WATER RIGHT LICENSE

WATER RIGHT NO. 51-07196

Priority: July 26, 1982

Maximum Diversion Rate:

0.03 CFS

This is to certify, that ROBERT C KING
JANET A KING

PO BOX 2551

PALMER AK 99645

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated July 26, 1982; and has submitted Proof of Beneficial Use on April 1, 1991. An examination indicates that the works have a diversion capacity of 0.080 cfs of water from:

JARBIDGE RIVER, EAST FORK

tributary to BRUNEAU RIVER

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	0.03 CFS	

LOCATION OF POINT(S) OF DIVERSION:

SENE, Sec. 24, Township 16S, Range 09E
OWYHEE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
16S	09E	24	SENE	0.5		0.5

Total number of acres irrigated: 0.5

CONDITIONS/REMARKS:

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.
5. Diversion and use of water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.
6. The Director retains jurisdiction of the right issued to change, add or remove any requirement as determined to be appropriate.
7. This right when combined with Right 51-07320 and all other rights shall provide no more than .03 cfs per acre nor exceed a combined annual diversion volume of 1.8 af for the land described above.

J. Glen Saylor
for R. Keith Higginson, Director

MICROFILMED

BEFORE THE DEPARTMENT OF WATER RESOURCES

STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR)
)
PERMIT NO. 51-7196 IN THE NAME) ORDER APPROVING APPLICATION
)
OR ROBERT C. AND JANET A. KING)

Robert C. and Janet A. King, having filed with the Department of Water Resources (Department) Application for Permit No. 51-7196 to appropriate unappropriated waters; protests having been received; and the protestants having not appeared at a conference, the Director makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On July 26, 1982, Robert C. and Janet A. King (hereinafter applicants) submitted to the Department an application for permit to appropriate water from the East Fork of the Jarbidge River, tributary to the Bruneau River.
2. The proposed rate of diversion was 0.40 cubic feet per second for the irrigation of twenty acres located within the NW 1/4, Section 24, Township 16S, Range 9E, B.M.
3. The application was published in the Owyhee Nugget on August 18 and 25, 1982. Subsequently, the Department received timely protests from the following: Harry Whitmore, John & Margaret Thompson, Mr. & Mrs. Frank Montgomery, Robert W. Fries, Sr., Clarence & Frances Nye, C.N. Elton, William L. & Marguerite Baker, and Harry & Anita Showalter. In response to the protests, the applicants submitted a letter on September 14, 1982, in which they reduced the rate of flow requested from 0.40 cfs to 0.10 cfs.

RECEIVED
JAN 1 1983

4. Processing of this matter ceased when on November 19, 1982, the Idaho Supreme Court issued its decision relative to the subordination of water rights at Swan Falls Dam.

5. With the implementation of trust water procedures, the Department renewed processing of this application by means of a letter sent to the applicants to determine their disposition relative to the project on December 14, 1989. Subsequently, in a letter dated January 6, 1990, the applicants further reduced the rate of flow on the application to 0.05 cfs to be used for the irrigation of 1.5 acres.

6. The Department received withdrawals of protests in the names of Margaret Thompson, Robert W. Fries, Sr., Harry and Anita Schowalter, and Clarence and Frances Nye. In addition, the Department was advised that John Thompson is deceased.

7. A conference for the review of protests in this matter was set for September 10, 1990. At the conference, all additional protestants, including C.N. Elton, William & Marguerite Baker failed to appear.

8. On August 21, 1990, the Department sent an Order to Show Cause to the remaining protestants soliciting any information why the protests should not be dismissed. The department received no response to this order.

CONCLUSIONS OF LAW

1. Idaho Code, Section 42-203A (5) states in part as follows:
The Director of the Department of Water Resources shall find and determine from the evidence presented to what use or uses the water sought to be appropriated can be and are intended to be applied. In all applications whether protested or not protested, where the proposed use is such (a) that it will reduce the quantity of water under existing water rights, or (b) that the water supply itself is insufficient for the purposes for which it is sought to be appropriated, or (c) it appears to the satisfaction of the Department that such application is not made in good faith, or is made for delay or speculative purposes, or (d) that the applicant has not sufficient

financial resources to complete the work involved therein, or (e) that it will conflict with the local public interest, where the local public interest is defined as the affairs of the people in the area directly affected by the proposed use, or (f) that it is contrary to conservation of water resources within the State of Idaho; the Director of the Department of Water Resources may reject such application and refuse issuance of a permit therefore, or may partially approve and grant a permit for a smaller quantity of water than applied for, or may grant a permit upon conditions.

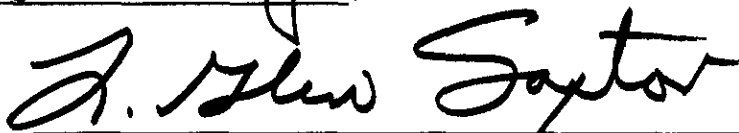

2. The protestants in this matter have failed to provide any reason why a permit should not be issued.
3. For failure to appear the protests in this matter should be rejected.
4. Because only 1.5 acres are now proposed to be irrigated under this application, there is no restriction to approval relative to trust water considerations.

ORDER

IT IS HEREBY ORDERED that application for permit no. 51-7196 is approved subject to the following conditions:

1. This water right is subject to all prior water rights.
2. Proof of construction of works and application of water to beneficial use shall be submitted on or before November 1, 1992.

