Department of Reclamation

## NOTICE FOR PUBLICATION NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 24th day of August, 1962, at Boise, County of Ada, State of Idaho, before Joan H. Bain, 329 Idaho Bldg., Boise, Idaho, proof will be submitted of the application to beneficial use of 950 Ac. feet per second of the waters of Louse Ck. in accordance with the terms and conditions of Permit No. R-894 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and post office address of the person or corporation holding said permit W. P. Strickland, Bruneau, Idaho.

The use to which said water has been applied is irrigation and domestic.

The amount applied to beneficial use is 950 acre ft.

The point of diversion of said water is SW $\frac{1}{4}$ NW $\frac{1}{4}$ , Sec. 30, T11S - R6E., B. M., Ida.

The place where said water is used (LEGAL DESCRIPTION) S $\frac{1}{2}$ NE $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$ , SE $\frac{1}{4}$ , Sec. 30; NE $\frac{1}{4}$ NE $\frac{1}{4}$ , Sec. 31, T11S - R6E., B. M., Ida.

The date of priority which said user is prepared to establish is 8/18/52.

GEO. N. CARTER,  
State Reclamation Engineer  
(July 12 - Aug. 2)

Priority August 18, 1952

THIS IS TO CERTIFY that W. P. STRICKLAND  
of Bruneau, Idaho, made application for a permit to appropriate the  
public waters of the State of Idaho, dated August 18, 19 52; that Permit No. R-894  
was issued under said application; that Certificate of Completion of works, with a carrying capacity of  
950 A.F. second feet was issued thereunder on December 12, 19 58, showing that said works  
were completed on the 26th day of August, 19 57; and that on the 24th  
day of August, 19 62,  
W. P. STRICKLAND

of Bruneau, State of Idaho, made proof to the satisfaction of the  
State Reclamation Engineer of Idaho, of the right to use the waters of Louse  
Creek, a tributary of Bruneau River, for the purpose of irrigation and  
domestic use under Use Permit No. R-894 of the Department of Reclamation  
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,  
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume  
13 of Licenses at page 8063, on the 10 day of December, 19 64;  
The right hereby confirmed dates from August 18, 19 52;

The Point of Diversion is located  
in the SW 1/4 NW 1/4, Sec. 30, Tp. 11 S., R. 6 E., B. M. Owyhee County  
That the amount of water to which such right is entitled and hereby confirmed, for the purposes  
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall  
not exceed 775 A.F. cubic feet per second.

Description and location of use:

# APPLICATION FOR PERMIT

To Construct a Reservoir and Appropriate and Store  
The Public Waters of the State of Idaho

Application No. R 30749  
Permit No. R 894

1. Name of Applicant: W. P. STRICKLAND

Postoffice address: Bruneau

County Owyhee

State Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of Capital Stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors:

II. The financial resources of the corporation are.

(a) Cash on hand: \$

(b) Treasury Stock: \$

(c) Bonds to be issued: \$

(d) Other resources:

2. Quantity of water to be stored: Estimated 950 acre feet per annum.

3. Source of water supply is Louse Creek (Creek) (River) (Spring), a tributary of Bruneau River River.

4. The outlet of the proposed reservoir is located 400 ft. North, distant from the S.E. corner of Section 30, Township 11 S., Range 6 E., B. M. and is in the SW 1/4 of NW 1/4 of Section 30, Township 11 S., Range 6 E., B.M. County of Owyhee

5. Fill out either (a) or (b).

(a) The reservoir is located in the channel of Louse Creek (Creek) (River).

(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located (bearing) feet distant from the corner of Section, Township, Range, B. M., and is in the 1/4 of 1/4 of

Section, Township, Range B. M.; width at bottom feet, width at top

feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second.

6. (a) The area of the high water line of the reservoir is approx. 240 acres.

(b) The reservoir capacity is Estimated (new height) 950 acre feet.

7. Height of reservoir dam 100 feet, length at top 18 feet, length at bottom 118 feet, size of outlet (See attached plan) feet. The dam is to be constructed of materials as follows: See attached engineer's plans and specifications (If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of

Louse Creek (Creek) (River)? Yes

(b) Water stored in reservoir will be carried in the channel of Louse Creek (Creek,) (River,) a distance of No diversion from channel

miles to point of diversion located (bearing) feet, distant from the corner of Section

Township, Range, B. M., and in the 1/4 of 1/4 of Section Township, Range

B. M.

9. (a) Area of watershed above dam site 12 square miles

(b) Estimated maximum flow of stream 14 cubic feet per second.

