ORDER OF REINSTATEMENT

WHEREAS, on February 25, 1969, Raymond L. Barsness filed with the Department of Water Resources (formerly the Department of Water Administration) an application for permit to appropriate 4.28 cubic feet per second of groundwater to be diverted from a point within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 21, Twp. 9S, Rge. 12E, B.M., Owyhee County, to be used for irrigation purposes; and,

WHEREAS, on September 25, 1969, the Department approved said application and issued Permit No. 51-7038 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before September 1, 1974; and,

WHEREAS, on June 26, 1974, the point of diversion was amended to the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 29, Twp. 9S, Rge. 12E, B.M., and,

WHEREAS, on September 4, 1974, the Department lapsed said permit for failure to submit proof of beneficial use of water; and,

WHEREAS, on December 9, 1974, the Department reinstated the permit and advanced the priority to April 23, 1969, and also extended the time within which to submit proof of beneficial use of water to September 1, 1975; and,

WHEREAS, on July 3, 1975, the Department notified the permit holder by certified mail that proof of beneficial use was due and instructed the permit holder as to the steps to be taken to make said proof; and,

WHEREAS, on July 21, 1975, the point of diversion was amended to the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 29, Twp. 9S, Rge. 12E, B.M., and,

WHEREAS, on September 3, 1975, the Department notified the permit holder that Permit No. 51-7038 had lapsed for failure to submit proof of beneficial use of water; and,

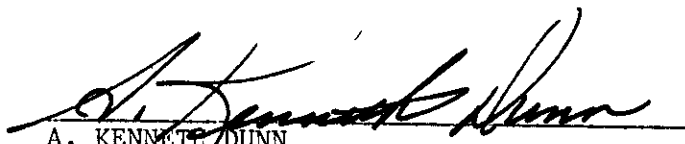

WHEREAS, on October 29, 1975, the Department received the required proof of beneficial use of water; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing as to why said permit should be reinstated;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 51-7038 be REINSTATED and the priority be advanced to June 20, 1969.

Dear Mr. Barsness:

On July 6, 1967, the Boise District Manager issued an "initial decision" classifying the lands included in your desert land petition-application as suitable for entry under the desert land act. The decision also stated that no entry would be allowed until satisfactory evidence of an available and adequate supply of water was submitted. Under this classification you are offered the opportunity to apply for a special land use permit to drill a well in order to obtain the necessary evidence of a water supply for irrigation.

Attached are application and stipulation forms and an instruction sheet. Please carefully read and comply with the requirements in the instruction sheet.

PLEASE NOTE: The application and stipulation forms must be completed in duplicate and sent or taken to the District Manager, Bureau of Land Management, 230 Collins Road, Boise, Idaho 83702, within 30 days from receipt of this letter.

If the application, stipulation, fees, rental and bond are not received by the District Manager within the 30 days allowed, we will assume that you are not interested in drilling a well. Your application will then be considered as rejected and will be closed without further notice.

If a well is not drilled or is unsuccessful during the period the permit is in effect, your application will automatically be considered as rejected when the permit expires.

You must also obtain a State water appropriation permit from the State Department of Reclamation to drill the well. Attached is an extra copy of this letter. The copy should be submitted to that office when you apply for a permit. Unless they have knowledge that the land in your desert application has been classified as suitable for entry, they may decline to issue the water permit. You should arrange with the State Reclamation Engineer to have a copy of the issued permit sent to this office.

Dear New Water Right Holder(s)::

We have received correspondence changing ownership of the above referenced water right permits to you and we have modified our computer records to reflect this change.

Enclosed is a report listing you as current owner of the permit and other important information about your water right. **Please review carefully the Conditions of Approval and Remarks.**

Also, please note that as of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

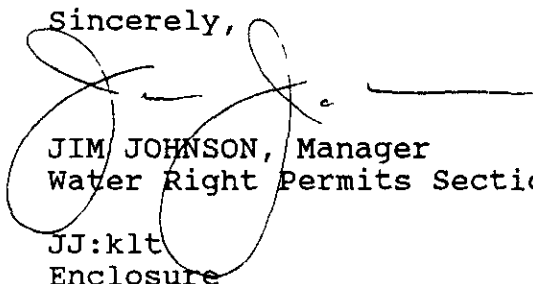

If you have acquired any other water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee.

Gary, from the attached documentation it appears that you have conducted the beneficial use field examinations on the above-referenced permits, but the Field Reports have somehow been misplaced. At this point it appears that the exams will have to be redone or rewritten. It seems like you would be the logical person to conduct this work, as this would maintain the most continuity. Would it be possible for you to assist us in this manner?

Thanks, Dave

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information set showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Dear Mr. Barsness:

One of the conditions of approval of your water Permit No. 51-7038 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Ms. Clifford:

During the processing of your Amendment to Permit #51-7018 in which you changed the location of the point of diversion, we have noticed an apparent error.

The amendment gives the description as being in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 29, Twp. 9 S., Rge. 17 E., B.M. We feel that the range should be 12 E. as that would then agree with your description of the place of use on your permit.

We are enclosing a copy of your amendment. Please verify the change by returning to us a short letter to enter into your file.

Recently Mr. Raymond Barsness has also filed an amendment to his permit #51-7038. This amendment would change his point of diversion onto your property.

We are enclosing a copy of that amendment and request that you review it. If the new point of diversion is on your property, please let us know by letter if that is acceptable to you. If not, we will not approve the amendment.

If you should have any further questions, please feel free to contact this office.
