Dear Mrs. Russell:

On June 20, 1968, the Boise District Manager issued an "Initial Decision" approving your desert land petition I-2055.

According to your plan of development, water for irrigation is to be obtained from a well to be drilled. You must submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a State water permit approved by the State Reclamation Engineer. Attached is an extra copy of this letter. The copy should be submitted to the State Department of Reclamation at the time you apply for a permit. Unless they have knowledge that the land of the desert land application has been classified as suitable for entry, they may decline to issue the water permit. You should make arrangements with the State Reclamation Engineer to have a copy of the permit sent to this office.

We would appreciate receiving a copy of the permit as soon as possible. Also, please advise us when you apply for the permit.

Sincerely yours,

Attention: Mr. Jim Booker

Gentlemen:

Re: Water Permit No. 51-7003 - Clarence A. Russell
Water Permit No. 51-7029 - Mildred H. Russell

Confirming our telephone conversation today, I understand that (with the exception hereinafter mentioned) the permits are in good standing and ready to be licensed, subject to inspection and determination that the works are completed and functioning, and that the subject property has been irrigated.

The exception is that there will have to be an amendment to Permit No. 51-7003 to change the place of use with respect to two 40-acre subdivisions; this was caused by an erroneous previous amendment made by the Idaho Water Resource Board, as I understand it.

So that there will not be any doubt as to the land to be irrigated, the Russells own the following lands:

SW1/4 SW1/4, Section 14;
S1/2, Section 15; and
W1/2 (except the SE1/4 SW1/4), Section 22,
all in Township 7 South, Range 4 East, B.M.

of which the following was patented to Clarence Alfred Russell:

Sec. 14, SW1/4 SW1/4
Sec. 15, E1/2 SW1/4, SE1/4;
Sec. 22, NE1/4 NW1/4

Dept. of Water Adminis.

-2-

December 12, 1972

and the following was patented to Mildred H. Russell:

Sec. 15, W1/2 SW1/4;

Sec. 22, W1/2 W1/2, SE1/4 NW1/4, NE1/4 SW1/4.

You advise that this amendment can be made after inspection and without any necessity for republication.

Could you send me copies of the various amendments to these permits to complete my file? I have copies of the original permits only.

Thank you for your consideration and assistance.

Yours truly,
