ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, L. GLEN SAXTON, of the Department of Water Resources hereby

Approve the above referenced Amendment provided the following conditions are met:

1. The combined rate of diversion of water for irrigation and aquaculture shall not exceed a total of 1.8 cfs nor shall the total volume diverted exceed 450 A.F.A.
2. For each 5 AF diverted for aquaculture, one acre of land shall be excluded from irrigation under this right.
3. Upon approval of a separate application for fish propagation authorized by this amendment, fish propagation shall no longer be authorized by this amendment.

Witness my hand this 24th day of May, 1984.

NOTICE OF APPLICATION FOR AMENDMENT

Notice is hereby given that permit No. 51-7092 in the name of Richard L. Owen was filed on 10/30/1974 for the diversion of 1.8 cfs from a groundwater source with a point of diversion within the SWSW Sec. 22 T 7S R 6E to be used for irrigation purposes from 4/1 to 10/31 within portions of the S¹/₂ SW and SWSE Sec. 22 and the NENE Sec. 27 T 7S R 6E.

The permit holder now proposes to amend the permit by changing the nature of use of the water to 1.8 cfs for irrigation from 4/1 to 10/31 and 1.8 cfs for Fish Propagation from 4/1 to 10/31 with a total diversion rate of 1.8 cfs.

Any protest against the approval of the proposed amendment must be filed with the Department of Water Resources, Statehouse, 450 W. State St., Boise, ID 83720 on or before April 23, 1984.

			SESE 4			9
		27	NENE 9			

Total number of acres irrigated: 74

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. **51-7092**

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Re: **Permit No. 51-07092**

Dear Sharla:

I have enclosed two executed affidavits which I am submitting concerning Water Permit No. 51-07092. These affidavits will hopefully clarify the uncertainty and confusion with regard to the irrigation of the 24.8 acre field which is the subject of contention as explained in the Field Examination Report dated July 6, 1987.

Due to a lack of complete understanding of the complexity of the situation, Mr. Owen previously signed the application for amendment to the permit which you submitted to him in prior correspondence. Please disregard those amendments.

Based upon the affidavits which I am submitting with this correspondence, Mr. Owen believes that the water permit should be licensed for the area inclusive of the 24.8 acre field located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 22, Township 7 South, Range 6 East, Boise Meridian, Owyhee County.

If the Department of Water Resources requires additional information with respect to this issue prior to the issuance of the license, including the above-referenced parcel of property as the place of use, please contact me and I will arrange an onsite inspection which should resolve the concerns of the Department. Additionally, I will make myself available to

**Permit No. 51-07092 in the name of Richard L. Owen
Affidavit Concerning Proof of Beneficial Use**

AFFIDAVIT OF RICHARD L. OWEN

STATE OF IDAHO)

County of Owyhee) : ss.

RICHARD L. OWEN, being first duly sworn upon oath, deposes and says as follows:

1. The following information is based upon my personal knowledge.
2. On October 30, 1974, the Idaho Land and Appraisal Co., on my behalf, submitted an Application for Permit to Appropriate the Public Waters of the State of Idaho ("Application") to the Idaho Department of Water Resources ("IDWR").
3. The application requested a permit for 1.8 cfs from a groundwater source with a point of diversion in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 22, Township 7 South, Range 6 East, Boise Meridian, Owyhee County.
4. I am the trustee of the trust which owns the land located at the point of diversion and place of use under the Application.
5. The place of use described on the Application was approximately 80 acres of land located in Section 22 and 10 acres in Section 27. More specifically, the places of use were listed as:

20 Acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 22, Township 7 South, Range 6 East
40 Acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 22, Township 7 South, Range 6 East
20 Acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 22, Township 7 South, Range 6 East
10 Acres in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 27, Township 7 South, Range 6 East
6. The Application was approved on or about December 17, 1974, by R. Keith Higginson, Director, IDWR, conditioned upon, inter alia, proof of construction of works and application of water to a beneficial use on or before December 1, 1979.
7. Permit No. 51-7092 (now 51-07092) was assigned by IDWR to the Application.
8. On September 20, 1979, I submitted to IDWR the Proof of Application of Water to a Beneficial Use, as required by the condition of approval contained in the Application.

1
JUN 25 1992

CW

9. On or about September 18, 1987, Carter Fritschle prepared a Beneficial Use Field Report ("Report") concerning Permit No. 51-7092. The Report indicates that "[a] 7.5 H.P. 'booster' centrifugal pump is used to pressurize the sprinkler system that irrigates a 24.8 acre field in the SW SW and SE SW of Sec. 22 T7S R6E. This field was irrigated for the first time in the summer of 1987."

