OFFICE
3380 AMERICANA TERRACE
BOISE, ID 83706

has applied for a permit to appropriate water from:

UNNAMED STREAM tributary of MUD FLAT DRAIN

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
STOCKWATER	01/01 to 12/31	0.14 CFS	
STOCKWATER STORAGE	01/01 to 12/31		4.5 AF
WILDLIFE	01/01 to 12/31	0.14 CFS	
WILDLIFE STORAGE	01/01 to 12/31		0.5 AF
	Totals	0.14 CFS	

LOCATION OF POINT(S) OF DIVERSION: NENW Sec. 6, Township 16S, Range 12E
OWYHEE County

PLACE OF USE: STOCKWATER
TWN RGE SEC

16S 12E 6 NENW

PLACE OF USE: WILDLIFE, same as STOCKWATER use

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 1992.
2. Subject to all prior water rights.
3. Use of water under this permit is subject to control by the watermaster of State Water District No. 51A.
4. Stockwater use is for 600 range cattle.
5. Place of use within Allotment #1076, Three Creek Ranch Company, Project #8733, Whiteside Reservoir.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.

RE: WATER RIGHT NOS. 51-07339 AND 51-07340

Dear Water Right Holder(s):

Enclosed are copies of the Water Right Licenses issued on the above referenced permits. If you have any questions, please contact me within 10 days of receipt of these licenses.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

SK:ph

Enclosure

RECEIVED
OCT 10 1996

MEMORANDUM

DATE: August 29, 1996

TO: File 51-07339

FROM: Shelley W. Keen *(SK)*

RE: Water Uses

License 51-07339 should not include an appropriation of live flow for wildlife purposes. Under Idaho Code §42-113, a right may be established for the in-stream watering of livestock. No such exemption is granted for any other purpose except a minimum stream flow appropriated by the Water Resource Board.

The licensed volume should be 7.3 AF, broken out as follows. The volume that can be beneficially used by 400 cattle drinking from the stream over 200 days is 3 AF. The right holder may also store 4.3 AF for cattle for use in this season or to carry into the next season. The wildlife storage volume will not be additive.

*2 copies - Letter

2. Measurements:

OCT 10 1996

E. NARRATIVE/REMARKS/COMMENTS

The permit lists .14 cfs, which requires a field exam, however only .09 cfs was recommended based on actual beneficial use, which is less than .10 cfs, so no field visit was required. See attached 6/25/92 memo from Steve Lester.

The proof that was submitted lists .04 cfs and 4 af. I recommended .09 cfs and 4.3 af (storage), since these amounts are still within the \$50 fee range and the permit limitations.

* .5 af was listed on the permit for wildlife storage, however I recommended 4.3 af to stay consistent with the recommended stockwater storage amount.

The recommendations were based on a 6/16/94 site visit by Jim Klotz, BLM Biologist (see attached letter).

Have conditions of permit approval been met? ☒ yes ☐ no

APPROVED

OCT 10 1996

F. FLOW CALCULATIONS

____ Additional Computation Sheets Attached

Measured Method:

Recommended cfs for 400 range cattle = .09 cfs
per Table 1

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{\hspace{2cm}}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{\hspace{2cm}}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{\hspace{2cm}}$$

2. Volume Calculations for Other Uses:

Stock > $400 \text{ range} \times 12 \text{ GPD} \times 365 \text{ days} / 325850 = 5.4 \text{ afa}$
 $.09 \times 365 \times 1.9835 = 65.2$

Reservoir > $147' \text{ W} \times 230' \text{ L} \times 11' \text{ D} \times \frac{1}{2} / 43560 = 4.3 \text{ af}$

H. RECOMMENDATIONS

MEMORANDUM

TO: File 51-07339 / BLM
FROM: Brenda Chapman
DATE: July 6, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for the above referenced water right are based on the information below:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Stockwater	4-15 to 10-31	.09	3.0
Stock Storage	1-01 to 12-31		3.0
Wildlife	1-01 to 12-31	.09	.5
Wildlife Stor	1-01 to 12-31		.5

The stockwater season of use has been reduced based on information provided in the October 1994 letter from BLM's on site staff biologist, Jim Klott. Therefore, the stockwater volume recommendation is based on what can be beneficially used for 200 days. The accompanying storage has also been adjusted accordingly.

