BEFORE THE DEPARTMENT OF WATER ADMINISTRATION
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 51-7018)
in the name of NORA C. CLIFFORD)

ORDER

WHEREAS, on March 29, 1968, Nora C. Clifford filed with the Department of Water Administration (formerly the Department of Reclamation) an application for permit to appropriate 3.0 cfs of water from a ground water source within the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 29, Twp. 9S, Rge. 12E, B.M., Owyhee County, to be used for irrigation purposes; and,

WHEREAS, on May 29, 1968, the Department approved said application and issued Permit No. 51-7018 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before May 1, 1973; and,

WHEREAS, on August 9, 1972, the Department received an application for extension of time for said permit and returned the application to the permit holder and asked that the extension request be submitted closer to the date set for proof; and,

WHEREAS, on March 1, 1973, the Department notified the permit holder by certified mail that proof of beneficial use was due and instructed the permit holder as to the steps to be taken to make said proof; and,

WHEREAS, on May 3, 1973, the Department notified the permit holder that Permit No. 51-7018 had lapsed for failure to submit the required proof of beneficial use of water; and,

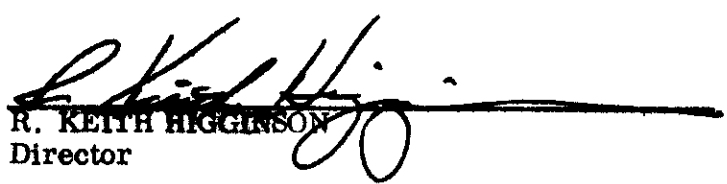

WHEREAS, on May 8, 1973, the Department received a request for reinstatement and an extension of time from the permit holder; and,

WHEREAS, it has been determined, after a review of the permit file, that the Department should have made an effort to contact the permit holder regarding the earlier request for an extension of time prior to the time of lapsing;

IT IS, THEREFORE, HEREBY ORDERED that the notice of lapsing under Permit No. 51-7018 be set aside and the permit REINSTATED without a loss of priority; and,

IT IS FURTHER ORDERED that the time within which to submit proof of beneficial use of water under Permit No. 51-7018 be EXTENDED to May 1, 1978.

Dear Mrs. Clifford:

On December 8, 1967, the Boise District Manager issued an "Initial Decision" approving your desert land petition I-1104.

According to your plan of development, water for irrigation is to be obtained from a well to be drilled. You must submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a State water permit approved by the State Reclamation Engineer. Attached is an extra copy of this letter. The copy should be submitted to the State Department of Reclamation at the time you apply for a permit. Unless they have knowledge that the land of the desert land application has been classified as suitable for entry, they may decline to issue the water permit. You should make arrangements with the State Reclamation Engineer to have a copy of the permit sent to this office.

We would appreciate receiving a copy of the permit as soon as possible.

Sincerely yours,

Orval G. Hadley

RE: OWNERSHIP OF PERMIT NOS. 51-07018/51-07030/51-07038

Dear New Water Right Holder(s)::

We have received correspondence changing ownership of the above referenced water right permits to you and we have modified our computer records to reflect this change.

Enclosed is a report listing you as current owner of the permit and other important information about your water right. **Please review carefully the Conditions of Approval and Remarks.**

Also, please note that as of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

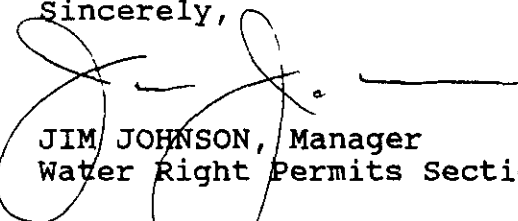

If you have acquired any other water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee.

You can contact any office of the department for more information. If you have any questions concerning your water right listed above you can contact me at (208)327-7947.

