51-2249 R-1062

Assigned to Dept of Parks/ Statehouse

APPLICATION FOR PERMIT

To Construct a Reservoir and Appropriate and Store
The Public Waters of the State of Idaho

Application No. R 36502
Permit No. R 1062 51-2249

Idaho Department of Fish & Game
518 Front Street,
Boise, Idaho

1. Name of Applicant: STATE OF IDAHO, Department of Fish and Game

Post office address: 518 Front St., Boise County Ada State Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of Capital Stock: $

(c) Amount paid in: $

(d) Names and addresses of directors:

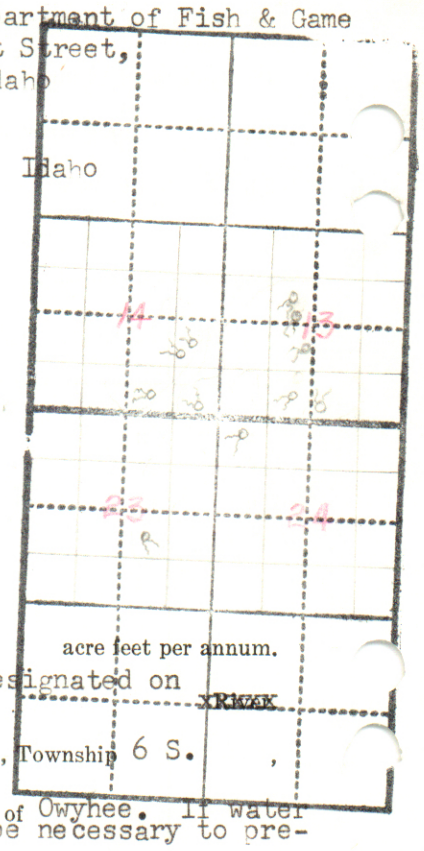

II. The financial resources of the corporation are:

(a) Cash on hand: $

(b) Treasury Stock: $

(c) Bonds to be issued: $

(d) Other resources:

2. Quantity of water to be stored: 6500 acre feet per annum.

3. Source of water supply is subterranean springs that emerge and flow entirely upon the lands designated on Page 2 hereof.

4 The outlet of the proposed reservoir is located S.44° E. 1940 feet, distant from the Northwest corner of Section 14, Township 6 S., Range 6 E., B.M. and is in the SW ¼ of NW ¼ of Section 14, Township 6 S., Range 6 E., B.M. County of Owyhee. If water level exceeds the basin elevations, control works located within the outlet channel may be necessary to prevent channel erosion.

5. Fill out either (a) or (b).

(a) The reservoir is located in natural basins near the Bruneau Sand Dunes

(b) The reservoir is to be filled by the flow of springs located within various subdivisions, designated on page two hereof within Sections 13, 14, 23, & 24.

(bearing) feet, distant from the corner of Section, Township 6 S., Range 6 E., B.M., and is in the ¼ of ¼ of Section, Township, Range, B.M.; width at bottom feet, width at top feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second

6. (a) The area of the high water line of the reservoir is 725 acres.

(b) The reservoir capacity is 6,500 acre feet.

7. Height of reservoir dam feet, length at top feet, length at bottom feet, size of outlet feet by feet. The dam is to be constructed of materials as follows: No dam is proposed. The water is confined by natural basins and it is expected that water evaporation & percolation loss will balance prior to overflow of waters from the basins.

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to land to be irrigated without commingling with natural flow of any stream. Yes.

(b) Water stored in reservoir will be carried in the channel of (Creek) (River) a distance of miles to point of diversion located (bearing) feet, distant from the corner of Section Township, Range, B.M., and in the ¼ of ¼ of Section Township, Range, B.M.

9. (a) Area of watershed above dam site nine (9) square miles.

(b) Estimated maximum flow of stream none cubic feet per second.
Natural flow of springs is 14.5 c.f.s.

10. Water is to be used for flood irrigation and storage for the propagation of game, fish and waterfowl and for public recreational use.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water (bearing) feet, distant from Corner of Section, Township, Range, B.M., and is in the ¼ of ¼ of Section, Township, Range, B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to (Creek) (River) (Spring) at a point (bearing) feet distant from the corner of Section, Township, Range, B.M. in the ¼ of ¼ of Section, Township, Range, B.M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No. , which is hereby referred to and made a part hereof.

