Dear Mr. Davis:

Re: Water Right Nos. 51-2138, 51-4023 & 51-7145

Pursuant to our telephone conversation of this date, enclosed are the copies you requested.

One thing I learned after talking with you is that the department does not review information on claims when researching water rights for overlapping uses and licensing. When you determine the amount of water produced by the wells, do not include the amount claimed on the water right claim.

A water right claim is just a method of recording a water right use. Unlike the water right permit the use of water has not been verified by a field inspection.

If I can be of further assistance, please feel free to contact me.

Sincerely,

RITA I. FLECK Secretary/Records Manager