10. Water is to be used for Irrigation and domestic purposes.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water (bearing) feet, distant from Corner of Section, Township, Range B. M. and is in the 1/4 of 1/4 of Section, Township, Range, B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to (Creek) (River) (Spring) at a point (bearing) feet

distant from the corner of Section, Township, Range, B. M. in

the 1/4 of 1/4 of Section, Township, Range, B.M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No.

15193, which is hereby referred to and made a part hereof.

13. Kind of diversion works: See attached plans

(Dam, canal, flume, pipe, etc.)

14. Height of diversion dam: feet, length at top feet, length at bottom feet. The dam is to be constructed of materials as follows:

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

- Plans
15. Size of headgate: Width See attached/feet, Height feet.
16. Diversion Canal: Width at bottom feet, width at water line feet, depth of water feet, Dimensions of Flume  
Diameter of Pipe inches; Length of Conduit miles. Average grade per mile feet.
17. Estimated cost of Works: Storage Works: \$ 3,500.00 Diversion Works: \$
18. Time required for completion of work five (5) years.
19. Time required for complete application of water to proposed beneficial use is five (5) years.
20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

| Twp.  | Range | Sec. | NE $\frac{1}{4}$ |                  |                  |                  | NW $\frac{1}{4}$ |                  |                  |                  | SW $\frac{1}{4}$ |                  |                  |                  | SE $\frac{1}{4}$ |                  |                  |                  | Totals |
|-------|-------|------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|--------|

### INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

**REPORT OF ENGINEER**

Permit No. R-894This proof is for Beneficial Use

In Water District No. \_\_\_\_\_

1. Name of applicant W. P. Strickland2. Source of water supply: Louse Creek3. Location of point of diversion: Is in the SW 1/4 of Section 30T. 11 S. R. 6 E. County of Owyhee

4. Describe works as they exist, giving dimensions and capacities of same:

Earth fill dam, 34' high, 950' crest length, 12' crest width; 3:1 upstream slope; 2:1 1/2 downstream slope. Riprapped upstream side, 5' free-board. 12" conduit. Rock riprap head wall at outlet. Screw gate with control rod on face of dam. Supports are old grader blades set vertical in concrete. Rod is 7/8" welded to 3/4" pipe not protected by oil tube. The spillway is on the south end of the dam, blasted out of rock, with a canal leading on a contour around the hillside well away from dam, 8' deep by 27' wide on top and 11' wide on bottom. Water line 2 1/2' deep x 16'. Outlet ditch is 2' deep x 6' top width x 4' to 5' bottom width.

## REMARKS

Length of crest was measured starting with 0+00 at north edge of spillway on south end of dam. Between station 4+00 and 5+16' there is a longitudinal cracked section varying in width 1" to 3" and appears to be deep. This section of fill varies in depth from 2' to 6' due to a rock ridge that runs through this part of the fill. Center is at station 6+36'. There are no leaks in any part of the fill. Recommend the cracked section be barred and puddle tamped and refilled.

The deep part of the fill between station 6+36' and 9+50' has a wet area approximately 4' up from the toe with an alkali crust with bees working. The area below the toe is marshy. There is no sluffing in fill due to the wetness.

Re: Permits No. R-881 and R-894  
William P. Strickland

Mr. Harley M. McDowell  
P. O. Box 2161  
Boise, Idaho

Dear Mr. McDowell:

Enclosed is the Certificate of Completion of Works issued under Permit No. R-881 for the storage of 260 acre feet per annum of the waters of Rodera Lake Creek or Snow Creek (which amount increased the amount under Permit R-717) with point of outlet in the NE $\frac{1}{4}$ SW $\frac{1}{4}$  Section 15, Township 15 South, Range 4 East, B.M., for irrigation of 520 acres in E $\frac{1}{2}$ SE $\frac{1}{4}$  Section 34; N $\frac{1}{2}$ SW $\frac{1}{4}$ , N $\frac{1}{2}$ SE $\frac{1}{4}$ , SE $\frac{1}{4}$ SE $\frac{1}{4}$  Section 35, Township 14 South, NE $\frac{1}{4}$ NE $\frac{1}{4}$  Section 3, E $\frac{1}{2}$ NE $\frac{1}{4}$ , E $\frac{1}{2}$ SE $\frac{1}{4}$ , SW $\frac{1}{4}$ SE $\frac{1}{4}$  Section 2, Township 15 South, Range 4 East, B.M. Also, enclosed is departmental receipt #28477 for \$5.00, issued as receipt of the fee for the Certificate of Completion of Works.