13. Kind of diversion works: No diversion works required
(Dam, canal, flume, pipe, etc.)

14. Height of diversion dam: feet, length at top feet, length at bottom feet. The dam is to be constructed of materials as follows:

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

RECEIVED
APR 29 1965
Department of Reclamation

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

NOTICE is hereby given that at 10:00 A.M., on the 30th day of March 1965, at 518 Front St., Boise, County of Ada, State of Idaho, before Anne Epeldi, Notary Public, at 518 Front Street, Boise, proof will be submitted of the completion of works for the diversion of 14.5 cubic feet per second and storage of 6500 acre feet per annum of the waters of Sand Dunes Springs, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 28518 and R-1062, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and post-office address of the person or corporation holding said permit is: State of Idaho, for the use and benefit of the Department of Fish and Game, 518 Front Street, Boise, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion and the amount of water which said works are capable of conveying to the place of use is 14.5 cubic feet per second, and storage of 6500 acre feet per annum.

3. The use to which said water has been applied is flood irrigation, storage for propagation of game fish and waterfowl, and for public recreational purposes, and the amount applied to beneficial use is 14.5 cubic feet per second, and storage of 1700 acre feet per annum.

4. The point of diversion of said water is various springs emerging at undetermined sites within the water storage areas of Sections 13 and 24, T. 6 S., R. 6 E.B.M.

5. The place where said water is used is Sec. 13, SW¼NE¼, S½NW¼, SW¼, W½SE¼; Sec 14, S½N½, S½; Sec. 23, N½NE¼, W½, NW¼SE¼; and Sec. 24, N½-NW¼, all of T. 6 S., R. 6 E.B.M., Idaho. Total 1360 acres.

6. The date of priority which said user is prepared to establish is March 7, 1960.

CARL E. TAPPAN,
State Reclamation Engineer.

LOCATION

The Park is located in Owyhee County, 18 miles south of Mountain Home, 13 miles west of Hammett, and 5 miles northeast of Bruneau. The dunes can be reached via the all-weather Idaho State Highway 51 and a paved county road.

ACTIVITIES

Bruneau Dunes State Park offers a variety of recreation activities. Sand play is one of the unique attractions offered by the dunes. The lakes in the area provide the opportunity for swimming, canoeing, and bass and bluegill fishing. Modern camping facilities and a visitor information center are available to the public.

Bruneau Dunes State Park

DESCRIPTION

The Bruneau Sand Dunes are a vivid contrast to Idaho's varied scenery. The wind-drifted dunes reach a height of 300' above the surrounding Snake River flood plain. The two prominent dunes cover approximately 600 acres. Adjacent to the dunes are several lakes - the largest is 140 acres in size. The lakes provide opportunities for fishing and swimming and the many acres of wet lands in the park attract numerous species of wildlife.

To Construct a Reservoir and Appropriate and Store
The Public Waters of the State of Idaho

Application No. R 36502
Permit No. R 1062 51-2249

Idaho Department of Fish & Game
518 Front Street,
Boise, Idaho

1. Name of Applicant: STATE OF IDAHO, Department of Fish and Game

Post office address: 518 Front St., Boise County Ada State Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of Capital Stock: $

(c) Amount paid in: $

(d) Names and addresses of directors:

II. The financial resources of the corporation are:

(a) Cash on hand: $

(b) Treasury Stock: $

(c) Bonds to be issued: $

(d) Other resources:

2. Quantity of water to be stored: 6500 acre feet per annum.

3. Source of water supply is subterranean springs that emerge and flow entirely upon the lands designated on Page 2 hereof.

4 The outlet of the proposed reservoir is located S.44° E. 1940 feet, distant from the Northwest corner of Section 14, Township 6 S., Range 6 E., B.M. and is in the SW ¼ of NW ¼ of Section 14, Township 6 S., Range 6 E., B.M. County of Owyhee. If water level exceeds the basin elevations, control works located within the outlet channel may be necessary to prevent channel erosion.

5. Fill out either (a) or (b).

(a) The reservoir is located in natural basins near the Bruneau Sand Dunes by the flow of springs located within various subdivisions, designated on page two hereof within Sections 13, 14, 23, & 24.

(b) The reservoir is to be filled ... Township 6 S., Range 6 E., B.M., and is in the ¼ of ¼ of Section , Township , Range , B.M.; width at bottom feet, width at top feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second

6. (a) The area of the high water line of the reservoir is 725 acres.

(b) The reservoir capacity is 6,500 acre feet.

7. Height of reservoir dam feet, length at top feet, length at bottom feet, size of outlet feet by feet. The dam is to be constructed of materials as follows: No dam is proposed. The water is confined by natural basins and it is expected that water evaporation & percolation loss will balance prior to overflow of waters from the basins.
(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to land to be irrigated without commingling with natural flow of any stream. Yes.

(b) Water stored in reservoir will be carried in the channel of (Creek) (River) a distance of miles to point of diversion located (bearing) feet, distant from the corner of Section Township , Range , B.M., and in the ¼ of ¼ of Section Township , Range , B.M.

9. (a) Area of watershed above dam site nine (9) square miles.