There was nothing in the exam to justify recommending a higher wildlife storage volume than the permit limit; therefore, the recommendation will be limited to .5 afa.

OCT 17 1994

Dear Ms. Graves:

I underestimated the size of both of the reservoirs. The following information is from site visits and project files for Whiteside Spring Reservoir (#8733) and Estes Draw Reservoir (#8789). As I reported to you during our telephone conversation the water sources are ephemeral creeks that exist from spring snow melt and are usually dry by June. About 400 cattle use the ponds from April 15 to October 31. The time livestock are using the ponds varies yearly depending on the grazing system in the allotment. Both ponds hold some water to mid-July. Estes Draw was visited by a member of our staff in July 26, 1994. He reported that the reservoir is about 15 feet deep to the spillway. (20 feet to the top of the dam), about 200 feet wide and about 350 feet long at high pool. Fill material for the dam was taken back to about 150 feet to a depth of 15 feet below the spillway. The pond had less than 6 inches of water. Our file did not contain an as built for this project.

I checked Whiteside Spring Reservoir on June 16, 1994 and the file. The dam width is 147 feet, the length is 230 feet, and depth is 11 feet to the spillway with the top of dam another 4 feet higher. These numbers are based on the specifications in the file. Water was only about 1 foot deep during the June visit and dry by August 4. As I reported to you on the phone, both reservoir bottoms are rocky and allow for substantial leakage.