Dated this 14th day of January, 1990.

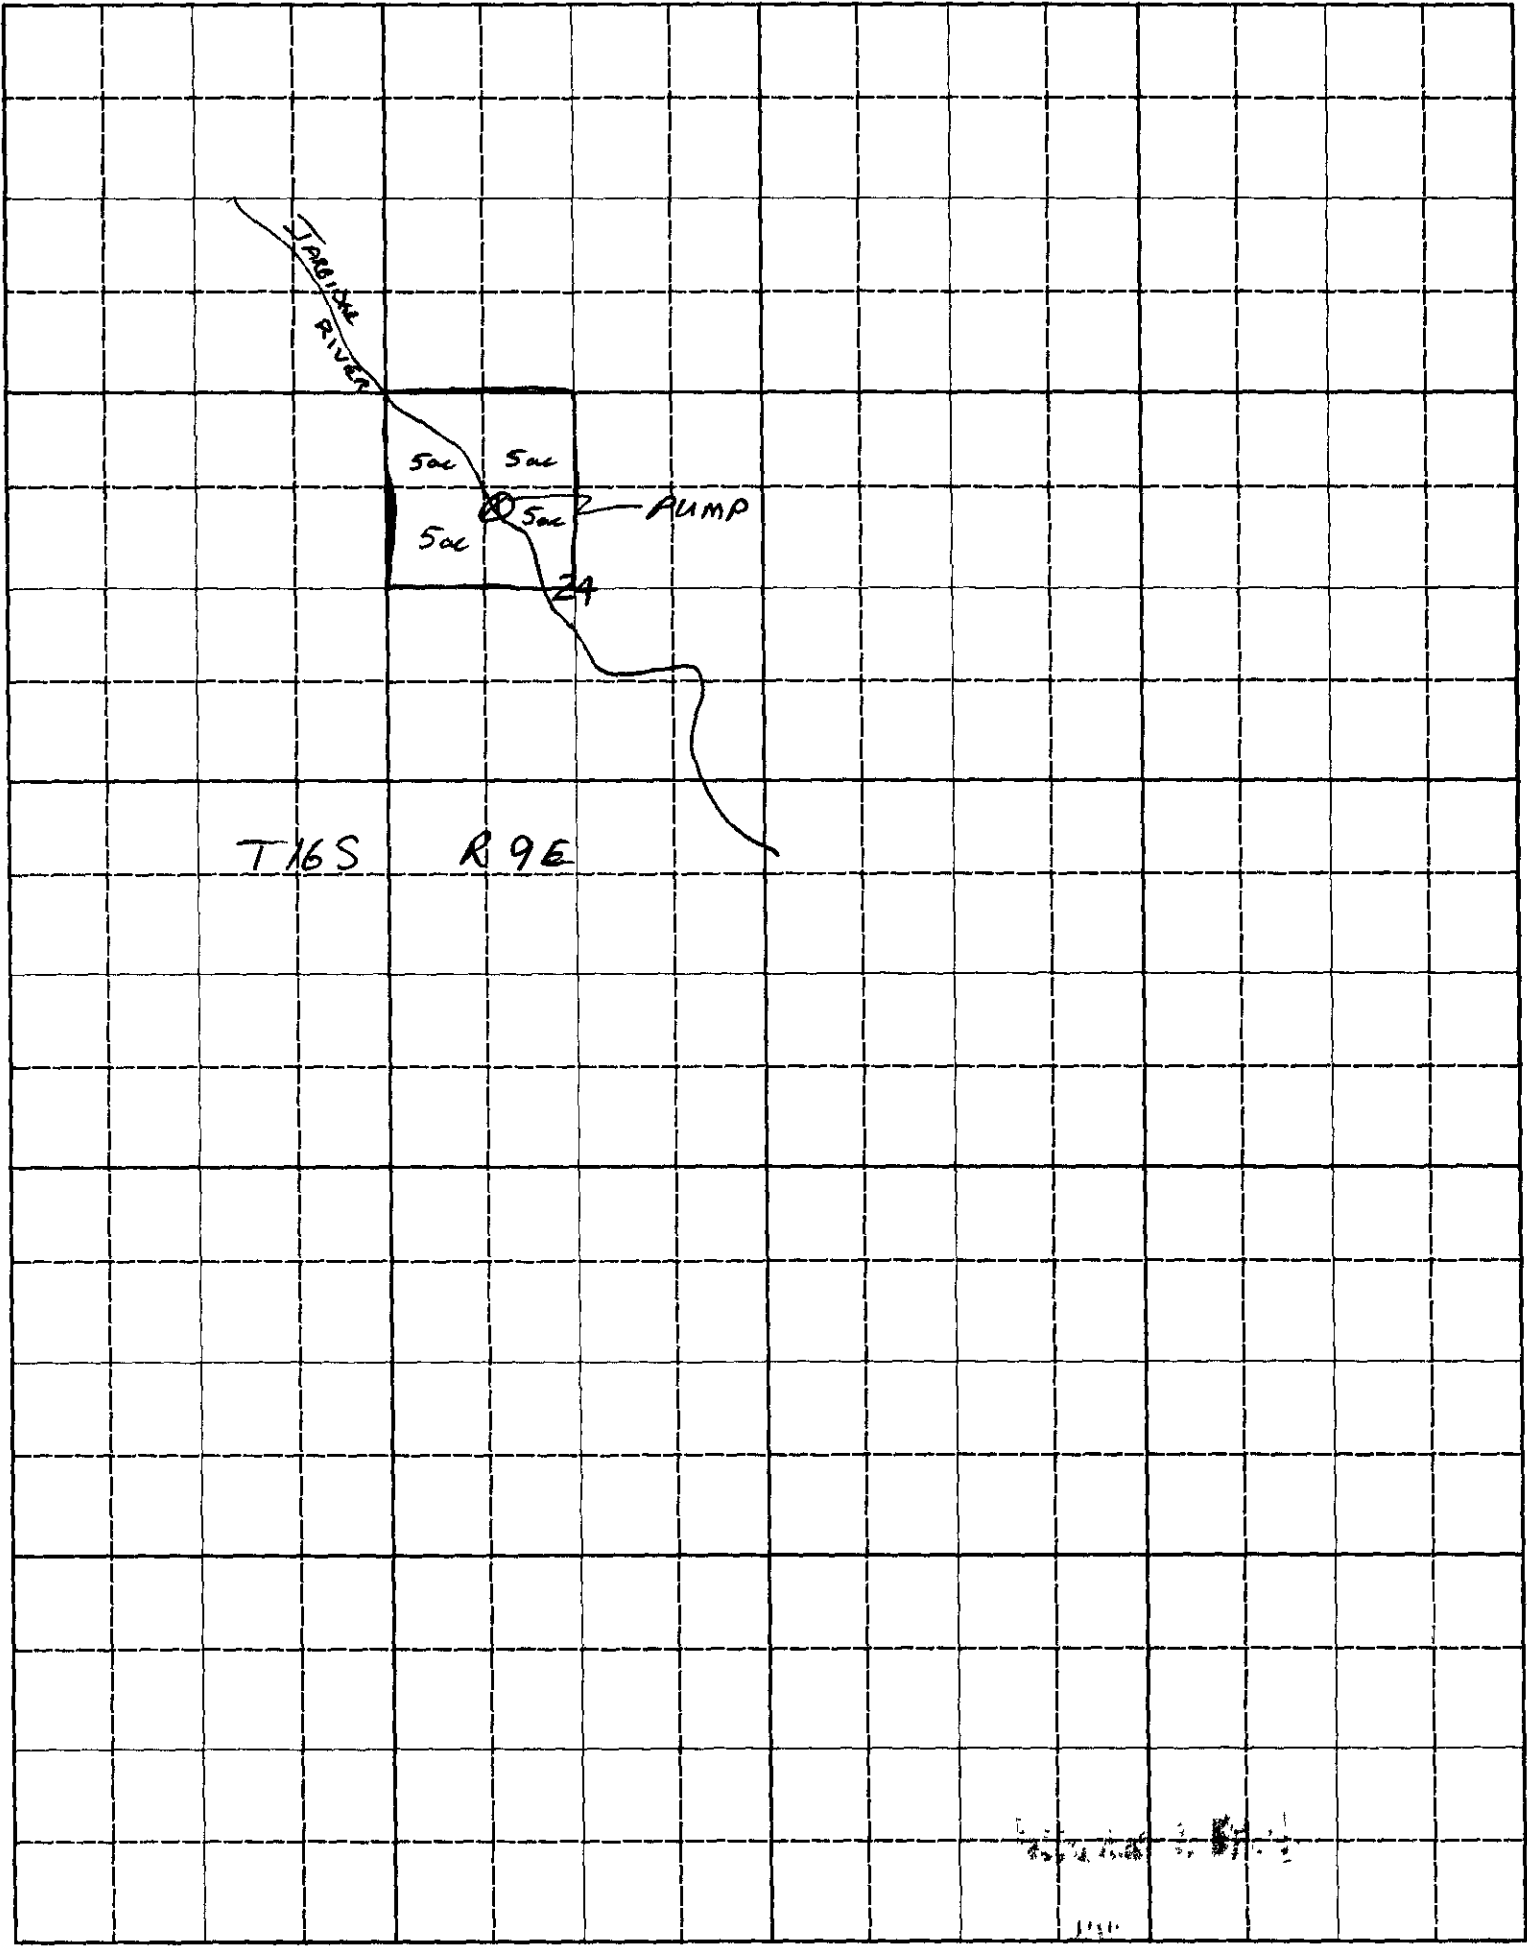

L. GLEN SAXTON, CHIEF, WATER ALLOCATION BUREAU

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant ROBERT C. & JANET A. KING Phone (907) 376-2241
Post office address BOX 2551, PALMER, AK 99645
2. Source of water supply JARVIS^{River}, EAST FORK which is a tributary of BRUNEAU River
3. Location of point of diversion is SE $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 24 Township 16S
Range 9E B.M. OWYHEE County, additional points of diversion if any: _____
4. Water will be used for the following purposes:
0.05* ~~0.10~~ see letter dated 9-4-82 from applicant. DBS
Amount 0.05 for IRRIGATION purposes from 4/1 to 11/1 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated:
0.05* ~~0.10~~ see letter dated 9-4-82 from applicant. DBS
a. 0.05 cfs cubic feet per second and/or b. 60.0 acre-feet per annum.
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. 5 hp or bigger pump to be placed at river; lines to land to be irrigated.
b. Height of storage dam NA feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____
Period of year when water will be diverted to storage _____ to _____, inclusive.
(Month/Day) (Month/Day)
c. Proposed well diameter is NA inches; proposed depth of well is _____ feet.
7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years (minimum 1 year — maximum 5 years).
8. Description of proposed uses:
a. If water is not for irrigation:
(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____
Range _____ B.M. _____
(2) Amount of power to be generated: NA horsepower under _____ feet of head.
(3) List number of each kind of livestock to be watered N/A
(4) Name of municipality to be served N/A, or number of families to be supplied with domestic water _____
(5) If water is to be used for other purposes describe: N/A