(b) Estimated maximum flow of stream none cubic feet per second.
Natural flow of springs is 14.5 c.f.s.

10. Water is to be used for flood irrigation and storage for the propagation of game, fish and waterfowl and for public recreational use. purposes.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water feet, distant from Corner of Section , Township , Range (bearing) , B.M., and is in the ¼ of ¼ of Section , Township , Range , B.M.

(b) Amount of power generated: H.P., under feet head

(c) Water is to be returned to (Creek) (River) (Spring) at a point (bearing) feet distant from the corner of Section , Township , Range , B.M. in the ¼ of ¼ of Section , Township , Range , B.M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No. , which is hereby referred to and made a part hereof.

13. Kind of diversion works: No diversion works required (Dam, canal, flume, pipe, etc.)

14. Height of diversion dam: feet, length at top feet, length at bottom feet. The dam is to be constructed of materials as follows:

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: Width feet, Height feet.

16. Diversion Canal: Width at bottom feet, width at water line feet, depth of water feet, Dimensions of Flume A few equalizing channels may have to be made between basins
Diameter of Pipe inches; Length of Conduit miles. Average grade per mile feet.

17. Estimated Cost of Works: Storage Works: $ 3,000.00 Diversion Works: $ 1,500.00

18. Time required for completion of work five years.

19. Time required for complete application of water to proposed beneficial use is five years.

20. The land to be irrigated or submerged is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

Twp.	Range	Sec.	NE¼				NW¼				SW¼				SE¼				Totals
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼

"	"	24					20	35											55
											Total number of acres				to be irrigated				725

Total Number of Acres to Be Irrigated

21. Existing rights and/or valid permits appurtenant to lands described above are none, except the Department's application pertaining to the flow of spring waters. Said application is submitted with and is to be a companion permit of this application.

REMARKS: The lands to be irrigated are United States lands. The applicant has made application to purchase the land under the provisions of the Recreation Act of June 14, 1926 (44 Stat.741), as amended June 4, 1954 (68 Stat. 173; 43 U.S.C. 869), as amended Sept. 21, 1959 (73 Stat.571).

The springs emerge, flow and remain entirely upon the lands described in No. 20 of this application and form lakes within various basins located on the lands. The waters are used and stored within the basins to create and maintain lakes which are used to promote growth of aquatic plants used in the propagation of game fish and waterfowl.

BE IT KNOWN That the undersigned hereby makes application for permit to construct a reservoir and appropriate and store the public waters of Idaho as herein set forth, and that the enclosed map is hereby made a part of this application.

Returned to applicant for correction:

Corrected application received:

APPROVAL OF STATE RECLAMATION ENGINEER

The number of this permit is R 1062

Recorded in book R 5, page 1062. Approved March 18, 1960

This is to certify that I have examined the within application for a permit to construct a reservoir and appropriate and store the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of $, to be filed on or before

Work to begin on or before May 18, 1960 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before September 18, 1962

The whole of said work to be completed on or before March 18, 1965

Beneficial use of water stored in accordance herewith, to be made on or before March 18, 1970

Witness my hand this 18th day of March, 1960.

s/ GEO. N. CARTER
State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, ROBERT E. SMYLIE, Governor of the State of Idaho, and ARNOLD WILLIAMS, Secretary of State of the State of Idaho, have caused this instrument to be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 18th day of March, 1960.

COUNTERSIGNED

Application for Amendment
LAND LIST
Permit No. R-1062

Comes now JOHN R. WOODWORTH, acting for and on behalf of the State of Idaho, Fish and Game Department, and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. R-1062, and requests that the lists of lands to be irrigated, as described in said permit, be changed to read as follows:

T. 6 S., R. 6 E., B. M., Owyhee County, Idaho

Sec. 13, $SW\frac{1}{4}NE\frac{1}{4}$, $S\frac{1}{2}NW\frac{1}{4}$, $SW\frac{1}{4}$, $W\frac{1}{2}SE\frac{1}{4}$; Sec. 14, $S\frac{1}{2}N\frac{1}{2}$, $S\frac{1}{2}$; Sec. 23, $N\frac{1}{2}NE\frac{1}{4}$, $W\frac{1}{2}$, $NW\frac{1}{4}SE\frac{1}{4}$; Sec. 24, $N\frac{1}{2}NW\frac{1}{4}$, making a total of 1360 acres.

That an additional amount of waters is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Boise, Idaho, this 3rd day of February, 1965.

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

NOTICE is hereby given that at 10:00 A.M., on the 30th day of March 1965, at 518 Front St., Boise, County of Ada, State of Idaho, before Anna Spaldi, Notary Public, at 518 Front Street, Boise, proof will be submitted of the completion of works for the diversion of 14.5 cubic feet per second and storage of 8500 acre feet per annum of the waters of Sand Dunes Springs, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 28618 and R-1062, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and post-office address of the person or corporation holding said permit is: State of Idaho, for the use and benefit of the Department of Fish and Game, 518 Front Street, Boise, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion and the amount of water which said works are capable of conveying to the place of use is 14.5 cubic feet per second, and storage of 8500 acre feet per annum.