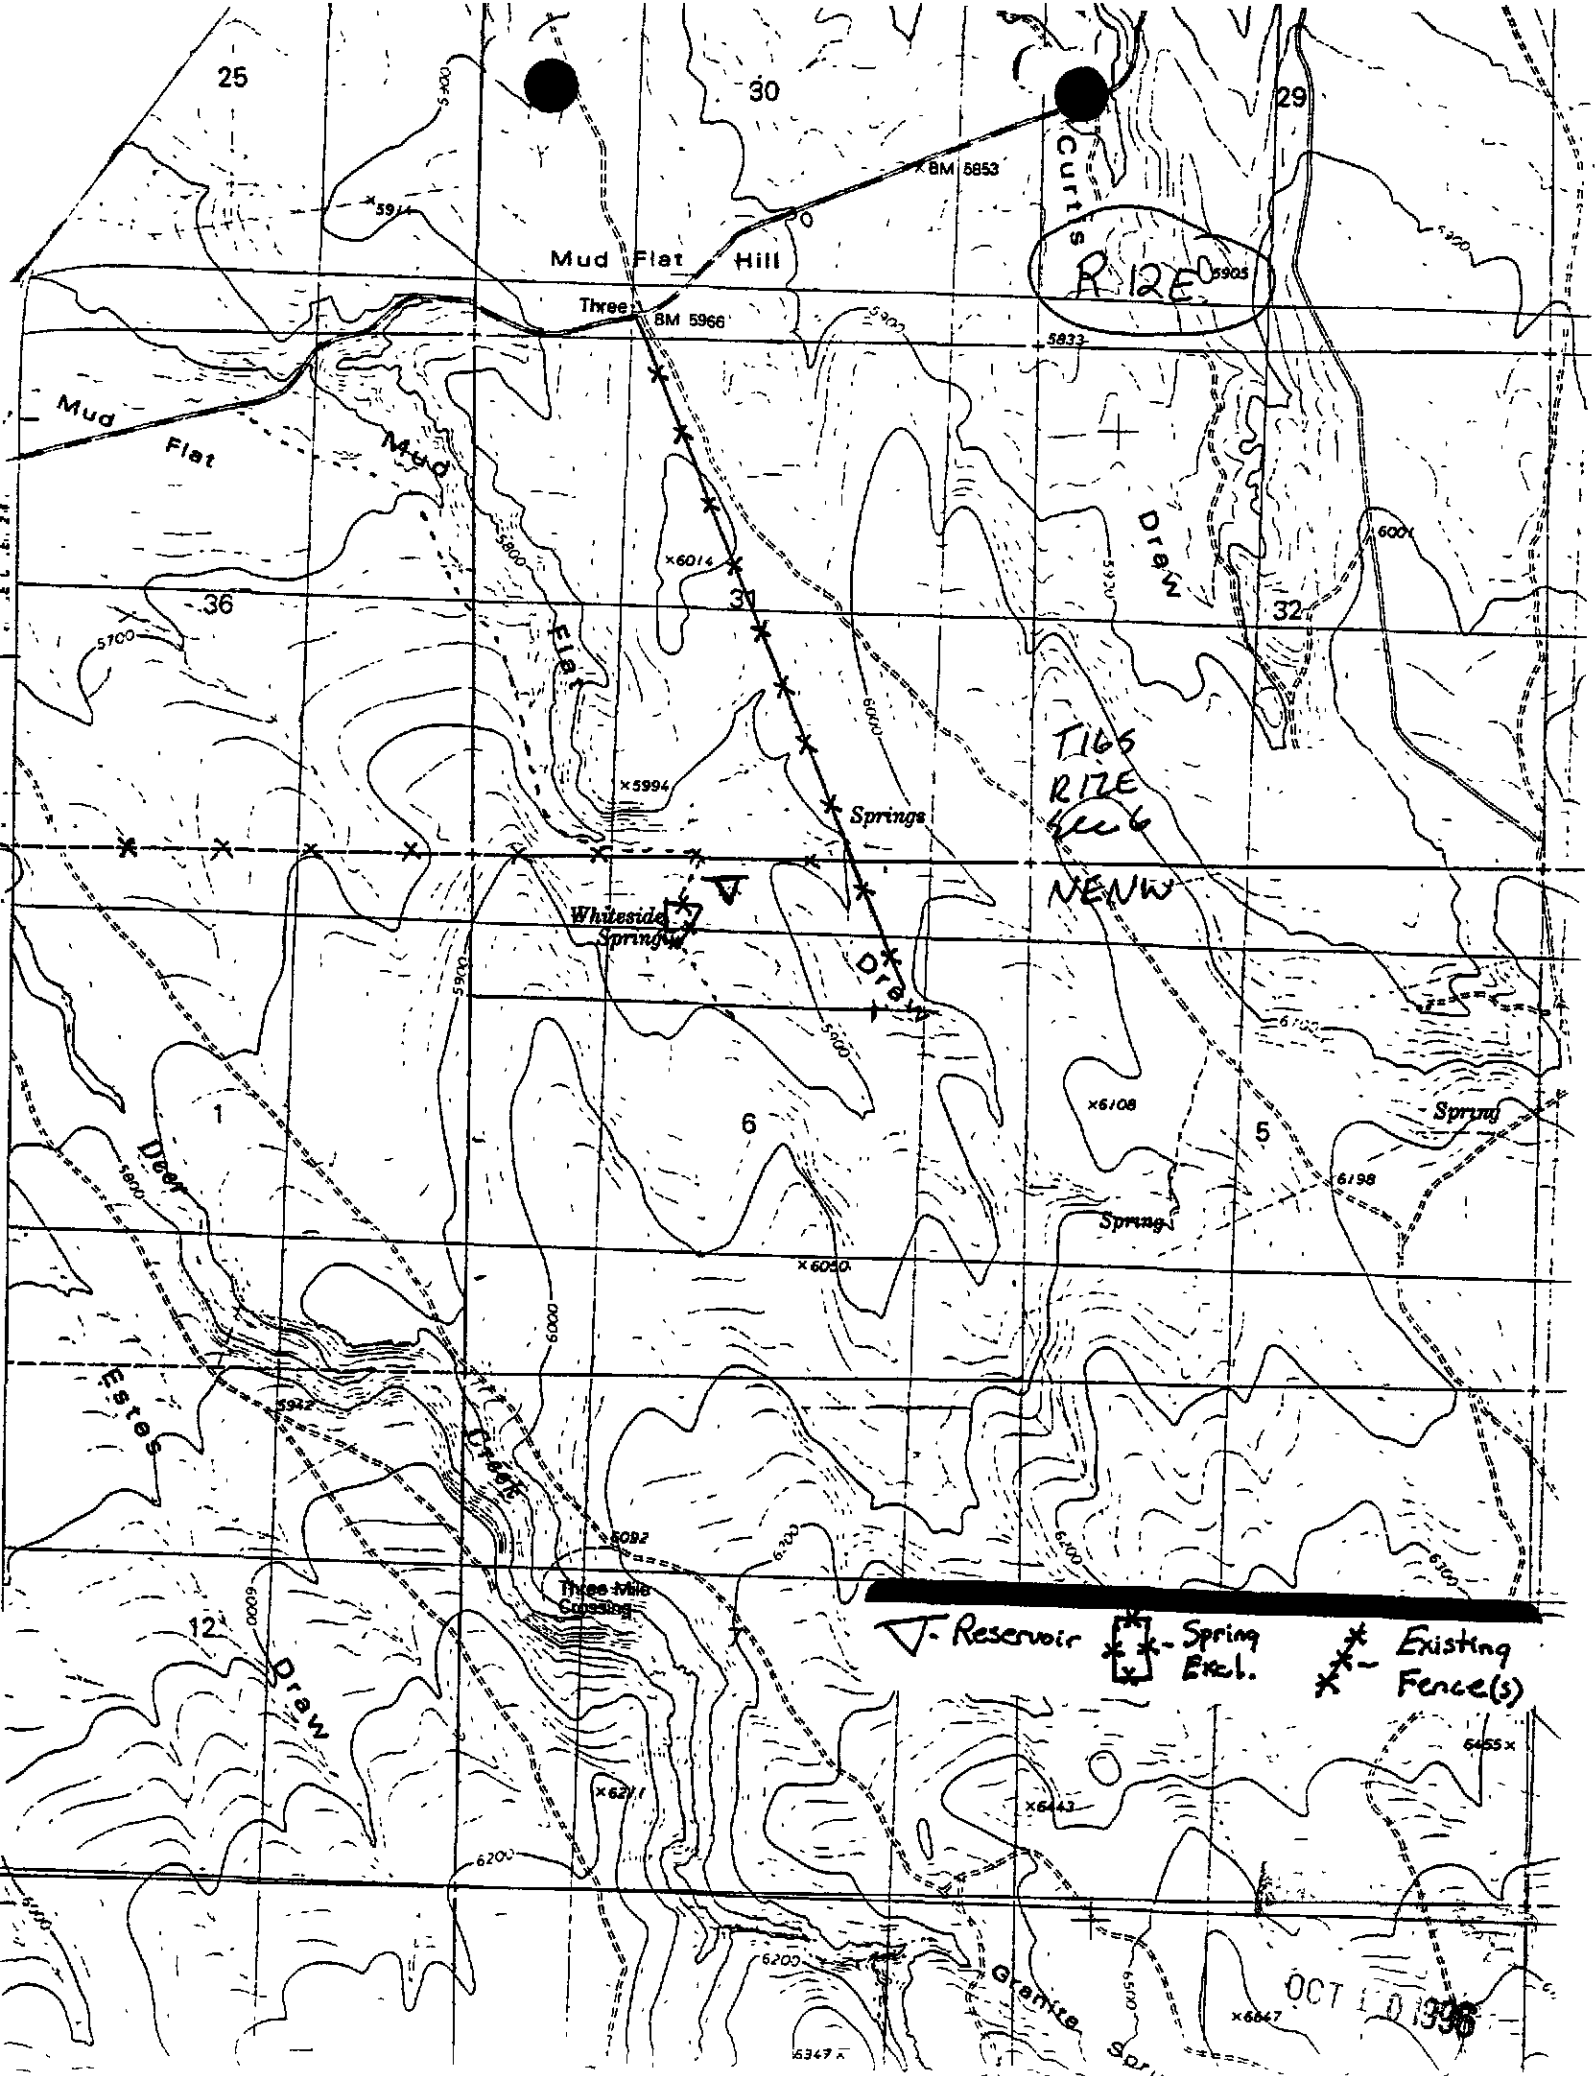

We have photographs of both projects in our files. If copies of them would be useful to you, we could have duplicates made for your office.

Sincerely,

Jim Klott
Jarbridge Wildlife Biologist

MEMORANDUM

TO: SR. AGENTS AND EXAMINERS

FROM: STEVE LESTER

DATE: JUNE 25, 1992

SUBJ: RATE OF FLOW FOR BLM AND FOREST SERVICE EXAMS

Additional information may be needed for federal rights where flow rates are considered high. Normally, this has been for rates $> .20$ cfs in which an actual field exam has been required instead of the traditional "office exam".