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

E. NARRATIVE/REMARKS/COMMENTS

A 1½ HP pump supplies farbridge river water to ~½ acre for irrigation via portable 2" black hose and buried sprinklers. In Murphy Hot Springs Sub-division #2, the King's own property in Blks 1 and 7 (per city assessor). The owner was not present during the exam to designate what was specifically irrigated with this system, however the pump was located in blk 1 and obviously supplies water to their blk 1 lots only which amount to ~.54 acreage total. .04 acre was subtracted out (~2000' home area) leaving ½ acre recommended for irrigation. License 51-07320 is also used for the property, which represents a partial community groundwater system. No other water vts are used.

Have conditions of permit approval been met? ☒ yes ☐ no

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 51-07196

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 51-07196

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

NOTICE OF CONFERENCE

On July 26, 1982, Robert C. & Janet A. King filed with the Department of Water Resources an application for permit to appropriate the public waters of the State of Idaho. The application was protested by John & Margaret Thompson, Robert W. Fries, Sr., C.N. Elton, William & Margaret Baker, Harry & Anita Showalter, Clarence & Frances Nye. Margaret Thompson and Robert W. Fries, Sr. have since withdrawn their protests.

The Department has set the matter of protest for a conference on Thursday, August 9, 1990, at 1:00 p.m., in the Elmore County Courthouse, Commissioners Room, 150 S. 4th E. Mountain Home, Idaho 83647. The conference will be held in accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code, the adopted Rules of Practice and Procedure of the Department of Water Resources, and Rules 4 and 5 of the adopted Rules and Regulations of Water Appropriation of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present information and argument on all issues involved.

CONFERENCE INFORMATION

IN THE MATTER OF APPROVAL OF AN APPLICATION FOR PERMIT

In accordance with Idaho Code, Section 42-203(A), the following issues are involved in the consideration of the application and protest(s):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the State of Idaho?

The intent of the conference is to resolve any conflicts regarding the proposed water appropriation in light of these five factors. The conference will not be recorded in an effort to promote full discussion of the issues. Possible resolutions are: (1) clarification of the issues resulting in a determination by all parties that the application is acceptable, (2) modification of the application to make it acceptable to the protestant(s), or (3) addition of acceptable restrictions or conditions of approval. If a resolution is not attainable, then a hearing will be set by the Department.

RE: Application for Permit #51-7196 in the Name of Robert C. & Janet A. King

Dear Interested Party:

On July 26, 1982, Robert C. & Janet A. King filed with this department an application for permit to appropriate water from the East Fork of the Jarbidge River for irrigation of 20 acres of land. The application was advertised in the Owyhee Nugget and protests were submitted by the individuals identified below. In response to the protests, the applicants sent a letter dated September 4, 1982, which reduced the rate of flow to 0.10 cubic feet per second. Before a hearing was held regarding the protests, the Idaho Supreme Court issued its landmark decision regarding water rights at Swan Falls, and action on any upstream water rights such as the one proposed by this application was halted.

Over the last several years state statutes have been modified, and rules and regulations have been adopted to enable processing of water right applications such as this. Consequently, on December 14, 1989, this office sent the applicants a request for update of their intent to develop the proposed water project. On January 6, 1990, the applicants prepared a response, which requested a further reduction of rate of flow of the application to that amount of water necessary to irrigate 1 1/2 acres of ground. Accordingly, the rate of flow on the application has been reduced to 0.05 cubic feet per second. For your information due to the long delay in processing of this application, a copy of the application is enclosed.

The purpose of this letter is to inquire regarding the status of your protest in this matter. Please advise this office regarding your intent to continue the protest in light of the recent reduction in the proposed rate of diversion. In addition, we ask that the applicants identify the actual location of the 1.5 acres proposed to be irrigated. We assume that the irrigation is somewhere in the northwest quarter, section 24, township 16 south, range 9 east, but in addition we need to identify the quarter-quarter of the section where development is proposed.

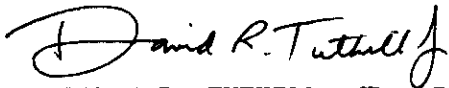

RECEIVED

JAN 30 1991

File #51-7196
March 20, 1990

Department of Water Resources
Western Regional Office

January 6, 1990

David L. Tutthill, Jr.
Mgr. Western Regional Office
2735 Airport Hwy
Boise, Idaho 83705

Dear Mr. Tutthill:

Thank you for your letter of December 14.
We would like to continue with the
proposed project. However, I think
the major objection originally was the
quantity of water we were asking for.
What we want is enough to irrigate
about an acre & a half of land. If
the quantity could be adjusted to
that amount we would appreciate it.

I have missed the January 4 date
I hope tho that we can still get
the proceedings under way

Thank you.

