Re: Water rights licenses held in the name of Thomas C. McClain Farms, Inc.
and Thomas C. McClain

Gentlemen:

This letter is to advise you that The Idaho First National Bank claims a security interest in all water rights held in the name of Thomas C. McClain Farms, Inc. and Thomas C. McClain as an individual. The bank's security interest is evidenced by the real estate mortgage, a photocopy of which I will attach hereto. The bank claims an interest in the following license numbers: 47-2312, 51-2258, 51-2259, 47-2244A, 51-7108, 47-7030, 47-7039, 47-2261, 51-2444 and 51-2445. It is my understanding, pursuant to our telephone conversation with Roberta, that license #51-2445 has been renumbered as license #47-2472.

The bank hereby requests that you maintain a record in your files of the bank's claimed security interest in the licenses enumerated above. Should any action be taken with respect to any of those licenses, please notify Frank M. Arana, Vice President and Manager, The Idaho First National Bank, Buhl Branch, P. O. Box 666, 819 Main Street, Buhl, Idaho 83316.

Thank your courtesies extended in this matter.

Mr. Donald W. McClain
Castleford,

Dear Mr. McClain:

P A field examiner from our Department has examined the land and works covered by your above referenced permit. His inspection indicated that you are diverting water from two wells within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 35 rather than only one well as your permit now lists. In order to have both wells covered by your water license, it will be necessary for you to amend your permit. We are enclosing a partially completed amendment form for your use in this matter. Please sign this amendment and return it with a \$5 filing fee.

As soon as we are in receipt of this completed amendment and proper fee, we are prepared to license your permit as follows:

Y 3.33 c.f.s. of water from two wells for irrigation purposes within the NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 29; E $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 30, T. 9 S., R. 13 E., B. M. The priority date established is October 10, 1963. The maximum quantity of water diverted shall not exceed 1,064 acre feet per season.

If you do not concur with these findings, please advise us within 10 days of the date of this letter.

RE: Advertising of permits G-31503 and G-31425

Dear Mr. Higginson:

Enclosed herewith are the notices of approved application for water to be advertised in the Times News for Laurel K. McClain and Donald W. McClain. Also enclosed is a copy of a note from Laurel McClain requesting that the spelling of her name be corrected, our file records indicate the assignment was submitted to your office with the name incorrectly spelled.

Please note that on September 13, 1968 an application for an extension of time was filed in both the above cases due to the fact both applicants' desert entries were not allowed until July, 1964. Therefore, the advertising should not state "... are now submitting proof of beneficial use," as stated in your cover letter to the McClains of September 10, 1968.

If you have any questions, please advise.

Re: Permit No. G-31425

**Donald W. McClain
Cassford, Idaho 83321**

Dear Mr. McClain:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

DECISION

Desert Land Entry

Assignment Approved

On July 24, 1966, the above entryman (assignor) was allowed desert land entry, Idaho 631425, on the following lands:

T. 9 S., R. 18 E., Section 18, Idaho
Sec. 29: 1/2, 1/2
Sec. 30: 1/2, 1/2

On November 14, 1966, the entryman (assignor) filed a deed assigning all of his right, title, and interest in the entry to the assignee named above. The assignee has filed an affidavit showing that he is qualified to accept an assignment of and hold a desert land entry.

A review of the case file indicates the entry is now in good standing so far as the record shows. However, this office does not attest to the full compliance with the desert land laws as presently reflected by the case record.

The assignment is hereby approved and the records of this office are noted to show that the assignee is the entryman for the lands assigned under the above-identified desert land entry. The remaining compliance to be met on this entry and the due dates are shown below:

Dear Mr. Kramer:

We enclose Permit No. G-31425 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

~~Enclosed~~ Departmental Receipt No. G-8295 which was issued covering payment in the amount of \$3.50, which includes \$0.50 for the filing fee and \$2.00 for the copies sent to the Bureau of Land Management, was given to you while in our office.

Well logs are an important part of your recorded water right and State Statutes require that well drillers supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Very truly yours,
