Sec. 19: Lot 1, NE $\frac{1}{4}$ NW $\frac{1}{4}$

Your desert land application for the above described land has this day been approved and allowed, subject to any valid existing rights and your further compliance with laws and regulations applicable thereto. The acceptability of final proof is contingent upon development and reclamation of the land in accordance with your plan of development which is on file in the Boise Land Office. Any substantial change in source of water or deviation in the construction of the irrigating facilities must have the approval of the Bureau of Land Management. The irrigable acreage of this entry has been determined to be approximately 280 acres. In correspondence relating to this entry, always refer to the serial number shown above.

Subject to the Act of July 17, 1914, which will require the reservation of all oil and gas deposits to the United States.

Castleford, Idaho 83321

Dear Mrs. Wheeler:

The land included in your desert land petition-application I-1370 has been classified as suitable for entry under the desert land act.

According to your plan of development, water for irrigation is to be obtained from a well to be drilled. You must submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a State water permit approved by the State Reclamation Engineer. Attached is an extra copy of this letter. The copy should be submitted to the State Department of Reclamation at the time you apply for a permit. Unless they have knowledge that the land of the desert land application has been classified as suitable for entry, they may decline to issue the water permit. You should make arrangements with the State Reclamation Engineer to have a copy of the permit sent to this office.

We would appreciate receiving a copy of the permit as soon as possible. Also, please advise us when you apply for the permit.

Sincerely yours,

/s/ CURTIS R. TAYLOR

RE: OWNERSHIP OF PERMIT NOS. 51-07018/51-07030/51-07038

Dear New Water Right Holder(s)::

We have received correspondence changing ownership of the above referenced water right permits to you and we have modified our computer records to reflect this change.

Enclosed is a report listing you as current owner of the permit and other important information about your water right. **Please review carefully the Conditions of Approval and Remarks.**

Also, please note that as of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

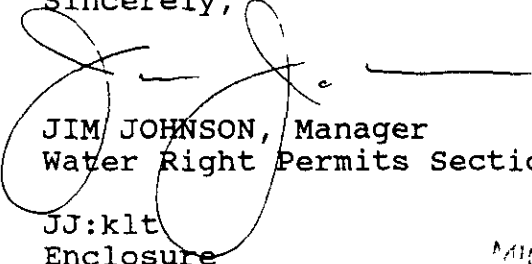

If you have acquired any other water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee.

You can contact any office of the department for more information. If you have any questions concerning your water right listed above you can contact me at (208)327-7947.

Sincerely,

JIM JOHNSON, Manager

Gary, from the attached documentation it appears that you have conducted the beneficial use field examinations on the above-referenced permits, but the Field Reports have somehow been misplaced. At this point it appears that the exams will have to be redone or rewritten. It seems like you would be the logical person to conduct this work, as this would maintain the most continuity. Would it be possible for you to assist us in this manner?

Thanks, Dave

Dear Water Right Holder(s):

We acknowledge receipt of the correspondence transferring ownership of the above referenced water right to you. We have modified our computer records to reflect this change in ownership.

We assume you are aware of requirements remaining to finalize the permit into a license.

If you have any questions regarding this matter, please feel free to contact us.

Sincerely,

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information set showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Dear Ms. Wheeler:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

Re: Permit No. 51-7030

Vivian V. Wheeler
Route #1
Castleford, Idaho 83321

Dear Mrs. Wheeler:

One of the conditions of approval of your water Permit No. 51-7030 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

R. KEITH HIGGINSON
Director

Castleford, Idaho 83321

Dear Mrs. Wheeler:

We are in receipt of your affidavit submitted as proof of beneficial use for the above referenced permit. However, in reviewing that affidavit, you do not indicate that you have installed the measuring device as required by the conditions of approval of your permit.

We cannot accept your proof unless you have installed the measuring device of a type approved by this Department. Therefore, we are herewith returning your proof affidavit.

We are enclosing a list of the types of measuring devices approved by this office. If you have any questions, please feel free to contact us.