Permit No. R-894

The field engineer's report on his inspection of the completion of works under the terms of Permit No. R-894 states that the reservoir is adequate for storage of 950 acre feet per annum (estimated) from Louse Creek. A Certificate of Completion of Works can be issued upon receipt of the statutory fee of \$5.00, for the diversion and storage of 950 acre feet, with point of diversion (outlet at dam) in the SW $\frac{1}{4}$ NW $\frac{1}{4}$  Section 30, for irrigation in the S $\frac{1}{2}$ NE $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$  and SE $\frac{1}{4}$  Section 30 and NE $\frac{1}{4}$ NE $\frac{1}{4}$  Section 31, Township 11 South, Range 6 East, B.M.

Mr. William P. Strickland  
Brunson, Idaho

Dear Mr. Strickland:

This acknowledges receipt of your check in the amount of \$10.00 which we assume was issued to cover the fee for the Certificate of Completion of Works on Permit No. R-894.

We refer you to our letter of November 6, 1958, in which we stated, the Certificate of Completion of Works would be issued upon the receipt of the statutory fee of \$5.00.

We are therefore, returning your check in the amount of \$10.00 and ask you to please substitute it with a check in the amount of \$5.00.

Very truly yours,

GEO. N. CARTER

Dear Mr. Strickland:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Owyhee  
Nugget, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER  
State Reclamation Engineer

Permit No. R-894

## Proof of Application of Water to Beneficial Use

### Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. William P. Strickland; residence - 3 miles south of Bruneau, Idaho; occupation - farming and livestock; postoffice address - Bruneau, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. I am acting as an individual

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Number of my permit is # R-894, date of the permit is 8/18/52, date of priority is 8/18/52

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water is from Louse Creek which is a tributary of the Bruneau River. Point of diversion is SW $\frac{1}{4}$ NW $\frac{1}{4}$ , Sec. 30, T11S - R6E., B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

The dam at the bottom is approx. 190' through, 18' wide at top.  
Ans. The raise here is 12' and is made up of rock and earth and is rip-rapped on the slope is 2 to 1 on water side, 3 to 1 on downstream side. Distribution is through my private ditch which has a 4' bottom, 7' top, 5' deep and will carry 300". The raise increased the capacity of the reservoir by at least 950 ac. ft. and it is full and I have used this water on the land. (As a matter of fact, this overflowed. I have an iron headgate & a cement block w/a screw control works at the top of the dam. The reservoir outlet is concrete w/18" walls.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The purpose of this water is for irrigation. This water irrigates the SE $\frac{1}{4}$ NE $\frac{1}{4}$  (35 ac.), SW $\frac{1}{4}$ NE $\frac{1}{4}$  (30 ac.), SE $\frac{1}{4}$ NW $\frac{1}{4}$  (10 ac.), NW $\frac{1}{4}$ SE $\frac{1}{4}$  (40 ac.), NE $\frac{1}{4}$ SE $\frac{1}{4}$  (20 ac.), SE $\frac{1}{4}$ SE $\frac{1}{4}$  (20 ac.), SW $\frac{1}{4}$ SE $\frac{1}{4}$  (20 ac.) in Section 30; NE $\frac{1}{4}$ NE $\frac{1}{4}$  (10 ac.) in Sec. 31, all in T11S - R6E., B.M. This development has all been a result of this improvement and cultivation. There is very little natural meadow here and this improvement cost \$9,000 to date.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Not a ground water permit. Surface storage permit.

R-894

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. This is for irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I need all the water I have here.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the same person that originally applied for the permit.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I started this work immediately after the permit was issued and 1962 is the first irrigation season that I have use all the water on all of this land.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. The only other water here is the original permit #G-15193, issued to Joseph C. Strickland and deeded to me.

(Sign) *J. C. Strickland*

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Boise, County of Ada,

State of Idaho, on this 24th day of August, A. D. 1962.

