Dear Claimant:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Sections 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification numbers when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Dear Mr. Wells:

We have advertised Claim No. 51-4106 and the transfer you have submitted on this claim.

The transfer proposes to add some troughs in addition to the instream use which had been going on since the April 1, 1946, date you have claimed. In order to assure that there will not be an expansion of the use under this claim if this transfer is approved, we request that you write a letter to this affect. The letter should include that the same number of cattle will be using this source after the transfer as were using it before. Any expansion in the use of a water right due to a transfer is denied and a new application for permit would have to be filed.

As soon as this letter is received and after the advertising and protest period is completed, the application for transfer will be forwarded to our state office for final review. This is, of course, if there are no protests received.

Please feel free to contact this office if you have any questions concerning the letter that has been requested.

Sincerely,

JAN SHURTE