10. I have been present at the Field, referred to in Paragraph 9, in each and every irrigating season since [1979].

11. The Field, referred to in Paragraph 9, has been irrigated from the well and pumps which are the subject of Permit No. 51-07092 since each and every irrigation season [before September 1979].

DATED this 28 day of April, 1992.

Re: Permit No. 51-07092 in the Name of Richard L. Owen

Dear Sharla:

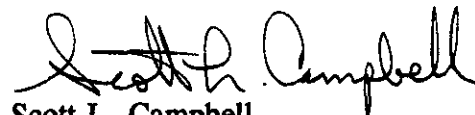

We recently discussed the status of the above-referenced permit during a telephone conversation. During that conversation, I asked you to hold further processing of the license concerning this permit until April 15, 1992.

Since our telephone conversation, I have been in communication with Mr. Richard Owen concerning this matter. Due to scheduling conflicts, Mr. Owen has not been able to meet with his engineer to review this matter. Accordingly, I requested an additional 14-day extension for providing a response to the Department with regard to the issues raised in your prior correspondence. I will be in a position to respond to your concerns on or about April 30, 1992.

Please advise me if this additional extension is not acceptable.

Very truly yours,

DAVIS WRIGHT TREMAINE

APPLICATION FOR AMENDMENT
(For Licensing Purposes)
WATER RIGHT NO. 51-07092

FOR DEPARTMENT USE ONLY

Preliminary check by _____ Fee = \$20.00 Received by _____ Date _____

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, R. Keith Higginson, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 51-07092 with the following;

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.

Witness my hand this _____ day of _____, 19____.

RE: WATER RIGHT NO. 51-07092

Dear Water Right Holder(s):

We previously forwarded to you an Amendment for Water Permit so that you could amend your permit to correspond with the findings of the Department's field examiner.

As of this date, we have not received this amendment. If we do not receive the amendment within fifteen (15) days, we will issue a Water Right License which reduces the amount that could have been allowable to you. Enclosed for your convenience is another amendment form in the event the first one was misplaced.

If you have any questions, please contact us.

Sincerely,

RE: Permit No. 51-7092

Dear Mr. Owen:

Back in July of this year, we sent you an application for amendment on the above referenced permit for use in licensing this right. The amendment reflected irrigation of a total of 74 acres. This figure included a 24.8 acre parcel which you indicated to the field examiner had been irrigated for the first time in the summer of 1987.

A license issued from this Department is reflection of the water delivery system actually developed during the permit period. In this case, the permit period ended on December 1, 1979, when proof of beneficial use was due. As you may recall, you actually filed proof of beneficial use in September of that year. Therefore, any acres developed after the permit period cannot be recognized under the license issued for this permit. Rather, a new application for permit needs to be filed to cover these acres. Enclosed for your convenience is an application for permit form.

Also enclosed is a new application for amendment form which you need to sign and return to this office within fifteen (15) days. This new amendment reflects removal of the acres irrigated after 1987. No filing fee is required; we will simply apply the fee you paid on the previous amendment.

If you have any questions, feel free to give me a call.

Sincerely,

Sharla Curtis

RE: WATER RIGHT NO. 51-07092

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the actual use of water found by a representative of our department at the time of the field examination. The enclosed application for amendment contains this information. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 15 days.

The claim you filed on this right under the ongoing Snake River Basin Adjudication contains the same information that you listed on the original permit. Therefore, you should also amend your claim to match the information on the proposed license. Enclosed for your signature is the Amended Claim form with the license information already listed.

Once I receive the signed amended claim along with the application for amendment of the permit and its fee, the water right license will be issued and your claim to this right will be included in the Director's Report summarizing the water uses in the Snake River Basin. (See the attached table for a summary of the water appropriation process.)

MEMORANDUM

TO: File 51-7092

FROM: Sharla

DATE: February 20, 1991

RE: Returned Field Exam

On this date, the field exam report for the above referenced file was returned to the region. According to the date proof of beneficial use was filed for this right, an adjudication claim is needed and has not yet been filed.

