has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated November 29, 1989; and
has submitted Proof of Beneficial Use on April 5, 1991. An examination indicates
that the works have a diversion capacity of .090 cfs of water from:

UNNAMED STREAM

tributary to CHINA CREEK

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>

PLACE OF USE: WILDLIFE, same as STOCKWATER use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.

PROOF DUE NOTICE

RE: PERMIT NO. 51-07328

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

RE: Application for Permit No. 51-07328 in the name of
Bureau of Land Management

Dear Mr. Tuthill:

We have reviewed the above referenced application
and submit the following for your consideration.

On 12/1/89, the BLM was issued Temporary Permit
SWI-167, Addenda AH, authorizing the construction of a
livestock reservoir on State land described as SWSWNW
Section 11, T.12S., R.4E., B.M. That permit authorized
only the construction of the pond and did not forfeit
the State's option to file for the water right for the
diversion. It is currently the Department of Lands
policy to discourage any other agency or individual
from filing an application for water on State land.

We therefore request that the above application be
denied and that the Department of Lands be given the
opportunity to submit a new application.

Thank you for the opportunity to comment on the
application. Please keep us posted as to your decision
on our request.

Sincerely,

Tracy Behrens

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P51-07328

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Dear Sir:

Enclosed is a copy(s) of the above-referenced application(s) for permit which may be of interest to your agency. Please review the application(s) and submit any comments you may have.

This office normally completes the processing of an application within a six-week period and is required to take final action shortly thereafter, however, if your agency desires to file a formal protest against the approval of this application(s), your written protest must be received in this office by January 22, 1990.

If you have any questions regarding the application, please contact this office.

Sincerely,

CONVERSATION MEMORANDUM

DATE 12/21/89

FILE _____

NAME OF PARTY Paul Sermon - BLM Boise Dist.EMPLOYEE Steve LesterRE: Recent BLM applications for permit (follow up to 12/7/89 request for information)

(1) application where "PIT TYPE RESERVOIRS 50' x 100'" are shown:

use $5\frac{1}{2}'$ as mean depth to calculate actual volume stored. Each appl. = 1 reservoir, want 1 appl. for each reservoir (v. combining several into 1 appl.).

(2) Also -

OK to modify water use descriptions based on info in appl. & add appropriate cfs based on # hd. if applicable.

For example:

if 225 hd cattle shown, rate = .07 cfs from IOWR chart.

$(.07)(19835) = .1 \text{ A.F.}/24 \text{ hrs. can be stored}$

Reservoir = $50' \times 100' \times 5.5' = 27,500 \text{ cu ft} = 6 \text{ A.F.}$

Thus, appl. should include:

a) .07 cfs Stockwater

b) 0.6 A.F. Stockwater Storage

c) also show same amounts for wildlife although

d) not addition.

e) Not necessary to show use from storage since water will not be diverted from reservoir.

Does not represent an increase in water in application, just clarifies & describes based on application info.