Re: Application for Permit #51-7196, East Fork Jarbidge River

Dear Mr. & Mrs. King:

Our records indicate that on July 26, 1982, you filed with this office the above-referenced application for permit. We advertised the application, and have on record eight separate protests to the approval of the application. A hearing that was originally scheduled for December 2, 1982, was delayed per your request, and shortly after that date a moratorium was imposed on all water right development upstream from Swan Falls Dam in the Snake River drainage basin. Recently that moratorium has been lifted, and we are again able to review applications for permit.

The purpose of this letter is to inquire regarding the status of the proposed project. If you still intend to develop the project as proposed, please advise this office no later than January 4, 1990. If this is the case, we will set the application for a conference, and will allow the protestants an opportunity to express their concerns.

If you have questions concerning this process, please feel free to contact this office.

Sincerely,

A handwritten signature in cursive script that reads "David R. Tuthill, Jr.".

- E. Letter, John V. Evans, Governor, to James Bruce, Chairman of the Board, Idaho Power Co., dated 9/16/83, re Swan Falls
- F. Letter, John & Margaret Thompson, to Idaho Dept. of Water Resources, Attn: David R. Shaw, dated 9/24/82 (copy enclosed)

Dear Governor Evans:

Since the State had given me permission to pump water from the East Fork to irrigate our yard (Ref. A), I was, needless to say, shocked to learn that I was being sued by Idaho Power Co. for using this water (Ref. B). So, several weeks ago, I visited the Dept. of Water Resources and Attorney General Jim Jones to seek advice. The consensus was that I should "relax because a State Court is now reviewing the Swan Falls dam situation and its decision will probably result in the withdrawal of the lawsuit".

But instead of relaxing I wish to present the following facts and recommendations:

1. As required by Idaho law, my application for permission to pump 0.02cfs of water was published in the legal notices section of the Owyhee Nugget newspaper (see ref.C), but Idaho Power Co. did not protest any of these three notices. Thus I feel that the State should notify Idaho Power Co. to remove my name from this lawsuit since they did not comply with Idaho protest procedure. (And I recommend that the State review the files of the other 7,499 irrigators being sued to see if Idaho Power failed to protest their legal notices.)

MICROFILMED

JAN 28 1984

2. On 10/20/83 the Idaho Dept. of Water Resources (Forrest Luthy) sent me a copy of the Proposed Contract, reference (D). Per a recent issue of the Owyhee Nugget, Idaho Power will drop the lawsuit against all 7,500 pumpers if you sign this Contract. Thus I was tempted to recommend that you sign the Contract, but The Contract's "lawyer language" baffles me.

Mr. Luthy also sent a copy of your reply to Mr. Bruce--reference (E)--and I was glad to hear that you and Mr. Bruce are still negotiating in an effort to reach an agreement on this very complex problem.

3. On page 3, para G, the Proposed Contract says that the Dept. of Water Resources is the "State Agency charged with the duty of ... enforcing the laws." But during my visit on 10/3/83, Mr. Luthy informed me that the present law gives no enforcement authority to the Dept. This really galls me because I am the only one of the pumpers on the East Fork who obeyed the law and hence I am the only one on the East Fork who is being sued by Idaho Power! Surely there is something fundamentally wrong here.

On 9/24/82 Mrs. Thompson and I complained about the failure of the Dept. of Water Resources to issue citations for illegal pumping from the East Fork--see postscript to reference (F). And I hereby again implore the State to put some "teeth" in the Idaho water rights law!

Very truly yours,

John B. Thompson

LETTER OF PROTEST

24 Sept. 1982

TO: Idaho Dept. of Water Resources
State House, 450 W. State St.
Boise, Idaho 83720
Attn: David B. Shaw,
Western Regional Supervisor

FROM: John & Margaret Thompson
Murphy Hot Springs
Rogerson, Idaho 83302

SUBJECT: Protestation of amended application by file #51-7196

REFERENCE: Your letter dated 9/15/82 with enclosure showing a reduction in water requested from 0.4 CFS to 0.1 CFS (item #4 of application)

In referenced letter you state that we "need do nothing" even if we disagree with amended application #51-7196 (Robert & Janet King). However, we feel that this amendment is so faulty that it justifies an additional letter of protestation.

In item #6a the applicant continues to request permission to install a "5 horsepower or bigger pump". This is totally unacceptable to us because it would give the applicant the unheard of authority to use any size pump he so desired. Also, item #5a continues to call for a total quantity of 0.4 CFS!

The Murphy Hot Springs Taxpayers' List dated 3/29/82, on file at the Owyhee County Court House, shows that the applicant owns 3 adjacent lots (#20, #21, & #22 in Block #1 of Subdivision #2); and the MHS subdivision map shows that these 3 lots have a total area of much less than one acre. Thus, by your own guideline-- 0.02 CFS per acre or fraction thereof--the applicant should be restricted to 0.02 CFS/0.5 hp pump.

In his recent letter to you (a copy of which you enclosed with your letter to us), the applicant states that he desires to use river water to irrigate lawns of his proposed development "outside the subdivision area". His outside holdings consist of many acres located above MHS, and we strongly feel that he should drill a well for irrigation purposes here--certainly the East Fork cannot provide the large amount of water he will need for his hillside acreage.

To reiterate, if the applicant refuses to make another amendment which reduces his request to 0.02 CFS/0.5 hp pump, we shall expect to be notified of the time and place for a hearing.