However, recent direction for examiners includes a closer look at some federal rights. Most permits for the BLM and FS are $< .10$ cfs and can be treated as usual. For rates exceeding $.10$ cfs, let's collect more information before recommending the rate of flow.

THEREFORE, FOR FEDERAL RIGHTS EXCEEDING .10 CFS

1. To estimate pipe flows or other flows in gravity systems, collect data as possible from the BLM or FS concerning the pipe sizes (diameter) or other delivery mechanisms - include type of pipe material, slope of pipe (can determine estimated slope from topo?), number of valves or T's if any, any other pertinent info that will help estimate flow.

2. Although unlikely, it's possible that a ditch diversion will be found. We can run the Mannings Equation program if needed. Ask a Sr. Agent about type of data to collect from agency or from field if needed.

3. For wells, the Horsepower Equation can be used. Collect the usual motor and pump data. Use a well log if possible to estimate z from static levels in area. A pump curve would be useful if available. The delivery pipe size (diameter) is needed.

4. Sort by source -

a. Runoff or stream collected in pond - normally, allow permit amount since water could be collected and used if flows are available.

b. Springs collected in pond or diverted via pipe etc. - cannot recommend $> .10$ cfs unless estimates and/or data support the recommendation.

c. Wells - See #3 above, treat as would any other well exam.

d. Ground water but not a well - Treat as would a spring in deciding what to allow for licensing.

5. If none of the above produce a reasonable estimate, may need to collect data in the field in addition to in-office exam.

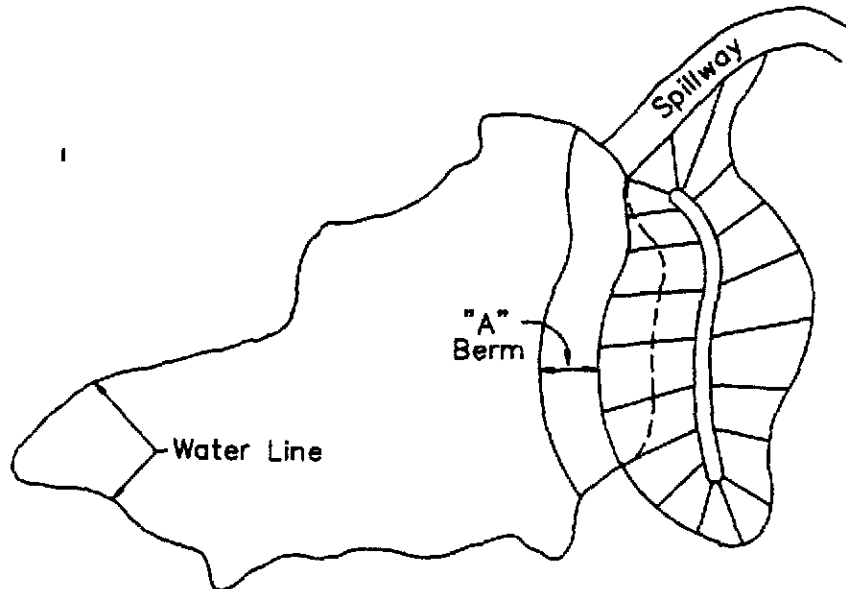

6. We can spot-check some of the systems for which recommendations $> .10$ cfs are made by conducting regular field exams after the in-office exams.