3. The use to which said water has been applied is flood irrigation, storage for propagation of game fish and waterfowl, and for public recreational purposes, and the amount applied to beneficial use is 14.5 cubic feet per second, and storage of 1700 acre feet per annum.

4. The point of diversion of said water is various springs emerging at undetermined sites within the water storage areas of Sections 13 and 24, T. 6 S., R. 6 E.B.M.

5. The place where said water is used is Sec. 13, SW¼NE¼, S½NW¼, SW¼, W½SE¼; Sec. 24, S½N½, S½; Sec. 25, N½NE¼, W½, NW¼SE¼; and Sec. 24, N½-NW¼, all of T. 6 S., R. 6 E.B.M., Idaho. Total 1060 acres.

6. The date of priority which said user is prepared to establish is March 7, 1960.

CARL E. TAPPAN,
State Reclamation Engineer.

Application for Amendment

LAND LIST

Permit No. R-1062

Comes now John R. Woodworth, acting for and on behalf of the State of Idaho, Fish and Game Department, and represents to the STATE RECLAMATION ENGINEER of the State of Idaho:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. R-1062, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

T. 6 S., R. 6 E.B.M., Owyhee County, Idaho

Sec. 13, SW^4NE^4, S^2NW^4, SW^4, W^2SE^4;

Sec. 14, S^2N^2, S^2;

Sec. 23, N^2NE^4, W^2, NW^4SE^4;

Sec. 24, N^2NW^4.

, making a total of 1360 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Boise, Idaho this 3rd day of February, 1965.

STATE OF IDAHO FISH AND GAME DEPARTMENT

By John R. Woodworth

John R. Woodworth, Director

Date of receipt at office of Department of Reclamation February , 1965

APPROVAL OF STATE RECLAMATION ENGINEER

I, GEO. M. CARTER, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. R-1062. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address: John R. Woodworth, Director of Idaho Fish and Game Department, acting for and on behalf of Idaho Fish and Game Department, 518 Front Street, Boise, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf:

Ques. 3. State number, approval date of permit, and date of priority you propose to establish under the permit; R-1062 approved March 18, 1960; priority date of March 9, 1960.

Ques. 4. State source of water supply: Springs located in Secs.13,14,23&24,T6S R6EBM
Give location of point of diversion, showing subdivision, section, township and range:

Ques. 5. Describe your works of diversion: No diversion works ; state amount of water they are capable of conveying from point of diversion to place of use 4.5 c.f.s.; Give name of canal or ditch or other works by which water is conducted to such place of use: Not named ; if a well, state depth of well ; depth and size of casing: ; depth to water ; if pump is used, state discharge of pump: ; tell how it was measured or determined: ; if sprinkler irrigation, give number and size of nozzles and operating pressure:

Ques. 6. State for what purpose water is used:
If for irrigation, name each subdivision in which used and number of acres in each subdivision that have actually been irrigated with said water :
for the propagation of game fish and waterfowl by storage of water in natural basins located within Secs. 13, 14, 23 & 24, T6S, R6EBM, and presently cover an area of approximately 320 acres.
State nature of all improvements which have been made as a direct result of said use:
Access roads developed, vehicle parking provided, boat launching ramp constructed, and approximately 100 trees planted.

Illegible typed 10-27-69 gmb

R-1062

Ques. 6-a: If this is a ground water permit, give name and address of person that drilled the well: No well; springs

Ques. 7. If for other than irrigation purposes, state purpose and how used:

Waters are stored within natural basins to create and maintain lakes, the waters of which promote aquatic plant growth which enriches the waters for good survival and rapid growth of game fish and waterfowl.

Ques. 8. What is the minimum amount of water required for the purpose specified above:

6500 acre feet. It is thought that full water storage within the reservoirs will provide the more productive habitat for the propagation of game fish and wildlife.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder:

Ques. 10. State when and in what amount the water diverted under above mentioned permit has been first used: _____ Time used since first use:

Use has been continuous from 1960 to the present date in the natural flow of the springs, being approximately 4.5 c.f.s.

Ques. 11. Describe all other water rights appurtenant to same place of use:

None

FORM 6

Permit No. R-1062

STATE OF IDAHO
Department of Reclamation

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO }
County of Ada } ss.

John R. Woodworth, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to Appropriate the Public Waters of the State of Idaho, No. R-1062, and that his postoffice address is 518 Front Street, Boise State of Idaho, acting for and on behalf of the Idaho Fish & Game Department.

