 for acreages on each lot, (Lot 47 is .108), unfortunately, the
 survey does not give enough curve information to correctly
 determine acres on Lot 46. Hope this will help you.

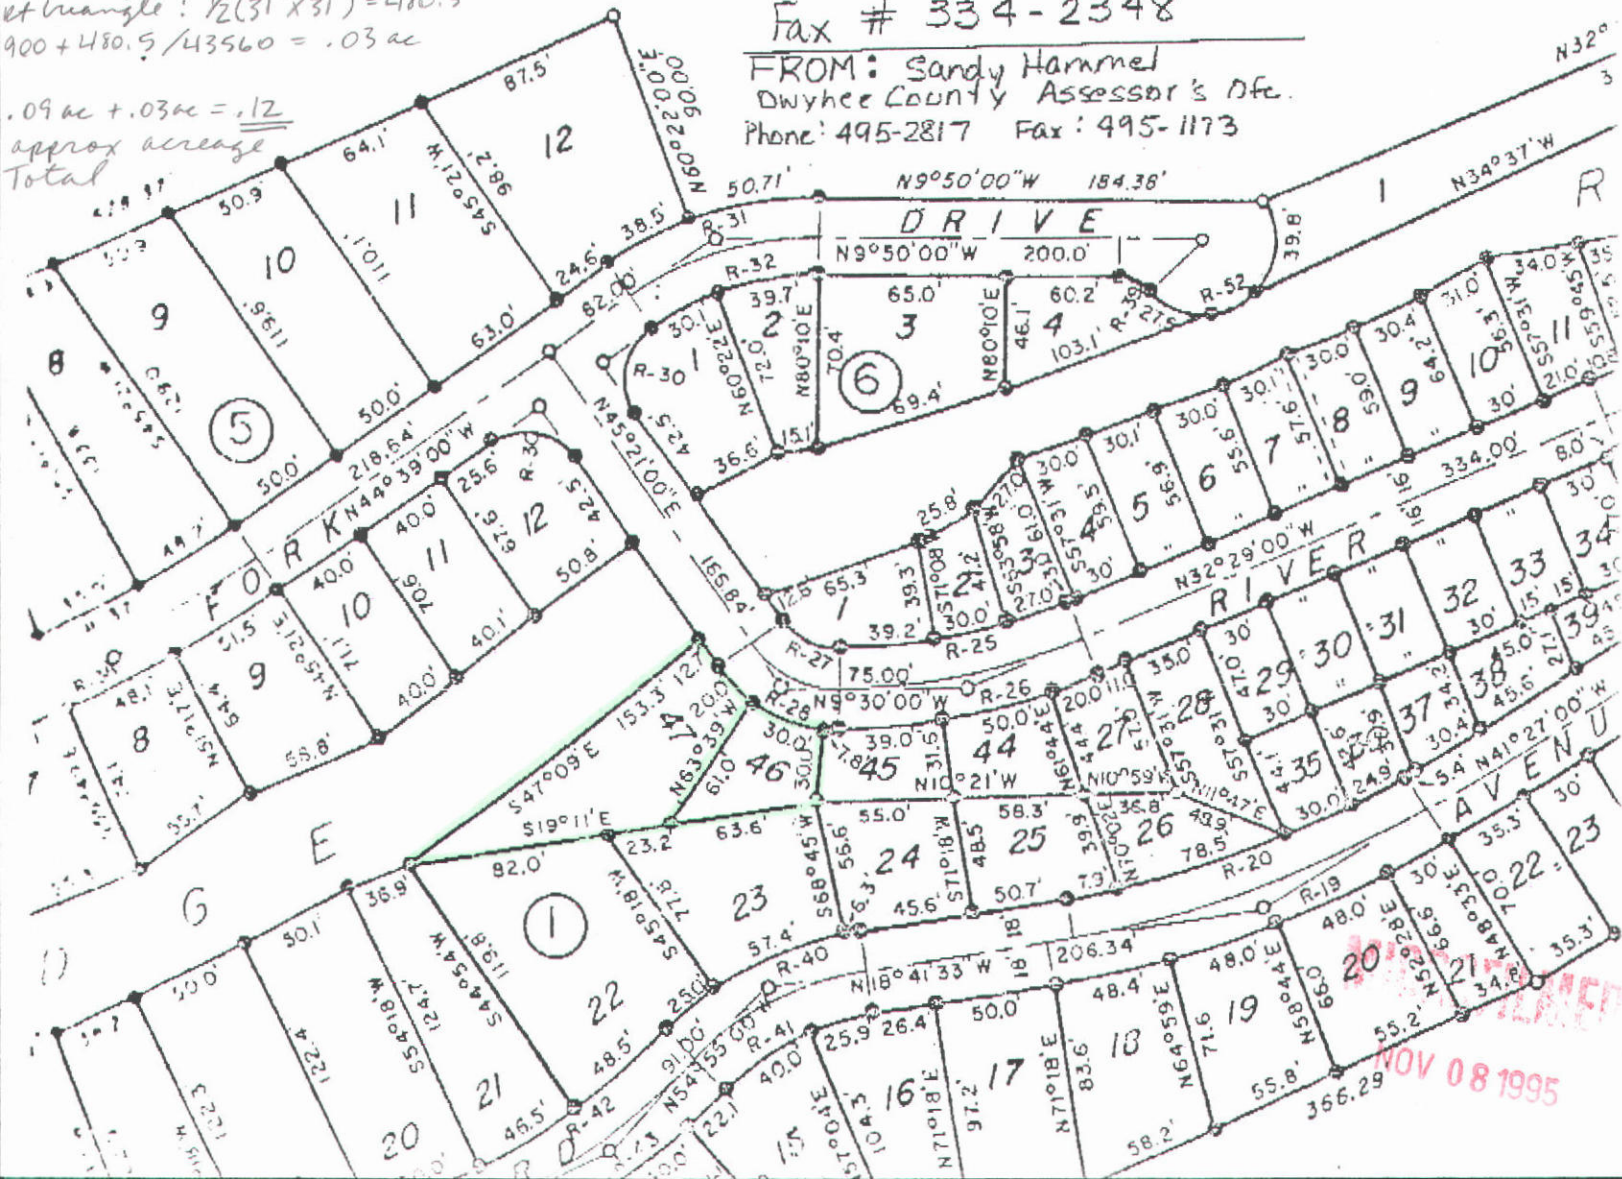

Lot 47

RE: WATER RIGHT NO. 51-07273

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion and the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Gaylord Choate located property
his own very small, which
consists of lot 46 + 46, Blk 1, Murphy
Hot Springs Subdivision. At the
time of the exam the system was
not operating. The pump found for
the system was not functional
because the belt was worn out. Gay
later told me that he was in the
process of purchasing a new pump
for next season. The property is
equipped with portable no. 1 and
gasoline, a well supplies ground
water to the sanitary trailer for
internal use. No other water is
used.

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = .1 \times 3.5 = .4$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .02 \times 184 \times 1.9835 = 7.3$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = .4$$

 Lori - I apologize for taking so long getting this to you. You asked
 for acres on each lot, (Lot 47 is .108), unfortunately, the
 survey does not give enough curve information to correctly
 determine acres on Lot 46. Hope this will help you.

