WATER RIGHT LICENSE

WATER RIGHT NO. 51-07311

Priority: November 30, 1988

Maximum Diversion Rate:

0.03 CFS

Maximum Diversion Volume:

1.2 AF

This is to certify, that EDWIN GEIGER
PO BOX 205

BRUNEAU ID 83604

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated November 30, 1988; and has submitted Proof of Beneficial Use on October 21, 1992. An examination indicates that the works have a diversion capacity of .030 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.03 CFS	1.2 AF

LOCATION OF POINT(S) OF DIVERSION:

SESE, Sec. 24, Township 06S, Range 05E
OWYHEE County

PLACE OF USE: DOMESTIC

TWN RGE SEC

06S 05E 24

SESE

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The domestic use authorized under this right shall not exceed 13,000 gallons per day as provisioned in Section 42-111, Idaho Code.
6. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 24TH day of MARCH, 1994.

Acting for  R. Keith Higginson, Director

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 51-07311

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

ACTION OF IDWR

(☒) Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 51-07311

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Johnson', written over a circular stamp.

MEMORANDUM

To: Regional Offices
Water Allocation Bureau

From: Norman C. Young *NCT*

RE: APPROVAL POLICY - SUPPLEMENT TO APPLICATION PROCESSING
MEMO NO. 47, AMENDED MAY 20, 1992

Date: September 17, 1992

Clarification of Application Processing Memo. No. 47 (Amended) issued on May 20, 1992 as contrasted with the Application Processing Memo No. 47 issued on February 1, 1990 has been requested by regional office staff.

The 1990 memo provided that the department would issue permits for domestic, stockwater and non-consumptive uses within the boundaries of Ground Water Management Areas (GWMAs) and Critical Ground Water Areas (CGWAs) provided that domestic uses were limited to inhouse use.

The 1992 memo was intended to supercede the prior memo and provided that the department would issue a permit in GWMAs if the use was within the limits of "domestic purposes" as described in Section 42-111, Idaho Code. Note that this was a "loosening" of the prior memo since the approvable domestic use no longer was limited to inhouse use. The 1992 memo also provided that the department would not issue water right permits in a CGWA.

Neither memo addressed treatment of a "community" well where a community well means a well which provides domestic water to more than one domestic unit.

Department policy with respect to the filing of applications for permit and subsequent department action on the applications in GWMAs and CGWAs is as follows:

GROUND WATER MANAGEMENT AREAS

- Department staff should follow provisions of any existing management plan which has been prepared for a specific GWMA. If a plan does not exist, the provisions of this memo apply.
- The department will issue a water right permit for non-consumptive uses and for other uses which do not exceed the rate and volume limitations of the "domestic purposes" definition described in Section 42-111, Idaho Code. Note that

UNRECORDED

OCT 26 1992

these approvable uses are not limited to inhouse use.

- The department will issue a water right permit for "community" domestic wells provided that each domestic unit served by the community well does not exceed the rate and volume limitations of the "domestic purposes" definition described in Section 42-111, Idaho Code and individually would be exempt from the filing of an application for permit as provided in Section 42-227, Idaho Code. Note that these approvable uses also are not limited to inhouse use.

CRITICAL GROUND WATER AREAS

- Staff should follow provisions of any existing management plan which has been prepared for a specific CGWA. If a plan does not exist, the provisions of this memo apply.

- The department will issue a water right permit for non-consumptive uses.

- The department will issue a water right permit for uses which do not exceed the rate and volume limitations of the "domestic purposes" definition described in Section 42-111, Idaho Code. Note, however, that these approvals will not provide for the irrigation of any land. IN HOUSE USE ONLY

- The department will not issue a water right permit for community domestic wells in CGWAs.

Sirs:

Last fall I sold my home in Brunson
Townsite - Block 36 to Mr & Mrs Edwin D.
Geiger.

At that time my realtor enquired
concerning well permit. which had not
been issued to me. Department regulations.

I had been allowed irrigation for
one-half acre by Idaho Water Dept for
lots 13-17. Mr Geiger uses irrigation
water for the same five lots.

At such time as permit is issued
will you please direct it to:

Mr. Edwin D. Geiger - Brunson, Idaho

RE: APPLICATIONS IN GROUNDWATER MANAGEMENT AREAS

DATE: June 12, 1989

=====

Dave, attached are two applications being returned because the proposed use is within the Bruneau Grandview Groundwater Management Area.

The Department is not approving any applications for public water appropriation in the management areas even though the uses may fall within the definition of Domestic Purposes under Section 42-230, Idaho Code, which are exempt from permit requirements under Section 42-227, Idaho Code.

This does not mean, however, that the Department will not issue drilling permits for domestic purposes in these areas.

There is an exception in the Boise Front Groundwater Management Area or other Areas established to protect the geothermal resources such as Banbury and Twin Falls Management Areas. The Department will approve applications for appropriation of "cold water" only.

January 22, 1989

Dept. of Water Resources (Idaho)
Boise, Idaho

Sirs:

Re: Application for Permit

Please reduce irrigation to one-half acre. I live alone and want to irrigate only the yard around my residence and a small garden in my back yard.

At my age I can no longer clean ditches, dig out dams etc. to bring canal water to my residence. (On July 3rd, 1990 Idaho will celebrate her 100th birthday and I'll observe my 81st.)

My yard is a little under 4 blocks wide (25x12). My garage sits on one part of that. So irrigation for one-half acre is all I need to do or am able to do - or want to do!

I hope that this will help you to act favorably on my permit. Please contact me if you need any other information.

Sincerely,

Vera Bower

Re: Application for Permit

Dear Applicant:

The above application for a well for domestic and irrigation purposes was recently reviewed. Your area falls within the Bruneau-Grandview Groundwater Management Area, or GWMA, defined by Idaho statute as an area of declining water tables and of concern regarding new water rights. To obtain a new water right in a GWMA, the applicant must show that groundwater is available and that the new appropriation will not injure existing users. The assumption in a GWMA is that water is not available for appropriation, and the applicant must show otherwise to obtain an approved water right.

The only exceptions to the above are wells for stockwater or single-family domestic use. In your case, if the irrigation for lots 13-17 for one acre involves only one home associated with the lots, you may reduce the irrigation to one-half acre. Such use would be considered single-family domestic and would be exempt from the requirement outlined above. This option is not available if more than one home is connected to the one acre irrigation.

You may wish to hire a qualified geologist or hydrologist to provide such evidence in order to proceed with the application as it now stands. Please let us know within 30 days what you intend to do regarding this request. This office will provide additional information if you have any questions.

Sincerely,

Steve Lester
Sr. Water Resource Agent