**Deposition of Witness**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Robert A. Pinkston; age - 24 yrs.; residence - Bruneau, Idaho; -occupation -  
student; postoffice address - Bruneau, Idaho

Ques. 2. Are you acquainted with W. P. Strickland, the holder of Permit No. R-894? How long have you known him and where does he reside?

Ans. I have known Bill all of my life and know that he lives 3 miles south of  
Bruneau, Idaho

Ques. 3. Have you read or heard read said Permit No. R-894, and are you familiar with its provisions and conditions?

Ans. I am familiar with said permit.

Ques. 4 State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The water supply is from Louise Ck., the place of diversion is SW $\frac{1}{4}$ NW $\frac{1}{4}$ , Sec. 30,  
T11S-R6E. There is a 12' raise made up of rock & earth & rip-rapped w/rock on the  
water side. The dam is approx. 196' through & 18' wide at the top. 2 to 1 slope on the  
water side & 3 to 1 slope on downstream side. There is an iron headgate & a cement block  
w/a screw control works at top of dam. Concrete reservoir outlet w/18" walls. Water is  
through his private ditch which has a 4' bottom, 7' top & is 5' deep.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The works will carry 300" which I have seen conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used to irrigate SE $\frac{1}{4}$ NE $\frac{1}{4}$  (35 ac.), SW $\frac{1}{4}$ NE $\frac{1}{4}$  (30 ac.), SE $\frac{1}{4}$ NW $\frac{1}{4}$  (10 ac.),  
NW $\frac{1}{4}$ SE $\frac{1}{4}$  (40 ac.), NE $\frac{1}{4}$ SE $\frac{1}{4}$  (20 ac.), SE $\frac{1}{4}$ SE $\frac{1}{4}$  (20 ac.), SW $\frac{1}{4}$ SE $\frac{1}{4}$  (20 ac.), Sec. 30; NE $\frac{1}{4}$ NE $\frac{1}{4}$   
(10 ac.), Sec. 31, in T11S - R6E., B.M. There is no natural meadow. This has all  
been a direct result of this improvement.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. The water is used for irrigation only.

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is good black mountain soil and he needs every bit of water he has right now to irrigate it.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in this at all.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I saw the old dam here before this raise was put in and have had an opportunity to see this new dam and the way it irrigates several times each summer.

## Proof of Application of Water to Beneficial Use

### Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Buster Theodore Jewett; age - 53 yrs.; residence - 8 mi. south of Bruneau, Idaho; occupation - ranching; postoffice address - Bruneau, Idaho

Ques. 2. Are you acquainted with W. P. Strickland, the holder of Permit No. R-894? How long have you known him and where does he reside?

Ans. I have known him for 50 yrs. and know that he lives 3 mi. south of Bruneau, Idaho

Ques. 3. Have you read or heard read said Permit No. R-894, and are you familiar with its provisions and conditions?

Ans. I know about this permit.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The source of the water is from Louse Ck. with the place of diversion in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ , Sec. 30, T11S-R6E. The raise is 12' & made up of rock & earth & rip-rapped w/rock on the water side. The dam is approx. 196' through at the bottom & 18' wide at the top, with a 2 to 1 slope on the water side & 3 to 1 on the downstream side. It has an iron headgate & a cement block w/screw control works at the top. The outlet is concrete w/18" walls. Water is diverted through his private ditch 5' deep w/ a 7' top and 4' bottom.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The works will conduct 6 cfs.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water irrigates SE $\frac{1}{4}$ NE $\frac{1}{4}$  (35 ac.), SW $\frac{1}{4}$ NE $\frac{1}{4}$  (30 ac.), SE $\frac{1}{4}$ NW $\frac{1}{4}$  (10 ac.), NW $\frac{1}{4}$ SE $\frac{1}{4}$  (40 ac.), NE $\frac{1}{4}$ SE $\frac{1}{4}$  (20 ac.), SE $\frac{1}{4}$ SE $\frac{1}{4}$  (20 ac.), SW $\frac{1}{4}$ SE $\frac{1}{4}$  (20 ac.), Sec. 30; NE $\frac{1}{4}$ NE $\frac{1}{4}$  (10 ac.), Sec. 31, in T11S - R6E., B.M. There are no natural meadows. This has all been a direct result of this improvement.