Very truly yours,

John & Margaret Thompson
John & Margaret Thompson

John & Margaret Thompson

PS: We have noted that several MHS lot owners have been pumping water from the river even tho they have no water rights. Why don't you or Fish & Game issue citations to encourage these people to legitimize their pumping installations? Failure to police the East Fork makes a mockery of your control system, and further more it is unfair to those of us who have spent time and money to obtain our water rights.

cc: Idaho Fish & Game Dept.; U.S. BLM; Robert Fries, Chairman, MHS Lot Owners Assoc.

Re: Application for Permit No. 51-7196

Dear Mr. and Mrs. King:

I am in receipt of your letter dated November 2, 1982 concerning your application and stating that you will not be available for the hearing scheduled for December 9, 1982. If you will not be available for the hearing on that date, I suggest you request the hearing be continued until a date that you will be available.

If you notice the last paragraph on the second page of the hearing notice states that if the applicant fails to appear at the hearing without good cause, the application will be dismissed. Since it is the applicants responsibility to go forward with evidence necessary to show that the five criteria will be satisfied, it would not be possible to have a hearing without the applicant or the applicant's representative present.

Please let me know as quickly as possible whether you would like to have this hearing continued until a later date or if you will have someone available at the hearing with the authority to represent you. If you have any questions, please feel free to contact this office.

Yours truly,

DAVID B. SHAW
Western Regional Supervisor

RECEIVED

NOV 4 1982

Department of Water Resources

Subject: Permit No. 51-7196
Notice of Hearing

RECEIVED

NOV 12 1982

Department of Water Resources
Western Regional Office

Dear Mr. Shaw:

We received the Notice of Hearing on our application for water rights filing on the water in the Jarbidge River.

As we wrote before, because of the distant we will be unable to attend the scheduled hearing on December 2, 1982. We would, however, like a copy of the hearing proceedings. Please ^{advise us} of the cost.

RECEIVED

There are some comments we would like to make concerning the issues to be considered.

1. We do not feel we will reduce the quantity of water under existing water rights particularly because we are able

to be at Murphys for a 2 month maximum period of time a year and the Thompson's were the only other party who had filed for use of the river water at the time we made application and they do not live at Murphys on a permanent basis.

2. As the water is to be used only for irrigation of yards or watering trees our request should be more than adequate to cover the intended use.

3. We have not made this request for speculative purposes but just for the purpose stated in #2 above.

4. Because the only need we ^{will} have be a small pump we have no problem with having the financial resources.

5. This proposal should in no way conflict with local public interest because people are using the river water for the same purpose ~~without~~ ^{without} having filed for water rights right now.

Another comment we would like to make is that we noticed the Robert Fries filed their protest as a spoken person for the Murphys Hot Springs

Property Owners Association. We are members of the property owners assoc. as are some of our neighbors and none of us were contacted as to ~~any~~^{our} concern about this issue. We feel Mr Fries has a right to file his own personal protest but not as a speaker for the property owners association as his protest letter implies.

If there is anything more we should do please let us know. We await the Dept of Water Resources decision.

Sincerely,

Robert C. and Janet A. King

JAN 28 1991

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR)
PERMIT NO. 51-7196 IN THE NAME OF)
ROBERT C. AND JANET A. KING)

NOTICE OF HEARING
AND/OR CONFERENCE

On July 26, 1982, Robert C. and Janet A. King filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On August 26, 1982 the Department received a protest against approval of said application on John and Margaret Thompson and Robert W. Fries, Sr., Chairman, Murphy Hot Springs Property Owners Association, on August 27, 1982 a protest from Clarence and Frances Nye, on August 31, 1982 a protest from C. N. Elton, on September 6, 1982 a protest from Harry and Anita Showalter and on September 7, 1982 a protest from William L. and Marguerite Baker.

The Department has set the matter of protest for hearing for December 2, 1982, 1:00 p.m., City Police Department Classroom, 365 3rd. Ave. East, Twin Falls, Idaho, 83301. The hearing will be held in accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved. A pre-hearing conference may be held beginning at the above set time and prior to the hearing.

Dated this 27 day of October, 1982.

DAVID B. SHAW
Western Regional Supervisor
JAN 28 1991

CONFERENCE AND HEARING INFORMATION
IN THE MATTER OF APPROVAL OF AN APPLICATION FOR PERMIT

In accordance with Idaho Code, Section 42-203, the following issues are involved in the consideration of the application and protest(s):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes at the expense of the requesting party. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

If the hearing is conducted by a hearing officer appointed by the Director, rather than the Director himself, a proposed decision will be submitted to the parties and the parties may be afforded an opportunity to file exceptions to the proposed decision and present briefs and oral arguments to the Director prior to the issuance of a final decision by the Director. This procedure is required by Idaho Code, Section 42-1701A.

The parties by written stipulation may waive their right to a proposed decision, however, the failure of either party to waive a proposed decision will not prejudice the Director's review of a party's evidence and arguments. However, such a waiver will shorten the decision-making process and may expedite substantially the issuance of a final decision. Whether compliance with Section 42-1701A is waived will not affect a party's right to petition for a rehearing of the final decision pursuant to Rule 11 of the Department's Rules of Practice and Procedure or affect a party's right to appeal the final decision to the district court.

Under the provisions of Idaho Code, Sections 42-1701A and 67-5215, any court review of the Department's decision on appeal shall be confined to the record created before the Department.