Second: That the name of the stream from which said water is to be diverted is unnamed springs

Third: That the point of diversion of said water is at the point of emergence of springs located within various subdivisions, T6S-R6E, Idaho Sec. 13, SW¼NE¼, S½NW¼, SW¼, E½SE¼; Sec. 14, S½N½, S½; Sec. 23, N½NE¼, W½, NW¼SE¼; Sec. 24, N½NW¼.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by March 18, 1965.

Fifth: That the use for which said water is intended is storage & flood irrigation for the propagation of fish and game and for recreation.

Sixth: That on the date above mentioned, the works constructed under said permit were (or were not) fully completed and consisted of the following:

I. Kind of Works: reservoir; no other works required
(RESERVOIR, DAM, DITCH, FLUME, PIPE OR OTHERWISE)

II. Dimensions of work:

(a) Height of dam ____ feet, length of dam at top ____ feet, length of dam at bottom ____ feet. Material used in construction ____
(STATE WHETHER WOOD, EARTH STONE OR CONCRETE)

(b) Capacity of reservoir 6500 acre feet per annum

(c) Size of headgate: Width ____ feet, height ____ feet.

(d) Conduit ____ width at bottom ____ feet, width at water line ____
(STATE WHETHER DITCH, FLUME OR PIPE)
feet, depth of water ____ feet; diameter of pipe ____ inches, average grade per mile is ____ feet. Length of conduit is ____ miles.

Seventh: That said works are capable of conducting to the place of intended use 4.5 second feet of water.

Eighth: That water appropriated under said permit is available for 725 acres of land described as follows: T6S, R6E.B.M., Sec. 13, SW^4NE^4, N^2NW^4, SW^4, W^2SE^4; Sec. 14, S^2N^2, S^2; Sec. 23, N^2NE^4, W^2, NW^4SE^4; Sec. 24, N^2NW^4.

Ninth: Remarks:—That the waters of the springs emerge, flow and remain entirely upon the lands described in paragraph 8. The waters are used and stored within basins to create and maintain lakes which promote growth of aquatic plants and improve the water habitat for propagation of fish and game.

Building Mail

Gentlemen:

A representative of this department has made an examination of the works covered by your Permit No. 51-2249 and has found the following:

Quantity of water diverted: 4.5 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho law: 4.5 c.f.s.

The maximum quantity of water diverted shall not exceed 6600 acre feet per season.

Beneficial Use: recreation and fish propagation

The priority date established is : March 23, 1960 (late proof)

A fee totaling $ 5.00 must be received within 30 days from the date of this letter in order that we can issue you a Water License as set forth in this letter.

Very truly yours,

Donald W. McEldowney

LOCATION

The Park is located in Owyhee County, 18 miles south of Mountain Home, 13 miles west of Hammett, and 5 miles northeast of Bruneau. The dunes can be reached via the all-weather Idaho State Highway 51 and a paved county road.

ACTIVITIES

Bruneau Dunes State Park offers a variety of recreation activities. Sand play is one of the unique attractions offered by the dunes. The lakes in the area provide the opportunity for swimming, canoeing, and bass and bluegill fishing. Modern camping facilities and a visitor information center are available to the public.

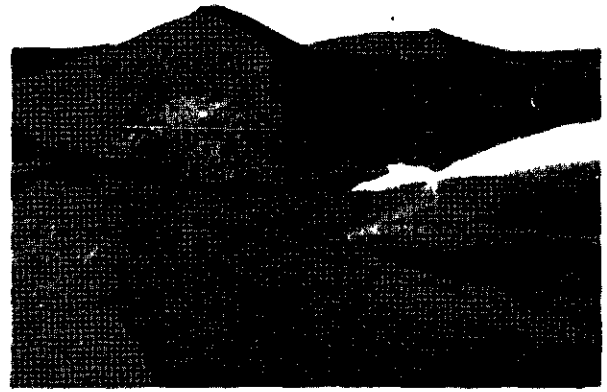

INFORMATION

Contact
Idaho Department of Parks, Statehouse
Boise, Idaho 83707

Bruneau Dunes State Park

DESCRIPTION

The Bruneau Sand Dunes are a vivid contrast to Idaho's varied scenery. The wind-drifted dunes reach a height of 300' above the surrounding Snake River flood plain. The two prominent dunes cover approximately 600 acres. Adjacent to the dunes are several lakes - the largest is 140 acres in size. The lakes provide opportunities for fishing and swimming and the many acres of wet lands in the park attract numerous species of wildlife.

BOISE, IDAHO

REPORT OF EXAMINER

Permit No. R-1062/51-2249

Natural flow of springs is 14.5 cfs PROOF - 4.5 cfs

This proof is for 6500 acre-feet to be stored In Water District No. .....