R-894

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. This is only used for irrigation

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is black mountain soil. He needs all he has to irrigate it.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen this every year many times. In fact, I was familiar with it before there was any dam here, with the range, the crops, and the way it has been irrigated at all times.

Brutus Theodore Jernett

Re: Permit No. R-894  
W. P. Strickland

Mr. Harley M. McDowell,  
Idaho Land and Appraisal Service,  
Box 2161,  
Boise, Idaho.

Dear Mr. McDowell:

This acknowledges the Notice of Proof of ~~Completion of Work~~ Application  
of Water to Beneficial Use under Permit No. R-894, in the name of  
W. P. Strickland. Final Proof is to be made before you, as  
Notary on the 24th day of August, 1962, ~~1962~~ at 10:00 o'clock  
A.M., at 329 Idaho Bldg., Boise, Idaho.

As of this date we have mailed the Notice to the Oxyhee Nugget, Marsing, Idaho  
with instructions to publish it once a week for four consecutive weeks prior  
to the date set for final proof and then mail the Affidavit of Publication and  
statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder  
and two disinterested witnesses who are familiar with the terms of the permit  
and the work done thereunder, at the time, on the date and before you, as  
Notary, as stated in the publication notice. It is very important and  
necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been  
signed, that your Notary's seal has been placed on each and that all depositions,  
(Holder and two witnesses) are being returned. Also be sure to enclose the  
Affidavit of Publication.

Very truly yours,

GEO. N. CARTER  
State Reclamation Engineer

R-894

## STATE OF IDAHO

## DEPARTMENT OF RECLAMATION

Re: Permit No. R-894  
W. P. Strickland

Date: June 5, 1962

Harley M. McDowell  
Box 2161  
Boise, Idaho

Dear Mr. McDowell:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. R-894 is due not later than August 28, 1962. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Very truly yours,

*GEO. N. CARTER*

Re: Permit # R-894 and R-881

Mr. William P. Strickland  
Bruneau, Idaho

Dear Mr. Strickland:

Statutes requires a field inspection in connection with the proofs on Permit # R-894 and R-881 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Tuesday

October 21, 1958 I will be there as soon as I can drive over from Boise in the morning.  
If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Very truly yours,

GEO. N. CARTER  
State Reclamation Engineer  
By

E. N. Humphrey  
Deputy

**Note:**

If for any reason inspection cannot be made at this time, please advise by return mail or phone.

## Proof of Completion of Works

### DÉPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. ~~My name is H. P. Strickland, residence 3 1/2 miles South of Bruneau, Idaho.~~

~~Occupation is livestock and farming, P. O. Address is Bruneau, Idaho.~~

Ques. 2. If acting on behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. ~~Acting as an individual.~~

Ques. 3. State number and date of permit, acre feet of water you claim for storage, and source of same.

Ans. ~~The number of my permit is R-894, date of the permit is August 18th, 1952 and 950 acre feet of storage. The source of the water is Louse Creek.~~

Ques. 4. Under terms of permit construction was required to be completed by ~~August~~

~~28th~~ 19-57.

Ques. 5. Construction was actually completed on the date of ~~August 25th~~ 19 57.

Ques. 6. Does the construction fully comply with the specifications? ~~Yes.~~

Ques. 7. Of what material was the dam built? ~~This dam originally had a clay core, the raise for which this permit is applied is made up of rock and earth and is rip-rapped on the water side with rock.~~

Ques. 8. State whether or not the water has been turned into your reservoir, and if so, when and to what extent.

Ans. ~~Water has been turned into this reservoir for many years up to the raise, but there has been no water up on the actual raise, for which this permit is made. There will be water on it in 1958.~~

Ques. 9. The capacity of the reservoir is ~~950~~ acre feet. (included in this raise.

Ques. 10. The area of the high water line of the reservoir is ~~300~~ acres. (including the raise)

Ques. 11. The height of the dam above bottom of reservoir is ~~40'~~ feet, above low water is ~~6~~ feet. (the raise here is 12 feet)

Ques. 12. The dimensions of the spillway are ~~24'~~ and the bottom of the spillway is ~~6'~~ feet below the top of the dam.

Ques. 13. Dimensions of the reservoir outlet are ~~14" headgate~~

Ques. 14. Describe the gate and control unit.