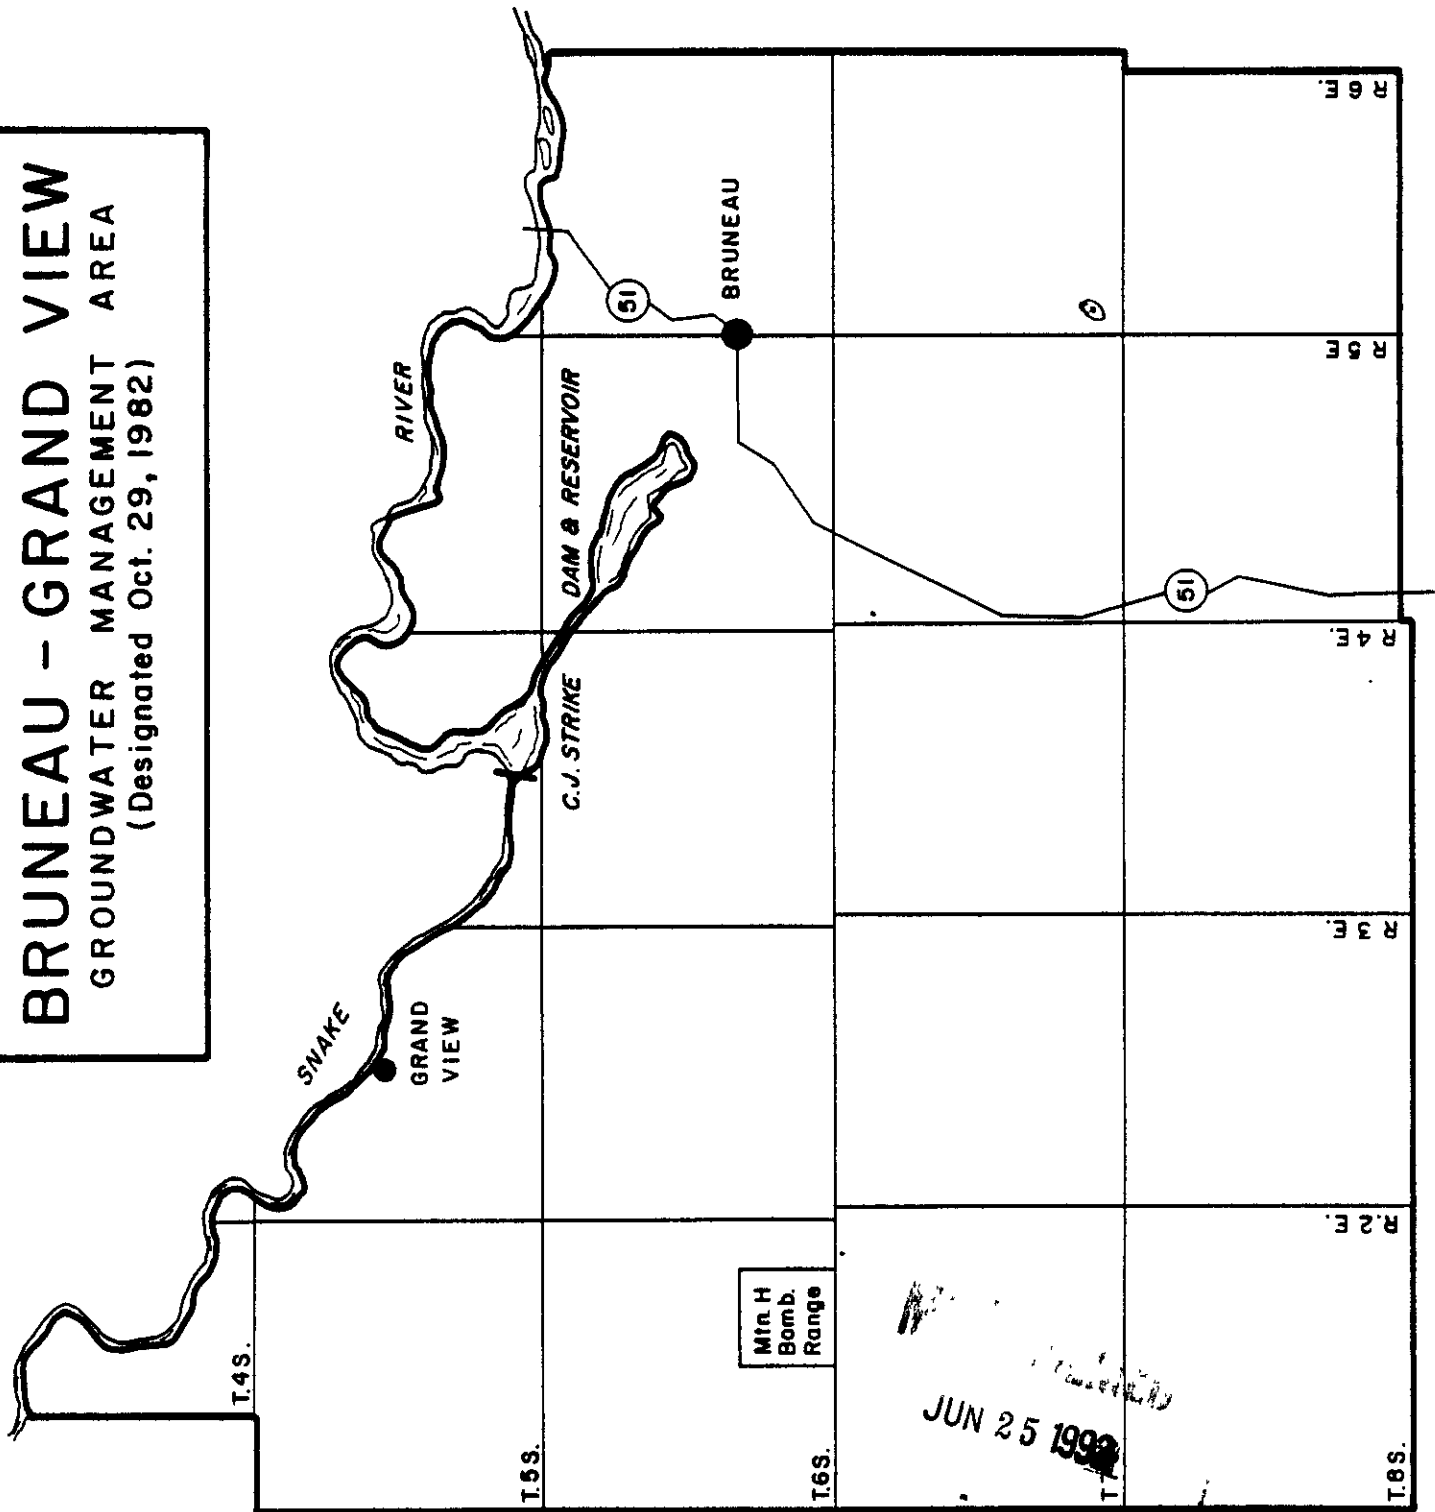

The region will solicit the claim and based upon response, either the field exam will be returned with the claim after being reviewed by the region for discrepancies, or the right will be disallowed in the Director's Report for failure of the holder to submit the claim.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information set showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

RE: 51-7092

Attached hereto is an application to amend the above designated water permit.

Proof of beneficial use was due 12-1-79. We filed proof in a timely manner. This permit has never been examined by the Department in order to issue a license.

We hereby respectfully request that you delay the necessary examination for at least two additional years, allowing time to have the applied for additional use in full operation before such examination.

Thank you for your consideration.

Very truly yours,

Richard L. Owen

MICROFILMED

Memorandum

To: 51-7092

From: David Shaw

Subject: meeting of 5/9/84

Present @ meeting: Laura Spangler, Phil Hanson, Norm Young & David Shaw

At a previous meeting on 2/23/84, with Phil Rassier also present, there was some misunderstanding and/or misguidance that resulted in the filing of the application for amendment dated 3/8/84. The meeting of 5/9/84 resulted from my letter of 4/30/84.

The concern of the applicants' representatives is that if a new application is filed the time to process that application will damage their development effort. The agreement reached on this application for amendment is to:

- 1) Approve w/ conditions limiting use to aquaculture or ~~irrigation~~ or combination limited to ^{combined} total of each use not to exceed 1.8 cfs.
- 2) New app. will be filed to cover additional use.
- 3) Amended permit will be reverted to single use upon approval of new app. This permit should license for one use.

At the meeting it was emphasized that an amendment or transfer was a change not an addition, even of a non-consumptive use. Also

MICROFILMED