1. Name of applicant Department of Parks, Statehouse, Boise, Idaho

2. Source of water supply: ground-water (subterranean springs that emerge & flow entirely upon the lands designated)

3. Location of point of diversion: * Is in the (see on attached map) of Section 13, 14, 23 & 24

T. 6 S R. 6 E County of Owyhee

4. Describe works as they exist, giving dimensions and capacities of same:

No dam is proposed. The water is confined by natural basins and it is expected that water evaporation & percolation loss will balance prior to overflow of waters from the basins.

5. Water is used for: flood irrigation & storage for the propogation of fish & game, and for public recreational use. Proof omits public use.

6. State whether or not water has been turned into works of diversion:

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Lands to be irrigated or submerged:

6S-6E, Sec. 13, SW¼NE¼, S½NW¼, SW¼, W½SE¼; Sec. 14, S½N½, S½, Sec. 23, N½NE¼, W½, NW¼SE¼; Sec. 24, N½NW¼ = 1360 acres

Camp ground areas are nearing Completion. and the main road is paved To the main campground. At present time water is overflowing Large Lake into Small ponds. (see enclosed map.)

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: * No diversion works. Two Wells have been drilled. One will be used to irrigate approximately 40 Acres including Lawns. Well in Section 12 has 11'x24' Steel Storage Tank No Power at present time. Check for permits on Wells. One Large and Several Small Lakes Cover approximately 140 Acres. Only one Spring is above the Lake Level others are Submerged. Allow 6500 A.F plus 4.5 C.F.S. Water Will be used for Swiming, boating And fish propagation

Bryan W Rawlen, State Park Dept. Accompanied me on examination.

This examination was made on the 24th day of February, 1970

(Signed) Robert W Hamilton
Examiner.

Area = 142.5 acres ; Average depth 15'
V = 142.5 × 15 = 2138 A.F
Evaporation & Percolation loss 10 Ft ; 142.5 × 10 = 1426 AF/yr

AKD/10/1/70

51-2249
R-1062

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No. 51-2249

State of Idaho
Department of Parks
Building Mail

Dear Sirs:

While preparing your Water License on the above numbered permit, we found that an error had been made in figuring the amount of acre feet per season which we can allow under this permit. We can only allow 2,138 acre feet per season rather than 6,500 acre feet as you were advised previously.

We will withhold licensing of this permit for 10 days within which time you should submit any objections you might have to this lesser amount.

Very truly yours,

BOBBY D. FLEENOR
Assistant Director

Department of Reclamation

WATER PERMITS #28518 and R-1062

ADDENDUM OF DEVELOPMENT COST. RECREATION AND WILDLIFE USE.

The Idaho Fish and Game Department, in developing the waters of Sand Dunes Lakes for wildlife and public recreational use, did do the following designated work and did expend the monies as indicated:

The Department, in cooperation with the Owyhee County Commissioners, did grade and gravel two miles of access route, extending from an existing County road south to the Bruneau Sand Dunes Lakes, and did level, grade, and gravel a vehicle parking site and did fence one mile of said access road right-of-way. The cost of this work to the Department was $3,700.00. The cost to the County was an additional $1,045.00. The purpose of this development was to provide the public a means of access to the lakes for hunting, fishing, and boating.

Toilets were installed and replaced a number of times for an expenditure of $1,800.00. Public vandalism has destroyed these structures and none exist at the present time.

The Department, along with personnel of the Idaho Power Company, planted and replanted nursing trees on the lake margin for three successive years at a total estimated cost of $1,000.00. Although the plantings were successful, only a few are presently existing. Public vandals felled a number of the trees.

In locating the lakes, establishing fences, locating access roads, and in running levels to assure storage of the water, approximately $2,000.00 was expended for engineering and surveying costs.

The Department successfully stocked the lakes with bluegills and largemouth bass, at an estimated cost of $200.00.

To promote aquatic plant growth in the waters, so as to improve the habitat of the lake for both fish and waterfowl, roots of the common bullrush (Juncus effusus) were extracted from native habitat and transplanted in the coves of the Sand Dunes Lakes. These plants were successful. Estimated cost of the transplant was $100.00.

The total estimated cost of the project to the Department, as of October 3, 1966, is $9,845.00.

T. 6 S R. 6 E.B.M. County of Owyhee

4. Describe works as they exist, giving dimensions and capacities of same:

5. Water is used for: flood irrigation and storage for the propagation of fish, game and waterfowl and for public recreational use.