Ans. ~~Have an iron headgate and a cement block with a screw control works at the top of the dam. The reservoir outlet is made of concrete.~~

Ques. 15. The reservoir outlet is made of ~~concrete~~

Ques. 16. Is the reservoir filled through a feeder canal? ~~natural creek channel, no feeder canal.~~

Ques. 17. If so, where is the point of diversion for same?

Ans. ~~400' north from SE corner~~  
 SW  $\frac{1}{4}$   $\frac{1}{4}$  SW  $\frac{1}{4}$  Section, ~~30~~ Twp. ~~11 S~~ Range ~~6 E~~

R-894

Ques. 18. Does the feeder canal comply with the specifications in the permit? No feeder canal.

Ques. 19. If not, explain This is all fed right from the natural channel of Louse Creek, Crab Creek and China Creek come into Louse Creek above. They are all tributaries.

Ques. 20. Cost of constructing feeder canal? \$ None Cost of reservoir? \$ 6,000.00  
This raise will cost

Ques. 21. State whether or not the works from reservoir outlet to place of use are fully completed, and whether or not they comply with the specifications in permit. If not, explain.

Ans. Completed to specifications, as requested.

Ques. 22. Water ~~has~~ (has not) been delivered to place of intended use? for this raise.

Ques. 23. Give description of dam, state dimensions, and give slope of face both upstream and downstream. Also method and material for protecting against wave action.

Ans An earth dam with rock and rip-rap. The dam at the bottom is 196' through; 18' wide at the top. The slope is 2 to 1 on the water side and 3 to 1 on the downstream side. Rough rock rubble is rip-rapped for protection against wave action. (Rip-rap is 2 1/2 thick)

Ques. 24. State the purpose for which the water is to be used and give the place of use, and if for irrigation, state the number of acres, and give the legal description of same.

Ans This water is for irrigation, and the place of use is Township 11 South, Range 6 East, Sec. 30, S 1/2 NE 1/4, SE 1/4 NW 1/4, SE 1/4. Sec. 31, NE 1/4 NE 1/4, and I can irrigate at least 225 acres of this area.

Dear Sir:-

Under the terms of your permit No. R-894 you are required to complete your diversion works on or before August 28, 1957. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

**MARK R. KULP**  
State Reclamation Engineer

RE: Permit No. R-894

Mr. Harley M. McDowell  
Idaho Building  
Boise, Idaho

Dear Mr. McDowell:

We enclose Permit No. R-894 in the name of W. P. Strickland, together with departmental receipt No. 24786 for the \$5.75 filing fee.

We direct Mr. Strickland's attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We are withholding issuance of license on Permit No. 15193 awaiting your information as to whether this is to be issued to Joseph C. Strickland, or direct to W. P. Strickland.

Very truly yours,

MARK R. KULP  
State Reclamation Engineer  
By

Chief Clerk

A:fg  
Enc.

R-894

Mr. Humphrey will check on this Permit for the  
completion of construction in the spring of  
1958.

EPR

10/10/57

As per Mr. Humphrey

P-894

**NOTICE FOR PUBLICATION  
NOTICE OF PROOF  
APPLICATION OF WATER  
TO BENEFICIAL USE**

Notice is hereby given that at 10 A. M. on the 24th day of August, 1962, at Boise, County of Ada, State of Idaho, before Joan H. Bain, 329 Idaho Bldg., Boise, Idaho, proof will be submitted of the application to beneficial use of 950 Ac. feet per second of the waters of Louse Ck. in accordance with the terms and conditions of Permit No. R-894 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and post office address of the person or corporation holding said permit W. P. Strickland, Bruneau, Idaho.

The use to which said water has been applied is irrigation and domestic.

The amount applied to beneficial use is 950 acre ft.

The point of diversion of said water is SW $\frac{1}{4}$ NW $\frac{1}{4}$ , Sec. 30, T11S - R6E, B. M., Ida.

The place where said water is used (LEGAL DESCRIPTION) S $\frac{1}{2}$ NE $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$ , SE $\frac{1}{4}$ , Sec. 30; NE $\frac{1}{4}$ NE $\frac{1}{4}$ , Sec. 31, T11S - R6E, B. M., Ida.

The date of priority which said user is prepared to establish is 8/18/52.

**GEO. N. CARTER,**  
State Reclamation Engineer  
(July 12 — Aug. 2)