RECEIVED

discussed filling new apps for non-consumptive uses.
These apps would not be held up by Swan
Falls since they are non-consumptive to the
river at Swan Falls. If they are not in a GUMA
they should be processed without difficulty by the
normal process.
For non-consumptive applications filed within a GUMA that
mirror an existing water right, the application
will be processed in the normal fashion. Apps
that exceed either the diversion rate or season
of an existing right in a GUMA will need, before
approval, a study to show the additional diversion
will not have a detrimental impact on the
aquifer or other wells in the area.

Re: Application for Amendment of Permit No. 51-7092

Dear Mr. Owen:

The Department is reviewing your proposed amendment to add fish propagation to an existing permit for irrigation. Section 42-211, Idaho Code provides for the amending of a water right permit and specifies an amendment can include a change in the original use of the permit but does not provide for adding an use to an existing permit.

The Department's position is that even though the fish propagation use is none consumptive, it cannot be added to the existing irrigation use.

A suggested solution would be file a new application for permit for fish propagation and specify on that application the source of water would be the same as the existing wells used for irrigation purposes. If you elect to apply for a new permit and withdraw the application for amendment presently before the Department, the \$20 filing fee for the application for amendment could be applied to the new permit application.

The Department will prepare a decision on the application for amendment if we do not receive any additional information within 30 days of this letter. Although the final decision will be by the Director, all indications are the present application for amendment will be denied.

If you have any questions regarding your application for amendment, please feel free to contact this office.

Yours truly,

DAVID B. SHAW
Western Regional Supervisor