RECORDED

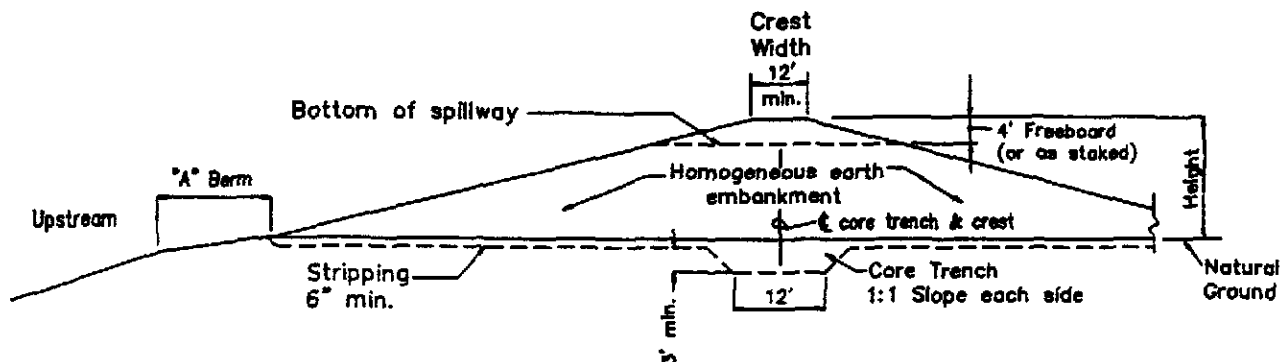

OCT 10 1996

(STANDARD BLM SPEC)

REQUIRED IN VRM CLASS I & II AREAS
RECOMMENDED IN VRM CLASS III & IV

PLAN

CROSS-SECTION

(Bottom of Drainage)

NOTE:

1. All slopes 1:4 or 1:5 (vertical:horizontal).
"A" berm may not exceed a 1:10 slope.
2. Earth fill for dam must be obtained below water line and upstream from dam from "A" berm. No borrow is authorized above high water line.
3. Arc of dam shall be designed to match surrounding landscape features.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 51-07339

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No.'s 51-07340 and 51-07339

Dear Permit Holder:

On July 2, 1992 you paid a \$50 license exam fee due on each of the above referenced permits at our Western Regional Office. Unfortunately, on the same day, from the state office, I returned the original proofs of beneficial use to your office.

Since it is necessary for me to have the originals in the file, please return them as soon as possible. I will continue the process them at that time so that we can continue with the licensing process.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Karen L. Gustafson
Secretary/Records Manager

Thank you for taking care of this.

A big problem has been these older water rights all have the BLM state office address. Therefore we in the DISTRICT do not get them for a couple of weeks.

RECEIVED

Thanks again for your help.

Re: Permit No.'s 51-07340 and 51-07339

Dear Permit Holder:

Returned are the proofs of beneficial use submitted in connection with the above referenced permits. Though you indicate your knowledge of the \$50 fee applicable to both permits, the Department has not received the fees. You were notified of this oversight in correspondence mailed to you June 9, 1992.

Since the permits lapsed on July 1, 1992, they are of no further force nor effect. You should also be aware that your priority date is being penalized one day for every day that the original proofs and fees are not returned to this office.

You will receive official notice of the permits lapsing under separate cover.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

Re: Permit No.'s 51-07339 and 51-07340

Dear Permit Holder:

The Department is in receipt of the Proofs of Beneficial Use filed in connection with the above referenced permits. The completed form indicates your knowledge of the \$50 license exam fee due on each permit. However, the fee was not attached or received by this office.

Please send the necessary fees or copy of your voucher indicating that the check is being processed. In order to be in compliance with the necessary dates of your permit, the fee must be received by this office no later than July 1, 1992.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Karen L. Gustafson".

Re: Permit No.'s 51-07339 and 51-07340

Dear Permit Holder:

Returned are the proofs of beneficial use you submitted in connection with the above referenced permits. Unfortunately, they are unacceptable as filed.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

1. The water right must use a groundwater source.
2. The rate of diversion must be .04 cfs or less.

As you can see, you do not meet requirement #1 since you use a stream and a draw (surface) for your source. Therefore, a license examination fee of \$50 applies to each permit. I have enclosed a copy of the Instructions for the Proof of Beneficial Use for your convenience.

Please return the proofs of beneficial use and the \$50 license exam fee for each permit (\$100) as soon as possible. In order to meet the required dates, they must be returned no later than July 1, 1992.

If you have any questions or if I can be of any further assistance, please feel to contact me.

Sincerely,

Karen L. Gustafson
Karen L. Gustafson

PROOF DUE NOTICE

RE: PERMIT NO. 51-07339

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

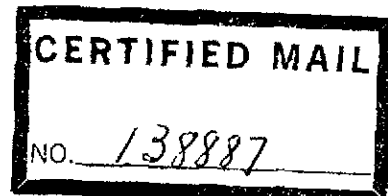

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager
