Dear Mr. McClain:

Upon preparing to license your above numbered permit, we find that your permit only lists one well within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 35; whereas, you are diverting water from two wells. In order to have both wells covered by your water license it will be necessary for you to amend your permit to include both wells. We are enclosing a partially completed amendment form for your use in this matter. Please sign this amendment and return it with the \$5 amendment fee.

Dear Ms. McClain:

One of the conditions of the approval of your permit
no. G-31503 was that proof of application of the water to
beneficial use be submitted to this office on or before _____
July 23, 1969.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.

RE:Advertising of permits G-31503 and G-31425

Dear Mr. Higginson:

Enclosed herewith are the notices of approved application for water to be advertised in the Times News for Laurel K. McClain and Donald W. McClain. Also enclosed is a copy of a note from Laurel McClain requesting that the spelling of her name be corrected, our file records indicate the assignment was submitted to your office with the name incorrectly spelled.

Please note that on September 13, 1968 an application for an extension of time was filed in both the above cases due to the fact both applicants desert entries were not allowed until July, 1964. Therefore, the advertising should not state "... are now submitting proof of beneficial use." as stated in your cover letter to the McClains of September 10, 1968.

If you have any questions, please advise.

Re: Permit No. G-31503

Laurell K. McClain
119 Juniper Street
Buhl, Idaho 83316

Dear Madam:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

IN THE MATTER OF PERMIT NO. G-31503)
in the name of Laurell K. McClain, 119)

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. G-31503 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.
 - b. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Reclamation of the application of the water to beneficial use on or before November 12, 1968. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for Completion of Works may be grounds for cancellation at the instance of the Department.

We would appreciate correspondence from you setting forth these permit numbers so that we might clarify our records. One of the wells to which we refer is very near the existing well, and a Mr. Roy Mason was working on the well for Mr. Elsing. Assignment Approved

On July 23, 1966, the above entryman (assignor) was
allowed desert land entry, Idaho 014944, on the following lands:

T. 9 S., R. 13 E., Boise Mer., Idaho
Sec. 19: 014944, 014945, 014946
Sec. 20: 014947

On November 14, 1966, the entryman (assignor) filed a deed
assigning all of his right, title, and interest in the entry to the
assignee named above. The assignee has filed an affidavit showing that
he is qualified to accept an assignment of and hold a desert land entry.

A review of the case file indicates the entry is now in good standing so
far as the record shows. However, this office does not attest to the
full compliance with the desert land laws as presently reflected by the
case record.

The assignment is hereby approved and the records of this office are
noted to show that the assignee is the entryman for the lands assigned
under the above-identified desert land entry. The remaining compliance
to be met on this entry and the due dates are shown below:

Re: Permit No. 0-31503

Mr. Jack A. Givens,
Rt. 2, Box 66,
Nampa, Idaho.

Dear Mr. Givens:

We enclose Permit No. 0-31503 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

~~Enclosed~~ Departmental Receipt No. 0-31503 which was issued covering payment in the amount of \$ 8.50, which includes \$ 3.50 for the filing fee and \$ 2.00 for the copies sent to the Bureau of Land Management, was given to you while in our office.

Well logs are an important part of your recorded water right and State Statutes require that well drillers supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Very truly yours,

~~GEO. N. CARTER~~
State Reclamation Engineer