Failure to appear at the time and place set for hearing by the applicant or protestant(s) may allow the Department to dismiss without prejudice the protest(s) or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

FROM: John & Margaret Thompson
Murphy Hot Springs
Rogerson, Idaho 83302

Department of Water Resources
Western Regional Office

SUBJECT: Protestation of amended application by file #51-7196

REFERENCE: Your letter dated 9/15/82 with enclosure showing a reduction in water requested from 0.4 CFS to 0.1 CFS (item #4 of application)

In referenced letter you state that we "need do nothing" even if we disagree with amended application #51-7196 (Robert & Janet King). However, we feel that this amendment is so faulty that it justifies an additional letter of protestation.

In item #6a the applicant continues to request permission to install a "5 horsepower or bigger pump". This is totally unacceptable to us because it would give the applicant the unheard of authority to use any size pump he so desired. Also, item #5a continues to call for a total quantity of 0.4 CFS!

The Murphy Hot Springs Taxpayers List dated 3/29/82, on file at the Owyhee County Court House, shows that the applicant owns 3 adjacent lots (#20, #21, & #22 in Block #1 of Subdivision #2); and the MHS subdivision map shows that these 3 lots have a total area of much less than one acre. Thus, by your own guideline--0.02 CFS per acre or fraction thereof--the applicant should be restricted to 0.02 CFS/0.5 hp pump.

In his recent letter to you (a copy of which you enclosed with your letter to us), the applicant states that he desires to use river water to irrigate lawns of his proposed development "outside the subdivision area". His outside holdings consist of many acres located above MHS, and we strongly feel that he should drill a well for irrigation purposes here--certainly the East Fork cannot provide the large amount of water he will need for his hillside acreage.

To reiterate, if the applicant refuses to make another amendment which reduces his request to 0.02 CFS/0.5 hp pump, we shall expect to be notified of the time and place for a hearing.

Very truly yours,

John & Margaret Thompson

John & Margaret Thompson

PS: We have noted that several MHS lot owners have been pumping water from the river even tho they have no water rights. Why don't you or Fish & Game issue citations to encourage these people to legitimize their pumping installations? Failure to police the East Fork makes a mockery of your control system, and furthermore it is unfair to those of us who have spent time and money to obtain our water rights.

Re: 51-7196

Dear Mr. & Mrs. Montgomery:

Enclosed please find a copy of a letter dated September 4, 1982 from Robert C. and Janet A. King amending their original water right application by reducing the diversion rate from 0.40 cubic feet per second to 0.10 cubic feet per second. It should also be noted that even though the 60 acre-feet per annum amount was not amended the total amount that can be diverted during the 215 day period from April 1 through November 1 at a diversion rate of 0.10 cubic feet per second is 42.6 acre feet.

If this amendment allows you to withdraw your protest, please notify the Department in writing that you wish to have your protest withdrawn. If the amendment still does not satisfy the concerns that you have for this application, you need do nothing and the Department will schedule a hearing to resolve the protests at a later date. If you have any questions, please feel free to contact this office.

Yours truly,

DAVID B. SHAW

RECEIVED

SEP 14 1982

Department of Water Resources
Western Regional Office

Reference: Application No. 51-7196

Dear Mr. Shaw:

We received the letters of protest concerning our application for water rights No. 51-7196 yesterday.

We are the largest land owners at Murphys Hot Springs and want the area to remain a beautiful recreation area. The request for water rights for irrigation purposes in no way would have a major impact on the flow of water at any time. Because of the location of our land we wanted to insure the availability of legal use of the Garbidge river water to irrigate lawns and gardens as homes on development program and outside the subdivision area.

RECEIVED

JAN 28 1991

To assure those land owners who protested we request that our application be amended to reflect in No. 4 a request for 0.1 for irrigation purposes. Water at

this maximum request amount would
not be drawn during the low water period.

We hope this will resolve the matter
and our application processed.

Sincerely,

Robert K. King
Janet A. King

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

If this office can be of further assistance, please contact us.

Yours truly,

DAVID B. SHAW
Western Regional Supervisor

Protest case #51-7196
To Robert & for Janet
King Palmer, Alaska
Mr. X. Nunn - Sir:
We strongly protest
this issue - usually
there isn't that sort
of fire in Liver therefore
I am sure it would
call for ~~some~~ ~~some~~ ~~some~~ ~~some~~ ~~some~~
sort of storage back up.
Also it would leave
everyone here without
any fire protection
for all who live here.

it would also check
for a fishing - & as
this is an open river the
up. around it would
surely put a check on
fishing & recreation
for which this is
commercial recreation
area supported - If a
hearing is scheduled
please ~~advised~~ ^{inform} to
time & place.

Sincerely,
W. J. Baker
William D. Baker

Mr. Kenneth Dunn,

SEP 6 1982

Dear Sir;

Department of Water Resources

It has come to our attention through the Orange Nugget that a Mr. Robert King has applied for a permit to use water from East Fork of Garbidge to irrigate 20 acres of land.

It has also come to our attention that he aims to plant 20 acres of trees.

Our present flow is about 2 1/2 inches of water. In a normal year we have about 1/2 that amt. in summer.

We feel if application is approved it will limit the rest of lot owners amt of water to app. zero. We wish to file a protest against this approval.

Thanking you in advance.

Sincerely

Harry & Anita Showalter
Murphy Hot Spgs Lodge
Rogerson Id. 83302.

