Dear Mrs. Owen:

On November 16, 1970 the Boise District Manager issued an "Initial Decision" favorably classifying the land of your petition I-2682.

According to your plan of development, water for irrigation is to be obtained from a well to be drilled. You must submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a State water permit approved by the State Reclamation Director. Attached is an extra copy of this letter which should be submitted to the Idaho Department of Water Administration at the time you apply for a permit. Unless they have knowledge that the land of the desert land application has been classified as suitable for entry, they may decline to issue the water permit. You should make arrangements with the State Reclamation Director to have a copy of the permit sent to this office. Also please advise us when you apply for a permit.

Until a Notice of Allowance is issued, you do not have any right to undertake development of the land.

We would appreciate receiving a copy of the permit as soon as possible.
