RE: Transfer No. 3324 / Permit 51-07082

Permit 51-07082 covers additional acres covered by the system referenced in Transfer 3324. The database lists the acres in all of the above referenced rights as they are represented on 51-02089B's copy of the approved transfer, which shows changes initialled by Jim Johnson. When reviewing 51-07082 for licensing, it was discovered none of the other files covered under that transfer have copies of the approved cover sheet showing the initialled changes.

Re: Permit No. 51-7047

E. D. Owen Middleton, Idaho 83644

Dear Mr. Owna:

One of the conditions of approval of your water Permit No. 51-7047. (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before <a href="December 1, 1974">December 1, 1974</a>. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, <u>Idaho Code</u>, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