6. State whether or not water has been turned into works of diversion:

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SW¼NE¼, S½NW¼, SW¼, W½SE¼ Sec. 13., S½N½, S½ Sec. 14., N½NE¼, W½, NW¼SE¼ Sec. 23., N½NW¼ Sec. 24., Twp. 6 S., Rge. 6 E.B.M. (1360 acres)

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks:

This examination was made on the day of , 19

(Signed)

Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No. 29513
and R-1062

John R. Woodworth, Director
Idaho Fish and Game Department
518 Front Street
Boise, Idaho

Dear Mr. Woodworth:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the ~~OWYHEE CHRONICLE~~ OWYHEE CHRONICLE, all ~~29513 and R-1062.~~ submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

Form 17

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

RECEIVED
APR 1 1965
Department of Reclamation

PERMIT NO. R-1062

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. T. D. Biladeau, of legal age, residing at Boise, Idaho. Land Agent, Idaho Fish and Game Department, 518 Front Street, Boise, Idaho.

Ques. 2. Are you acquainted with John R. Woodworth, the holder of Permit No. R-1062? How long have you known him and where does he reside?

Ans. Yes. I have known him for 2 years. He resides at Boise, Idaho.

Ques. 3. Have you read or heard read said Permit No. R-1062, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Springs - waters emerge and flow within natural basins, creating natural reservoirs.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Water flows between the reservoirs and it appears that this flow comprises approximately 4.5 c.f.s.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Waters are used for the propagation of game fish and waterfowl. An access road has been constructed, vehicle parking provided and a boat launching ramp constructed. A number of trees have been planted on the area. T6S, R6 EBM, Owyhee County, Idaho; Sec. 13, SW^4NE^4, N^2NW^4, SW^4, W^2SE^4; Sec. 14, S^2N^2, S^2; Sec. 23, N^2NE^4, W^2, NW^4SE^4; Sec. 24, N^2NW^4.

R-1062

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Waters are stored within natural basins to create and maintain lakes, the waters of which promote aquatic plant growth which enriches the waters for good survival and rapid growth of game fish and waterfowl.

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. A flow of 4.5 c.f.s. It is thought that full flow for maximum storage will provide the most productive habitat for the propagation of game fish and wildlife.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. The water flow appears to be 4.5 c.f.s. This flow has existed since 1960 to the present date. Present storage comprises approximately 320 surface acres.

(Signed) T. W. Biladeau

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise, County of Ada, State of Idaho, on this 30th day of March, A. D. 19 65.

Anne Epaldi
Notary Public.

The Depositions of two Witnesses, in this form, taken separately, required in each case.

RECEIVED
APR 1 1965
Department of Reclamation

Permit No. R-1062

Proof of Completion of Works

DEPOSITION OF WITNESS

Ques.1. State your name, residence, occupation and postoffice address.

Ans. Ivol E. Sies, Boise, Idaho. Improvement Supervisor, Idaho Fish and Game Department, 518 Front Street, Boise, Idaho.

Ques. 2. Are you acquainted with John R. Woodworth, the holder of Permit No. R-1062, authorizing the storage of 6500 acre feet of the waters of natural springs which is ~~tributary~~ not a ~~or~~ stream, in the County of Owyhee, State of Idaho? How long have you known him, and where does he reside?

Ans. I have known him for 2 years. He resides at Boise, Idaho.

Ques. 3. Have you read or heard read said Permit? Yes Are you familiar with its terms and conditions? Yes

Ques. 4. Of what material and how has the dam been constructed?

Ans. No dam has been constructed.

Ques. 5. Is the reservoir fully constructed? Yes Has water been turned into it? Yes And to what extent? 4.5 c.f.s. The reservoirs are natural basins in which springs emerge.

Ques. 6. Where is the point of diversion of the feeder canal? There is no feeder canal.

Ans. ¼ ¼ Section ....., Township ..... Range .....

Ques. 7. The outlet of the reservoir is located in the ¼ ¼ Section ..... Twp. ..... Range ..... There is no outlet or outflow of water from the basins.

Ques. 8. Describe the spillway.

Ans. There is no spillway

Ques. 9. How much below the top of the dam is the bottom of the spillway? ..... Ft.
There is no dam or spillway.

Ques. 10. State the dimensions of the outlet for the reservoir. No outlet

Ques. 11. Of what material is the outlet made? No outlet

Ques. 12. How is the outlet gate operated? No outlet gate

Ques. 13. Of what material has the dam been constructed? No dam

Ques. 14. Are the works from the reservoir to place of use fully completed? Yes. Used on the site.

Ques. 15. Describe these works as they now exist, and give your estimate of their capacity.

Ans. A series of natural basins, approximately 725 acres in area, hold the water as natural reservoirs which are capable of holding 6500 acre feet of water.

Ques. 16. For what purpose is the water to be used?

Ans. The waters are used and stored within natural basins to create and maintain lakes used to promote aquatic plant growth for the propagation of game fish and waterfowl.

R-1062

Ques. 17. If for irrigation purposes, are you acquainted with the land to be irrigated?.....