RECORDED

JAN 28 1971

LETTER OF PROTEST

25 August 1982

TO: Idaho Dept. of Water Resources
450 W. State St.
Boise, Idaho 83720
Attn: A. Kenneth Dunn / Lee Sisco

FROM: Clarence & Frances Nye
Murphy Hot Springs
Rogerson, Idaho 83302

SUBJECT: File #51-7196

REFERENCES: Owyhee Nugget, Marsing, Idaho, Legal Notices, 18 August 1982.
Application by Robert & Janet King, Palmer, Alaska for water
0.4 CFS from the East Fork of the Jarbidge River from April 1
to November 1.

PROTEST: Mrs. Nye and I are registering our protest to File #51-7196.
We have had a home at Murphy Hot Springs on the East Fork
of the Jarbidge River since 1952, 30 years. We feel that
during the last 30 years we have never seen a time when 0.4 CFS
could be pumped from the East Fork of the Jarbidge River
without ruining the fishing and depleting the river during
the months of August, September and October. In fact there
have been years when 0.4 CFS would have been too much any
month of the year-- 1981 the most recent example.

REQUEST: If there is a hearing on file # 51-7196 we would appreciate
it if you would notify us as to the time, date and place.

Sincerely,
Clarence Nye Sr.

Dear Mr. Dunn,

I am a property owner in Murphy Hot Springs.

Department of Water Resources

I object to the petition of Robert & Janet King to pump X amount of water (I don't have the exact amount) from the East fork of the Jarbidge river for the purpose of irrigation.

I also wonder if the Idaho Fish & Game Dept. might not also object. It seems to me that it would be detrimental to the fishing downstream from the pumping.

Sincerely,

Ch. E. Egan

Idaho Dept. of Water Resources
Western Region
A. Kenneth Dunn , Director
Statehouse
Boise, Idaho 83720

Dear Mr. Dunn:

We write in regard to the recent legal notice in the Owyhee Nugget newspaper of August 18, 1982, concerning the application for water right by Robert C. King and/or Janet A. King (case #51-7196).

We are a group of thirty eight (38) owners of residential lots bordering or adjacent to the East Fork of the Jarbidge River, who call our group the Murphy Hot Springs Property Owners Association.

The MHS Property Owners Association wishes to go on record PROTESTING the application of Mr. & Mrs. King for the amount of water they applied for. Our association has no objection to a reasonable amount of water (for domestic use) to be withdrawn from the river, but feel that 0.40 CFS is excessive and will be detrimental to the survival of fish in the stream in extreme low water years. We are also concerned about the esthetics of an installation that would extract this much water from the stream. Such an installation would very likely require a permanent installation that would be unsightly in this residential/recreational atmosphere, and would possibly require disturbance of the stream bed by way of a sump hole or a dam or both.

We would like , in closing, to re-state that our group would have no objection to an amended claim for a reasonable amount of water for domestic use, and would be amenable to withdrawing our protest should the parties applying for water rights reduce their claim to the area of 0.02 CFS.

Attn: A. Kenneth Dunn/Lee Sisco

RECEIVED

AUG 28 1982

FROM: John & Margaret Thompson
Murphy Hot Springs
Rogerson, Id 83302

Department of Water Resources
Western Regional Office

SUBJECT: Protestation re excessive amount of water requested by file #51-7196.

REFERENCES: a) Owyhee Nugget Newspaper dated 18 August 1982; water rights of 0.4 C.F.S. from the East Fork Jarbidge River applied for by Robert & Janet King of Palmer, Ak.
b) Phone call J. Thompson to Dept. of Water Resources, State of Idaho, on 8/23/82; during which Mr. Sisco explained that any complaint about a water rights application must be presented in writing.

Per the instructions received from Mr. Sisco in reference (b), Mrs. Thompson & I herewith register our protest to reference (a) application to remove 0.4 C.F.S. (180 gallons per minute) from the East Fork of the Jarbidge River at Murphy Hot Springs for the following reasons:

1. In dry years removing 180 G.P.M. would probably cause severe puddling and hence kill many fish. At any rate, before this application is decided upon, a study should be made to determine the effect on the fish.
2. To extract 180 G.P.M. in the fall of the year would surely require the construction of a dam across the East Fork, so we suggest you confer with the Idaho Fish & Game Dept. and any other state or federal agency whose approval is required-and we would think it unlikely that any agency would allow a dam to be constructed on this river.
3. To pump 180 G.P.M. from the East Fork up to the 20 acres specified in the application would require at least 15 H.P. If pumped by an electric motor, this would require three-phase electric service whereas at MHS we only have single-phase service. Hence the applicant would have to install a gasoline or diesel powered pump, and this would surely violate the MHS covenants as regards an "annoyance or nuisance to the neighborhood".

It should be understood that we have no objection to the applicant pumping a small quantity of water for lawn irrigation-in fact we have your permission to pump 0.02 C.F.S. for this purpose (Lot No. 1-A, subdivision No. 1, MHS).

If you are permitted to inform us as to the disposition of file No. 51-7196, we would appreciate hearing from you.

Very truly yours,
John & Margaret Thompson

Dear Mr. Dunn:

I am writing this letter in protest to Case
51-7196 Robert C. & Janet A. King to remove 0.4 C.F.S.
(=200 gallons per minute) from the East Fork of Jarbidge
River /20 acres.

As a property owner in this area, it is my
opinion that during low water seasons, it would take all
of the water out of the Jarbidge River. Therefore, I
protest this case.

Sincerely,

Harry Whitmore
