System Description (continued)

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

The system has a 20 H.P. centrifugal pump drawing water from a "pool" in a drain ditch that is created by a small earthen dam across the ditch. The water is pumped into an 8" mainline (underground approximately 1/2 mile long) with risers for wheel lines. 5 wheel lines were operating at the time of the exam (approximately 120 Rain Birds). This system also irrigates the land

in the SW¹/₄ NE¹/₄ of sec 7, T7S R5E. that is covered by claim 51-4025. Ground water can also be used on the land in the NW¹/₄ SE¹/₄ of sec 7, T7S R5E as covered by water rights 51-2143 and 51-4051 by means of a dirt ditch along Mr. Sellman's west property line. Water from Jack's Creek (51-4026) is used on adjacent land. Land in the SE¹/₄ NE¹/₄ and NE¹/₄ SE¹/₄ can receive groundwater by means of an open ditch from the wells (51-4051), and the land covered by 51-7143 is across Jack's Creek and not part of Mr. Sellman's farm. Crops include hay and pasture.

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information set showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.