How much water is required for its profitable cultivation?

Ans. It is believed that the larger the amount of water stored within the reservoirs the more productive the reservoirs will be for the propagation of game fish and waterfowl.

Ques. 18. Give the legal description of the land to be irrigated, or the place of use.

Ans. T.6 S., R. 6 E.B.M., Owyhee County, Idaho, Sec. 13, SW^4NE^4, S^2NW^4, SW^4, W^2SE^4; Sec. 14, S^2N^2, S^2; Sec. 23, N^2NE^4, W^2, NW^4SE^4; Sec. 24, N^2NW^4. TOTAL 1310 ACRES

Form 15-R

Permit No. R-1062

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. John R. Woodworth, Director of Idaho Fish and Game Department, acting for and on behalf of Idaho Fish and Game Department, 518 Front Street, Boise, Idaho.

Ques. 2. If acting on behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, acre feet of water you claim for storage, and source of same.

Ans. R-1062; March 9, 1960; 6500 acre feet storage; natural springs source.

Ques. 4. Under terms of permit construction was required to be completed by March 18, 1965.

Ques. 5. Construction was actually completed on the date of 19 Natural basins are used for water storage. No dam is needed or proposed.

Ques. 6. Does the construction fully comply with the specifications? Yes

Ques. 7. Of what material was the dam built? No dam constructed or needed.

Ques. 8. State whether or not the water has been turned into your reservoir, and if so, when and to what extent.

Ans. Water has so flowed and accumulated in the basin reservoirs continuously from 1960 to the present date, in the amount of approximately 4.5 c.f.s.

Ques. 9. The capacity of the reservoir is 6500 acre feet.

Ques. 10. The area of the high water line of the reservoir is 725 acres.

Ques. 11. The height of the dam above bottom of reservoir is feet, above low water is feet. No dam

Ques. 12. The dimensions of the spillway are and the bottom of the spillway is feet below the top of the dam. No spillway. It is expected that water evaporation & percolation loss will balance with the inflow prior to overflow of waters.

Ques. 13. Dimensions of the reservoir outlet are none

Ques. 14. Describe the gate and control unit.

Ans. None

Ques. 15. The reservoir outlet is made of None

Ques. 16. Is the reservoir filled through a feeder canal? No, it is filled by the flow of natural springs within the reservoir area.

Ques. 17. If so, where is the point of diversion for same? None

Ans. ¼ ¼ Section, Twp. Range

R-1062

Ques 18. Does the feeder canal comply with the specifications in the permit? Yes

Ques 19. If not, explain

Ques 20. Cost of constructing feeder canal? $ Cost of reservoir? $ No cost

Ques. 21. State whether or not the works from reservoir outlet to place of use are fully completed, and whether or not they comply with the specifications in permit. If not, explain.

Ans No outlet needed

Ques. 22 Water has (has not) been delivered to place of intended use? Water is stored at its place of use.

Ques. 23. Give description of dam, state dimensions, and give slope of face both upstream and downstream. Also method and material for protecting against wave action.

Ans No dam has been constructed or is needed.

Ques. 24. State the purpose for which the water is to be used and give the place of use, and if for irrigation, state the number of acres, and give the legal description of same.

Ans. The waters are stored within natural basins to create and maintain lakes, the water of which promote aquatic plant growth for the propagation of game fish and waterfowl. The waters are used on the following lands: T. 6 S., R. 6 E.B.M., Owyhee County. Sec. 13, SW^4NE^4, S^2NW^4, SW^4, W^2SE^4; Sec. 14, S^2N^2, S^2; Sec. 23, N^2NE^4, W^2, NW^4SE^4; Sec. 24, N^2NW^4.

State of Idaho,
Department of Fish & Game,
518 Front Street,
Boise, Idaho.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. 26518 & R-1062. The proofs are to be made at 10:00 o'clock A.M., on the 30th day of March, 19 65 before Anne Ewell, 518 Front St., Boise, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Owyhee Chronicle Homedale, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E TAPPAN

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Boise, Idaho
January 4, 1965

RE: Permit No. R-1062

Dept. of Fish & Game
State of Idaho
Building

Dear Sir:

Under the terms of your Permit No. R-1062 you are required to complete your diversion works on or before March 18, 1965. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of $5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

State Reclamation Engineer

Bruneau Sand Dune Lakes

Mr. Geo. N. Carter
State Reclamation Engineer
State House
Boise, Idaho

Dear Sir:

Enclosed herewith is Application for Permit to Appropriate and Store the Public Waters of the State of Idaho.

This application is to be a companion to that Application for Permit to Appropriate the Public Waters of the State of Idaho submitted to your office on March 3, 1960, and designated Bruneau Sand Dune Lakes.

Very truly yours,

Ross Leonard, Director