Lot 47

rect. area: $15' \times 35' = 2475$
 rt triangle: $\frac{1}{2}(77' \times 35') = 1386$
 $2475 + 1386 / 43560 = .09 \text{ ac}$

Lot 46

rect. area: $30' \times 30' = 900$
 rt triangle: $\frac{1}{2}(31' \times 31') = 480.5$
 $900 + 480.5 / 43560 = .03 \text{ ac}$

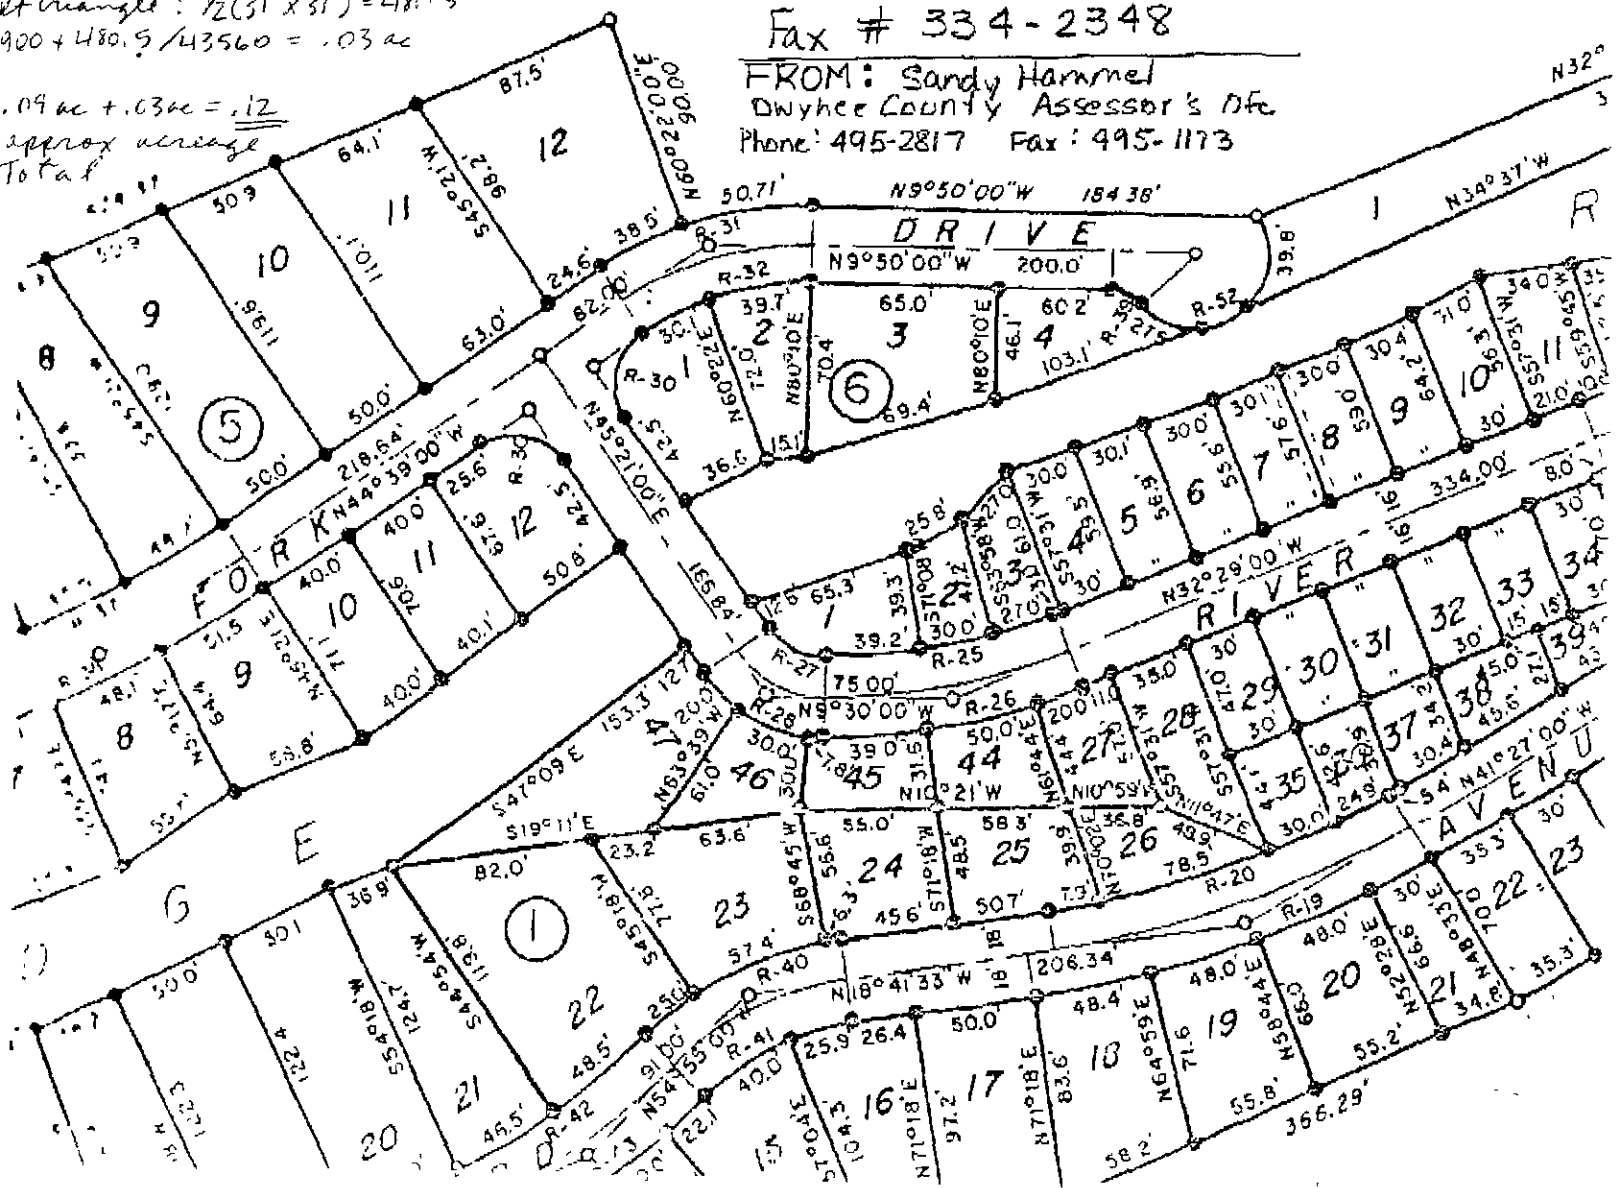

$.09 \text{ ac} + .03 \text{ ac} = .12$

Dear Applicants(s):

We acknowledge receipt of your statement submitted as proof as beneficial use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office.

Sincerely,

MEMORANDUM

October 17, 1988

TO: File 51-7273

FROM: Rita Fleck 

Re: Reinstatement

On June 30, 1988, the department sent the proof due notice for this permit. In a prompt response, the permit holder returned the proof. It lacked some information, so on October 4, 1988, I mailed it to the permit holder with a brief letter. The permit holder responded promptly on October 11, 1988.

The permit holder in each case, responded promptly. The department, however, was not so prompt in its review of the proof form and request for information -- July 12 to October 4. During this time period, the permit lapsed. I feel that if the department had been able to address this proof form quickly, this department would have an acceptable proof in a timely manner.

I suggest the department reinstate this permit with no advance in priority.

PROOF DUE NOTICE

RE: Permit No. 51-7273

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

RE: Application of Billy D. Jacobsen
No. 47-7984

Dear Mr. Holmes:

Department of Water Resources

Mr. Jacobsen has been in to discuss the above application with us. As you know, it is for a vacation lot in the South Hills, containing 3 acres.

As you pointed out to Mr. Jacobsen, the 1180 Contract defines domestic to include lots of 2 1/2 acres or less. However, because of rounding by the Department's computer, we have considered lots of 3 acres or less to be within the 1180 definition. This permits everyone to use the computer summaries without having to physically examine each file to determine which applications fall between 2 1/2 and 3 acres. Therefore, Idaho Power Company has no objection to your processing Application for Permit No. 47-7984 as a domestic use pursuant to the 1180 Contract.

Yours very truly,

Thomas G. Nelson