Sincerely,

JIM JOHNSON, Manager

Gary, from the attached documentation it appears that you have conducted the beneficial use field examinations on the above-referenced permits, but the Field Reports have somehow been misplaced. At this point it appears that the exams will have to be redone or rewritten. It seems like you would be the logical person to conduct this work, as this would maintain the most continuity. Would it be possible for you to assist us in this manner?

Thanks, Dave

Dear Mr. & Mrs. Wheeler:

We have received an assignment form for the above referenced permit to change ownership of the right to you. We cannot accept the assignment, however, because Nora Clifford is not the current holder of record. A permit is considered personal property and, therefore, only the right holder of record can take action on the right, such as assigning it to another party.

We are returning the assignment to you. Please be advised that the permit is now in the name of Clyde J. Clifford, Box 204, Hagerman. We are also enclosing a partially completed assignment form for your use if you want the permit assigned to you from Mr. Clifford.

If you have any questions, please feel free to contact us.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information set showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Dear Ms. Clifford:

During the processing of your Amendment to Permit #51-7018 in which you changed the location of the point of diversion, we have noticed an apparent error.

The amendment gives the description as being in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 29, Twp. 9 S., Rge. 17 E., B.M. We feel that the range should be 12 E. as that would then agree with your description of the place of use on your permit.

We are enclosing a copy of your amendment. Please verify the change by returning to us a short letter to enter into your file.

Recently Mr. Raymond Barsness has also filed an amendment to his permit #51-7038. This amendment would change his point of diversion onto your property.

We are enclosing a copy of that amendment and request that you review it. If the new point of diversion is on your property, please let us know by letter if that is acceptable to you. If not, we will not approve the amendment.

If you should have any further questions, please feel free to contact this office.

Dear Sirs:

I had requested through the Twin Falls office some information regarding a Well in the NE $\frac{1}{4}$, SW $\frac{1}{4}$, Sec. 29, T.9S., R.12E., B.M. Nora C. Clifford held the permit No. 51-7018.

According to the information we received from your office, the well being drilled is at a different site and the permit will have to be amended to coincide with the well site.

I would like to protest this amendment, as this is in a critical water area and the well site is just about one fourth of a mile from my well. My well is 200feet higher in elevation and is located in the same fault as the one being drilled. If this well is completed, there will be five wells located in the same fault. All of them within $\frac{1}{2}$ mile.

Dear Mrs. Clifford:

One of the conditions of approval of your water Permit No. 51-7018 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Hagerman, Idaho 83332

Dear Ms. Clifford:

This letter is to notify you as a permit holder in the Blue Gulch area that a portion of the land west of Salmon Falls Creek has been declared a critical ground-water area and closed to further appropriation of ground water. This designation went into effect December 9, 1970 and will remain until it is shown that ground-water withdrawals do not exceed the estimated natural recharge to the area.

A public hearing will be held at the Buhl Senior High School, January 7, 1971 at 8:00 P.M., to accept any testimony or comment regarding the closure. A copy of the notice and hearing and description of the area is enclosed for your information.

Very truly yours,

Sheri L. Chapman

Sec. 18: S1/4, S2/4

Sec. 19: NE1/4, NE2/4

Sec. 20: NW1/4, E1/2, SE1/4

Your desert land application for the above described land has this day been approved and allowed, subject to any valid existing rights and your further compliance with laws and regulations applicable thereto. The acceptability of final proof is contingent upon development and reclamation of the land in accordance with your plan of development which is on file in the Boise Land Office. Any substantial change in source of water or deviation in the construction of the irrigating facilities must have the approval of the Bureau of Land Management. The irrigable acreage of this entry has been determined to be approximately 250 acres. In correspondence relating to this entry, always refer to the serial number shown above.

Subject to the Act of July 17, 1914, which will require the reservation of all oil and gas deposits to the United States.

Also subject to right-of-way I-1150 issued to Floyd E. and Anna L. Wheeler for an irrigation pipeline and ditch.

Also subject to right-of-way I-1571 issued to Idaho Power Company for a transmission line.

IN WITNESS WHEREOF, I have hereunto set
my hand and seal this 21st
day of August, 19 68
